BOAT BLOWS UP; 14 DEAD

NEW DISASTER IN OHIO RIVER

**Towboat Sinks Soon After
Boilers Explode Near
Huntington, W. Va.**

MANY HURLED INTO STREAM BY BLAST

**Fourteen Believed Dead
and Many Others Hurt
in Accident.**

Huntington, W. Va., Feb. 2.—The Sam Brown, a Pittsburgh towboat, sank within a few minutes after her boilers exploded in the Ohio river opposite this city at 11:05 o'clock today. It is believed that few of the crew were saved. A few survivors from the Sam Brown but not more than six in all, reached the Ohio side of the river following the explosion. Debris from the boat landed on both banks of the river. The boat was blown to pieces and sank immediately. A great majority of the members of the crew, approximately thirty, are believed to have perished.

Ben J. Williams, mate of the towboat, a survivor, says there were thirty-four persons on board the boat. Of these twenty were later accounted for. Fourteen are missing and it is believed that they are dead.

Captain Lew C. Blair, of Pittsburgh, in command of the boat, is missing and is believed dead. Four men injured in the explosion are in a hospital here. The Sam Brown had come from the Kanawha river with a tow of barges. It is believed that nearly every person who was in the neighborhood of the boilers was instantly killed.

Other members of the crew were hurled into the water, some of them painfully injured but owing to the proximity of the shore most of them were able to reach the bank.

The cause of the explosion is not known. Included in the list of known dead are C. H. Robinson, Wm. Cousins and Wesley Fess, firemen, who were on duty at the time of the explosion. All resided in Middleport, O.

HOG SEES SHADOW, THEN GOES BACK

The groundhog saw its shadow in Fort Wayne Wednesday with the result, according to old-timers who declare it never fails, that there will be six more weeks of cold weather. The groundhog did not tarry long as it no sooner saw its shadow than it hurried back into its hole, where it will remain until spring. On Thursday there will be an eclipse of the sun and what effect groundhog day will have on it is a subject on which men differ. The eclipse of the sun will begin at 9:16 a. m. and last until 11:04 a. m. It will be seen over Indiana as a partial eclipse, though in some parts of the world it will be total.

ARCHITECT WING IN ELEVATOR ACCIDENT

Architect J. E. Wing, residing at 215 West Creighton avenue, had a narrow escape from possible death Tuesday afternoon when he attempted to get off of the south elevator at the seventh floor of the Shoff building. The elevator did not stop even with the floor and when Mr. Wing started to get off the operator started the car too quickly, with the result that his left foot was caught between the floor and the car. The ends of his toes were painfully mashed, but no bones were broken. He was otherwise injured, but not seriously.

SUITS ARE DISMISSED.

Boston, Feb. 2.—The four suits brought by the Guaranty Trust company, the National City bank and Charles W. Rantoul, jr., of New York, and Maurice Hansens, of Brussels, against the North German Lloyd Steamship company to recover more than two million dollars in damages because the steamer Kronprinzess Cecilie failed to complete her voyage to France and England, just before the outbreak of the war, were dismissed today.

FIRE IN RAILWAY STATION.

Indianapolis, Feb. 2.—Fire in the Union railway station here today caused damage estimated at \$10,000. The loss was principally on records and office fixtures. The cause of the fire which started in a store room on the third floor and spread to the roof, is not known. Train service was not seriously hampered.

18 INCHES OF SNOW AND MORE FALLING

**Rail Traffic at Seattle is
Tied Up and Business
Crippled.**

Seattle, Wash., Feb. 2.—Eighteen inches of snow stopped railroad traffic here today disorganized the public schools and crippled business and manufacturing. It is still snowing. The Northern Pacific is working with snow plows, but Great Northern and Chicago, Milwaukee and St. Paul trains are laid up in division point yards, or snow bound in the mountains. The Milwaukee division yards near Cle Elum, are under six feet of snow. Advice from Juneau, Alaska, say eleven men perished in the recent storm. The fishing schooner Edison, of Tacoma, was wrecked on Cape Decision and her crew of six perished. Two men were lost from the fishing schooner Eunice. The gas boat W. N. was wrecked at Cape Bendel and two men lost. Herbert Allen was frozen to death near the Olympia mine.

LAKE TOWNSHIP IS TO RETAIN SALOONS

In the option election held Tuesday in Lake township this county, a majority of 21 was polled by the "wets" and the township will retain its saloons. There were 269 ballots cast—143 for and 122 against the saloons. Four ballots were thrown out by the election board because they were spoiled. Interest displayed in the election exceeded expectations. Lake township has but 249 registered voters, but the option fight brought to the polls twenty votes in excess of the registration. There are approximately 300 voters in the township and 90 per cent. of them went to the polls. The voting took place at the Lake Center school house and the Australian ballot was used in order that the trouble of hauling a heavy voting machine from the city might be avoided. It was 9 o'clock Tuesday night before the count had been completed and the result made known. The only saloons in Lake township are situated in the village of Arcola and they will continue in business.

INCORRIGIBLE BOY ATTACKS TEACHER

Juvenile probation officers are investigating an attack that was made Tuesday by an incorrigible boy on Miss Margaret Essig, teacher at No. 8 school in Wayne township. Miss Essig has had much trouble with two boys in her room, but not until Tuesday was an attempt made to do her bodily injury. She undertook to punish one of them for some offense he had committed when the boy grabbed her by the throat, attempted to choke her and otherwise injure her. The incident was reported to Trustee Henry P. Scherer, who has turned the case over to the juvenile officers. It is expected that stringent action will be taken.

ONE FT. WAYNE BANK OBSERVES THRIFT DAY

The Old National bank Wednesday observed thrift day in celebration of the one hundredth anniversary of the savings bank idea in this country. The American Bankers' association has made arrangements to carry on this year a country wide educational campaign on thrift, and heads of Fort Wayne banks have been asked to set aside a day to be known as thrift day.

According to statistics that have been compiled by the First National bank there are only 108 savers in America per thousand population, as compared with 544 in Switzerland, 385 in Sweden, 220 in France, 202 in England 228 in Italy.

COAL DEALER FILES BANKRUPT PETITION

Cyrus S. Swank, proprietor of the Independent Coal company, 1017 Wells street, filed Wednesday his voluntary petition in bankruptcy in the federal court scheduling liabilities at \$4,045.19 and assets at \$1,095. He claims \$600 exemption. The unsecured claims principally for coal purchased amount to \$4,045.19. The petition was filed for Swank by Attorney Levi A. Todd.

RESIGNS AS STORE MANAGER.

J. G. Lewis has resigned his position as manager of the Independent 5 and 10 cent store to accept a position with the Home Stores company of Milwaukee as inspector of its stores in northern Michigan. Mr. Lewis will be located at Escanaba, Mich., and will leave Thursday for his new position.

WILSON IN A ZERO PARADE

**President and His Wife

Auto at Topeka.**

AT TURNING POINT IN PRESENT TOUR

**Kansas Capital, Undaunted
by Cold, Gives Wilson
Warm Welcome.**

MAY BE NECESSARY TO USE FORCE, SAYS WILSON.

Topeka, Kan., Feb. 2.—"For one thing, it may be necessary," the president said with an emphatic gesture in his address here this afternoon, "to use the forces of the United States to vindicate the rights of American citizens everywhere to enjoy the rights of international law."

"America is not going to abide the habitual or continued neglect of those rights."

Topeka, Kas., Feb. 2.—President Wilson reached Topeka, the turning point of his middle western tour this forenoon. He was greeted with a salute of 21 guns and escorted by state troops through the principal streets to the residence of Gov. Capper, whose guest he was till 1 o'clock when he addressed an audience in the auditorium. President and Mrs. Wilson rode over snow-packed streets in zero weather in an open automobile. A crowd cheered them at the station but most of the city's 50,000 population lined the sidewalks along the way to the governor's residence. Although the weather was cold the day was clear. The president tucked the collar of his great coat up behind his ears and Mrs. Wilson's face could hardly be seen for her furs.

Street Parade in Zero Chill. The president was met at the station by Gov. Capper, republican; Mayor J. E. House, of Topeka, and W. W. Webb, president of the Commercial club. Kansas national guardsmen held the crowd back.

For the first time on his present tour the president participated in a long street parade lasting 45 minutes. Preceding his automobile were several companies of national guardsmen and following was a brass band playing popular and patriotic airs. American flags had been distributed in advance to the crowds along the way. Schools held no sessions, the state house employees were given a day off and city employees had a half holiday.

At Gov. Capper's home he stood on the porch for a moment and waved his hat. With Mrs. Wilson, Secretary Tamm and Dr. Grayson, he then went in to luncheon.

What Capper Said.

Gov. Capper, introducing the president to the six thousand persons gathered in the municipal auditorium, praised him for keeping the United States out of war but added, "many of us are not in accord with the program

COMMITTEE CUTS COLOMBIAN CLAIM

**Reduces Proposed Payment
and Tones Down the
Apology.**

Washington, Feb. 2.—Reducing the proposed payment to Colombia from \$25,000,000 to \$15,000,000 and altering the proposed apology of the United States for the partition of Panama to make it a mutual expression of regret on the part of the United States and Colombia, the senate foreign relations committee today ordered a favorable report on the long pending Colombian treaty.

The vote on the treaty was eight for to seven against. Senator Clarke, of Arkansas, was the only democrat voting against it. By a vote of ten to three the committee also favorably reported the treaty to pay Nicaragua \$3,000,000 for a canal route and naval bases in the Bay of Fonseca.

The senate today rejected 9 to 16 an amendment by Senator Cummins to the Philippine bill which would give the people of the island their independence only after they had voted in favor of being free from United States control.

TWO MORE CLUBS FOR CIVIC FORUM

Two more organizations Wednesday endorsed the civic forum or federation of all civic clubs in the city and at a meeting of the presidents of the various clubs Thursday a permanent organization will be effected. Favorable action was taken at the regular weekly meeting and luncheon of the Fort Wayne Rotary club and at a meeting of the directors of the Commercial club, Wednesday afternoon.

At the meeting of the Rotary club the members voted to attend in a body the district meeting to be held in South Bend on Washington's birthday, February 22. The club will charter a special car. Maurice Niezer sang a solo and Leipzig, who is appearing at the New Palace theater, performed a number of card tricks.

BULLETIN.

Washington, Feb. 2.—Vice President Marshall cast a deciding vote in the senate today on the Philippine bill, helping to pass the Clark amendment to withdraw the sovereignty of the United States from the islands not sooner than two years and not later than four. Fifteen democrats voted against it.

AGENT MAKES TEST.

Country Club Has Closed Deal for Purchase of Thirty More Acres.

For the purpose of testing the soil and making a general survey of the grounds, Clarence Henry, county agricultural agent, spent Wednesday at the Country club. Several different samples of soil were taken by the county agent and the results of his tests will be made known in a few days. The Country club contemplates the beautifying of its grounds and the sowing of much grass. The club has closed the deal for the purchase of thirty more acres.

NEAR 3 000,000 RED CROSS SEALS SOLD

**Indiana Smashed Record in
Recent Effort—Allen
County's Pennant.**

Indianapolis, Feb. 2.—The Indiana Society for the Prevention of Tuberculosis has issued a report showing that 1915 Red Cross seal sales in the state exceeded all previous records. It is shown that through all agencies 2,906,594 seals were disposed of during the holidays, netting more than \$26,000 for anti-tuberculosis work in this state during this year.

Of this amount more than \$22,000 remains with local anti-tuberculosis societies for intensive local work; \$2,861.26 representing 10 per cent. on the first 2,000,000 seals sold and 9½ per cent. on the remainder, will go to the American Red Cross, and after the expenses of the Red Cross seal campaign are paid approximately \$2,500 will remain in the treasury of the state anti-tuberculosis society for educational, publicity and propaganda work.

Allen county won the pennant with a per capita sale of 3.8 in class A. Vigo was given honorable mention.

8 OR 10 HURT IN WRECK ON PENNSY

**Five Cars of Pittsburgh-New
York Express Derailed
at Seward, Pa.**

Pittsburg, Pa., Feb. 2.—Five cars of the Pittsburgh and New York day express on the Pennsylvania railroad were derailed as the train passed Seward, Pa. 67 miles east of Pittsburgh, this morning at 11:30 o'clock.

Eight or ten passengers were slightly injured and with the remainder of the passengers were placed on the front part of the train and taken to Altoona.

The derailed cars were two sleepers a dining car and two chair cars, the last cars on the train. The sleepers turned over but the others remained upright.

PROGRESSIVES MEET BEHIND CLOSED DOORS

For the purpose of selecting delegates to the state convention and to discuss the advisability of nominating a county ticket a meeting of the progressive organization in Allen county was held Wednesday afternoon in the office of H. F. J. Reiter on Court street. The meeting was held behind closed doors and newspaper reporters and all others not identified with the organization were barred.

"We are hopeful of nominating a county ticket," declared Mr. Reiter Wednesday afternoon. "This meeting was called for the purpose of ascertaining just what could be done."

Today's War News Given in Summary

"Reasonable hope for a positive understanding" between the United States and Germany on the Lusitania issue is felt in Berlin, according to a semi-official announcement there today. Instructions sent to Ambassador von Bernstorff give rise to this hope, it is stated.

Military operations along the various war fronts appear pretty much at a standstill for the moment. Aerial movements have constituted the chief activities of late, except for German advances at important sectors of the line in France. Satisfaction is expressed in German newspapers over the latest Zeppelin attack on England, the military importance of the localities which the Zeppelins are declared to have visited being emphasized.

Indications of possible notable developments in the Balkans are contained in today's dispatches. One from Athens declares that the Germans and Bulgarians, together with a force of 150,000 Turks, are likely to begin an attack on Saloniki about the middle of this month.

A London message quotes Bucharest newspapers as hearing that Greece and Rumania have signed a dual neutrality treaty.

In Mesopotamia the British are still prevented from attempting to advance because of bad weather and floods.

Athens, Feb. 2.—Information received in military quarters here indicates that German and Bulgarian troops supported by 150,000 Turks will be ready to begin an attack on the Franco-British forces at Saloniki about Feb. 15.

Two Greek soldiers, five refugees and seven workmen were killed and fifty civilians were injured by the inflammable bombs dropped early this morning from the Zeppelin in the raid at Saloniki, already reported. No damage was done to military buildings and the population has remained calm.

NEUTRALITY PACT REPORTED.

London, Feb. 2.—The Adevural, a newspaper of Bucharest, declares that Greece and Rumania have signed a dual neutrality convention, according to a dispatch received here by wireless telegraph from Rome.

**Rather Than See Liner Fall

U. S. CONSIDERS LINER'S STATUS

**Old Treaty More Likely to
Govern Than The Hague
Agreement.**

Washington, Feb. 2.—State department officials indicated today that if the British liner Appam, which appeared unexpectedly in Hampton Roads yesterday under a German prize crew is finally held to be a prize, the Prussian-American treaty of 1828 is more likely to govern the case than is The Hague convention.

This would mean that the Appam would be turned over to her German captors and in that case some German officials expressed the view that the prize crew rather than let her fall back into the hands of the British, as would seem inevitable if she left port, might take the ship to the three mile limit and sink her.

In case she is held to have become a German fleet auxiliary, she will have the choice of leaving port after a certain time for supplies or repairs, or returning for the war, as have the Prince Eitel Friedrich and the Kronprinz Wilhelm.

The Original Treaty. The original Prussian-American treaty of 1799 provided:

"The vessels of war, public and private of both parties, shall carry freely wherever they please, the vessels and

WINONA DIVIDEND TOTALS \$97,727.29

The final and only dividend, amounting to \$97,727.29, in the bankruptcy case of the Winona Assembly and Summer School association, was paid Wednesday to creditors holding securities, the general creditors receiving nothing. The amount of the dividend each creditor will receive depends entirely upon the class of securities, of which there are five.

The total amount of claims against the association was in excess of \$900,000. The property of the association was sold some weeks ago at trustee's sale to E. O. Excell, acting as trustee for a new company organized for the purpose of continuing the work at Winona. The payment of the dividend Wednesday brings to a close the bankruptcy proceedings.

LAST MINUTE NEWS

CAPTURED BOAT LINED WITH BOMBS, IS REPORT

Old Point Comfort, Va., Feb. 2.—How the captured British steamer Appam was lined with bombs which could be touched off by the German prize crew at the sign of an uprising among her 400 captives, was told by persons on the ship to Quarantine Inspector McCaffrey, and he related the story today. He said: "According to stories told me by passengers many bombs are planted about the ship and all of them can be exploded by the touching of a secret button. The bombs were placed by the Germans immediately after they took possession of the boat. The Appam's commander, Captain Harrison, and the other English officers were warned that any attempt to overpower the prize crew would result in the ship being blown up without further notice."

TEIPER ADMITS THAT REVOLVER IS HIS OWN

Buffalo, N. Y., Feb. 2.—John Edward Teiper, detained in connection with the Orchard Park tragedy, admits the ownership of the revolver found 75 feet from the automobile in the Orchard Park road, according to an announcement by District Attorney Dudley, at noon today. He said he bought the weapon ten days ago and at first denied ownership. The admission came after the ownership had been traced.

NEWEST AIR RAID WAS AIMED AT WAR PLANTS

Berlin, Feb. 2.—Rumors have circulated here that the Zeppelin raid on England on Monday night was in reprisal for the Baralong affair, but the Associated Press correspondent is assured in authoritative quarters that the attack did not come under that head. It is stated that the Midlands section of England was selected for the raid because it is the center of the munitions industry and because Liverpool is the center of England's commerce and that there was a purpose to bring home to the people of Great Britain the fact that boasted defenses of London did not avail against Germany's air craft and it was intended also to interfere with the preparations being made in England for the carrying on of the British operations in France and Flanders.

The Lokal Anzeiger publishes a long editorial on the Zeppelin raid over England, saying that every one will be convinced that the attack was fully justified on considering the places visited and their military significance. It asserts that Liverpool, which the German admiralty announced yesterday, was bombed, is to be considered primarily as a port of entry for American munitions, whose destruction is our sacred duty.

The Lokal Anzeiger also says that grain ships from Canada dock at Liverpool, referring in this connection to the attempt to "starve out the Germans." Manchester, it says, is the place where England stores its great quantities of cotton. It continues:

"Nottingham, as the chief manufacturing city of England for lace curtains and underwear, could perhaps have induced us to be milder if it had not taken up the manufacture of ammunition."

"Nottingham has learned it is dangerous for cities to play with war equipment and materials during a war."

Even before the war, this newspaper continues, "Sheffield manufactured knives, armor plate, guns and projectiles and therefore 'Sheffield receives a Zeppelin visit the better.'"

GRISWOLD ADDRESSES REAL ESTATE MEN

Speaker Tells of the Early History of Fort Wayne.

B. J. Griswold was the principal speaker Tuesday evening at the regular weekly meeting and luncheon of the Fort Wayne Real Estate exchange at the Commercial club, his address being in the form of court procedure and several early settlers who have long since passed away were put on the witness stand to testify.

Among them were General Anthony Wayne, George Washington, General Tipton, Captain James Riley, John T. Barr, Benjamin Franklin, Stickney, Little Turtle and many other historical characters.

Mr. Griswold dealt with the early history of Fort Wayne, in told of efforts of Henry Rudsill to encourage German immigrants to locate here. Rudsill was sent here in the interests of Byron McKelvie, who, with John T. Barr, made the first plat of the city. He was so industrious in his desire to increase the population of Fort Wayne that he went east and arranged that all Germans, who landed in this country and said they had not decided where they would locate, were to be sent to this city.

The speaker closed with an appeal to the real estate men not to forget "Him Who Went Before" and who made Fort Wayne possible.

At the business session several possible sites for the new factory that local business men are attempting to bring here were suggested and will be turned over to the Commercial club committee, which has the matter in charge. Officials of the factory will probably visit Fort Wayne the latter part of the week. William H. Scheiman presided at the meeting.

KANSAS CITY GETS NO GLIMPSE OF HIM

President Still Asleep as He Passes Through That City Today.

Kansas City, Feb. 2.—President Wilson arrived here today at 7:48 a. m. en route from Des Moines, Iowa, to Topeka, Kan., where he will make two addresses this afternoon. He left here at 8:12 a. m. on a special Santa Fe train. There was a small crowd at the station but they were unable to see the president who was still asleep.

Although President Wilson's speech-making journey today carries him into Kansas City, it is expected that only glimpses of him will be caught here until he makes his appearance tonight at convention hall where he will talk on preparedness.

The president with his party passed through here this morning on his way to Topeka and is due to return at 5 o'clock this afternoon. Careful plans have been made to assure privacy for President and Mrs. Wilson from the time of their arrival until 8 o'clock when they will enter the hall. At their hotel the two will dine in private. Another dinner will be served at which Jos. P. Tumulty, the president's secretary, will be host to newspaper men accompanying the party. A feature of the meeting which the president will address will be the presentation of a small flag to every one who enters convention hall.

EYES ON CROWD; BACK TO WILSON

St. Louis Policemen Mav Not Get a Glimpse of President.

St. Louis, Feb. 2.—Although the police board has detailed 600 uniformed patrolmen for duty during President Wilson's stay in St. Louis tomorrow, not one of the policemen will get a glimpse of the president if he obeys orders. Each policeman will be instructed to keep his back turned to the president and his eyes on the crowd only.

CLINE OFFERS BILL FOR UNIFORM PENSION

Washington, D. C., Feb. 2.—Congressman Cyrus Cline, of the Twelfth Indiana district, has introduced in the house of representatives a bill providing for the payment of pensions of twelve dollars per month to the widows of the Spanish-American war veterans. Under Congressman Cline's bill a pension is to be provided regardless of the cause of the soldier's death.

MAN HURT ON WAY TO WORK GETS AN AWARD

He Rode in Auto at Invitation of Employers and Was Injured.

Indianapolis, Feb. 2.—The state industrial board in an important opinion yesterday held that Walter Yeargin, a plasterer, was entitled to receive compensation from his employers for a period of fifty weeks, at the rate of \$13.20 a week and also the sum of \$43 for medical expenses. The employers were J. Henry E. Bode and Fred Bode, contractors, of Richmond, which also was the home of the plaintiff.

The defendants opposed an award of compensation to Yeargin on the ground that his injury was not occasioned by an accident arising out of and in the course of his employment as provided by the compensation act. In their contention the defendant contractors relied on the general rule that an employee, when on his way to work, is not in the course of his employment. The board held that while this may be conceded to be a general rule, it is not a universal rule. Co-existent with it is another general rule, that where workmen are employed at work at a certain place and are transported to and from such place by the employer, as a part of their contract of employment, the period of service continues during the time of transportation, the board said.

The accident, which resulted in the fracture of one of Yeargin's ribs and permanent injury to one of his eyes, occurred Oct. 20 last. Yeargin had been employed by the defendants on a building at Richmond when he was notified that he would be taken to Portland to work on a job partially completed. The defendants told Yeargin that they would take him to Portland in their automobile. The automobile, in which Yeargin was riding at the solicitation and request of his employers, was overturned and he was seriously hurt. The injury to his eye has seriously impaired the vision.

"In this case, it appears from the evidence, without any dispute, that the plaintiff was not riding in the automobile at his own solicitation or for his own convenience or purpose," reads the board's opinion, "but that he was riding at the solicitation of the defendants, under their direction and for the purpose of the furtherance of their interests. Under this state of facts the board holds that the plaintiff's injuries were caused entirely by an accident arising out of and in the course of his employment."

MERCHANTS ENDORSE CIVIC ORGANIZATION

At a meeting of the board of directors of the Fort Wayne Retail Merchants' association Tuesday, the new federation of all the civic clubs in the city was unanimously endorsed. The merchants were enthusiastic regarding the federation and will do everything in their power to make it a success. The meeting of the directors was called by President Charles A. Niebergall. The new civic organization will be perfected at a meeting to be held at the Commercial club at noon Thursday.

One applicant is taking the civil service examination for surveyor in the government engineering department at large, being conducted in the federal court room. The examination will continue for two days.

"REASONABLE HOPE" IN LUSITANIA CASE

Berlin, Feb. 2.—Instructions have been sent by the German government to Ambassador von Bernstorff, at Washington, of such a nature as to give "reasonable hope for a positive understanding" concerning the Lusitania affair, it was announced here today.

The announcement, which is of a semi-official nature, is said by the Overseas News agency to have been made in connection with the alarming reports about the nature of German-American relations. The text of the statement reflected by the news agency is as follows:

MUCH MINERAL LAND OPEN FOR LOCATION

Douglas, Ariz., Feb. 2.—Thousands of acres of mineral-bearing land in Mexico are open today for location, because of the edict of the Carranza de facto government of Mexico which named midnight of January 31, as the extreme hour at which delinquent mining taxes might be paid.

Many of the American land holders who were taxed eight pesos gold per hectare (two and one-fifth acres) allowed portions of their holdings to revert to the government as they felt according to reports which reached here today, that the graduated scale of taxation announced some time ago by Gen. Carranza would be almost confiscatory as compared with the worth of certain portions of their claims.

Much of the land which has reverted to the government had been held for many years and taxes amounting to many thousands of dollars had been paid on it to the then government of Mexico. There are shells on the seashore of Barbados so small that 100 of them can be laid on a space covering only an eighth of a square inch.

"It is true that on Saturday, Jan. 29, a telegraphic report from the German ambassador at Washington arrived at Berlin showing that up to that time it had been impossible to adjust the Lusitania in a way satisfactory to both nations by friendly verbal exchange of views. On Tuesday instructions were transmitted to the German ambassador, which give reasonable hope for a positive understanding."

The Wolff bureau announced that instructions were cabled on Feb. 1 to Count von Bernstorff on the Lusitania situation, "which give reason to hope for a final understanding."

BOTH STEAMERS YET AFLOAT AT 4. A. M.

Wireless Brings News After Collision 200 Miles Off Cape Race.

Halifax, Feb. 2.—The Japanese steamer Takata Maru and the steamer Silver Shell which were reported to have been in collision 200 miles southeast of Cape Race, last night, were afloat at 4 o'clock this morning at which hour a wireless was received at Cape Race from the Takata.

The Takata Maru sailed from Tokyo for New York on January 22 in ballast. She was owned by the Nippon Shipping company which operates fleets on both the Pacific and Atlantic coasts. According to local agents of the line the Takata Maru was the last word in steamship construction. She was a boat of 6,710 tons gross, built a year ago and was on her second trip to New York.

The camelia was carried from Japan to France by a missionary named Kamel.

WATSON MEETING IS WELL ATTENDED

An enthusiastic meeting was held Tuesday evening in the Watson headquarters on the second floor of the Arcade building in the interest of James E. Watson, candidate for the republican senatorial nomination. About seventy-five were in attendance. Judge O. N. Heaton acted as chairman and T. J. Logan and a number of others gave short talks.

At the same hour Edward Schmidt, former United States marshal for the district of Indiana, held a conference at the Anthony hotel with a number of local supporters of Harry S. New.

ECLIPSE TOMORROW ONLY PARTIAL HERE

Sun as Seen in Indiana to Be Only Partially Obscured.

Bloomington, Ind., Feb. 2.—Many persons in the state apparently believe a total eclipse of the sun Thursday will be visible in Indiana, and this has caused Prof. W. A. Gogshall, of the astronomy department of Indiana university to correct the impression. "The eclipse on Thursday will not be total as seen from Indiana. It will not get dark and should it be a cloudy morning probably no one would suspect an eclipse to be in progress," he said. "The shadow of the moon cast upon the earth by the sun is a small round spot, in this case about sixty miles in diameter. As the moon moves along in its orbit about the earth this spot sweeps across the side of the earth toward the sun. For an observer to see the eclipse the total he must be in the track of this small shadow. In this case the shadow first touches the earth out in the Pacific ocean, a little north of the equator, and about as far west as the coast of California. The shadow crosses the extreme northern end of South America, passing through northern Venezuela, then swings northeast across the Atlantic ocean and passes off the earth just south of Ireland. On either side of this line for a long distance the eclipse will be partial only. There will not be an eclipse which is total in this region till Jan. 24, 1925, when the shadows will pass to the north of here some distance. MOTHER TALKS OF AID GIVEN SON AND SELF

Mrs. Mary Welch Says Work of Tanlac In Her Case Is Wonderful.

Mrs. Mary Welch, wife of a well known employee of the Dindie Manufacturing Co., who lives at 509 Fairmount place, and Albert Welch, 24 years old, her son, both have found relief from troubles through the use of Tanlac, the Master Medicine, that is gaining countless dozens of Fort Wayne friends. Mrs. Welch said:

"I have suffered from catarrh of the stomach for a long time. My digestion was poor and I felt distressed after meals. I always had a bad taste in my mouth and my tongue seemed to burn. I also suffered frequently from formations of gas on my stomach. My appetite was very poor. Albert Welch, my son, has had a bad form of catarrh of the head since a small boy. His head was stopped up continually and he had no sense of smell."

"We knew people who had gained benefits through use of Tanlac and we decided to try the medicine. I have been taking Tanlac only a short time, but already I believe my catarrh of the stomach is a thing of the past. I feel fine after my meals now, my appetite is good and the burning sensation of my tongue and the formations of gas on my stomach are gone. My son says his head is becoming clearer each day and his sense of smell is being restored."

"Tanalac has done us wonderful good and I am glad to recommend it to everyone suffering from the troubles we were bothered by."

Tanalac is especially beneficial for stomach, liver and kidney trouble, catarrh, complaints, rheumatism, nervousness, loss of appetite and the like and is a fine blood purifier and system builder.

Tanalac is now being introduced in Fort Wayne at the Wayne and Calhoun streets, store of the Meyer Drug Co., where the Tanlac Man is explaining the new remedy. It also may be obtained at the other Meyer stores, 1420 Calhoun, Calhoun and Columbia and Broadway and Taylor.—Advertisement.

ALLEGES OFFICE IS SHORT.

Inspector Examines Books of Crothersville Postmaster.

Seymour, Ind., Feb. 2.—An alleged shortage of about \$1,100 in the accounts of John M. Nelson, postmaster of Crothersville, was discovered by Postoffice Inspector Rittenmeyer, who checked up the books in the office and filed a report with the division office. Friends of Nelson say the shortage is entirely clerical and are trying to make up the amount. He is a democrat and succeeded William Goecker, a republican.

The first report, it is said, showed that the deficit was about \$1,940, but on examination it was found that Nelson should have had a credit of approximately \$740 for settlement of stamps which were stolen from the office during the administration of A. Ritz. The account was carried for some time in the hope that congress would reimburse Ritz, but this was never done. Nelson was formerly a druggist at Crothersville.

STOP DANDRUFF! HAIR GETS THICK, WAVY, BEAUTIFUL

Girls! Draw a cloth through your hair and double its beauty.

Spend 25 cents! Dandruff vanishes and hairs stops coming out.

To be possessed of a head of heavy, beautiful hair; soft, lustrous, fluffy, wavy and free from dandruff is merely a matter of using a little Danderine. It is easy and inexpensive to have fine, soft hair and lots of it. Just get a 25-cent bottle of Danderine. Danderine, the new-all drug stores recommend it—apply a little as directed—and within ten minutes there will be an appearance of abundance, freshness, fluffiness and an incomparable gloss and lustre, and try as you will you can not find a trace of dandruff or falling hair; but your real surprise will be after about two weeks' use, when you will see new hair-line and downy at first—yes, but really new hair—sprouting out all over your scalp—Danderine is, we believe, the only sure hair grower, destroyer of dandruff and cure for itchy scalp and it never fails to stop falling hair at once.

If you want to prove how pretty and soft your hair really is, moisten a cloth with a little Danderine and carefully draw it through your hair—taking one small strand at a time. Your hair will be soft, glossy and beautiful in just a few moments—a delightful surprise awaits everyone who tries this.—Advertisement.

NEWS OF FORT WAYNE'S NEIGHBORS

REDKEY MERCHANT MISSING.

Portland, Ind., Feb. 2.—Roy Brown, manager of the Brown grocery at Redkey, has been mysteriously missing from that place since Saturday night and circumstances surrounding his disappearance have prompted friends and relatives to believe that he has met with foul play. Brown, who was about twenty years old, is a son of C. V. Brown, of Ridgeville. He has been conducting the grocery and being a single man, boarded at the Byrum hotel in Redkey, situated near his store. On last Saturday night, as was his custom, after closing his store he went to his room in the hotel. He discarded a sweater coat for a business coat and went from the hotel to the Schaefer & Lee restaurant. There it is said he purchased a package of cigarettes and left at about 11:30 o'clock. Since then no trace of him has been found.

MUCH DRILLING IN VAN WERT CO.

Van Wert, Ohio, Feb. 2.—Van Wert county is showing greater activity in drilling than any other county in the state. The Keystone Oil and Gas company drilled a second well on the Tickle farm, but it only made two barrels. The same company is starting a test on the Koogle farm, and Kuhn & Lane are starting a well in this same territory. In York township Lynch & Sellers are starting a well on the Goodrich farm, while Jameson and others are drilling a test on a second Goodwin farm adjoining. W. L. Farmer and other Lima operators are starting a well on the Thomas farm, and Ralph Bros. are making a test on the Prill farm, Ridge township, same county.

DIES AT SOLDIERS' HOME.

Bluffton, Ind., Feb. 2.—John Heckman, aged 79, an inmate of the Soldiers' Home at Lafayette, Ind., died after having been an invalid for sixteen years with rheumatism and complications. Mr. Heckman formerly resided on a farm near Liberty Center and later worked at the blacksmith trade in Liberty township. He has several sons and daughters living, including Charles and William Heckman, who reside in the south part of Bluffton. Mrs. Heckman was with her husband during his long sickness. Both were living at Lafayette at the State Soldiers' Home at the time of his death. Mr. and Mrs. Heckman spent last summer near Montpelier with one of their children, returning to Lafayette in September.

STOLEN HORSE RECOVERED

Montpelier, Ind., Feb. 2.—The horse and buggy belonging to David Mitchell, residing north of here, which was stolen from a local hitch rack, over a week ago, was located at Winchester, and Mr. Mitchell went to gain possession of the outfit. Marshall Morris, in a discussion with a traveling man, learned that an outfit had been sold at Winchester, and telephoning "Buck" Fletcher, a detective of that place, soon verified his suspicions. Fletcher arrested two men giving their names as Jesse and Albert Mendenhall, who claim this city as their home. The outfit had been sold by the fellows to another party, whose name could not be learned.

BIG MEETING OF MASONS

Van Wert, Ohio, Feb. 2.—The Masters and Wardens of the Blue Lodge bodies of Paulding, Defiance, Van Wert and Mercer counties, together with the Master Wardens and Past Masters of this lodge of the Masonic order, will meet in this city Friday to confer regarding matters of the order. At 6 o'clock in the evening a banquet will be served for the visiting Masons and members of the local lodge in the banquet hall of the Masonic rooms. This will be followed by the conferring of the Fellowship degree on a class of candidates.

NARROW ESCAPE IN FLOOD.

Montpelier, Ind., Feb. 2.—Rolland Sides, sixteen-year-old son of Mr. and Mrs. John R. Sides, of this city, came near losing his life last evening, when he fell from the bridge over the Salamonie river, just north of the city limits. Sides was rescued a short distance down stream, after he had been in the water for some time.

FATE OF THE EARLY GROUNDHOG

Kendallville, Ind., Feb. 2.—Roy Pray, rural carrier on route No. 4, is confident that one groundhog will not see his shadow today. Such was the conclusion when he captured one of the woolly animals in the road yesterday. Mr. Groundhog had come out a day early, and evidently forgot that he was rushing things just a trifle. In so doing Mr. Pray captured the animal alive and brought him to this city. He decided to place the arbiter of the weather in a cage, keeping him from seeing his shadow.

VETERAN DIES AT MONROE.

Bluffton, Ind., Feb. 2.—Notice was

sent here Tuesday to the Lew Dailey post, G. A. R., notifying the local veterans of the death of Monroe of Comrade R. B. Bartram, a civil war veteran, who made his home in this city and county for a number of years. He lived in this county at one time with his son, Henry, and he also was employed at various times in local restaurants. He had been in failing health for more than a year and local veterans received a letter only a few days ago informing them that he was rapidly sinking.

SURVIVED FOUR WIVES.

Montpelier, Ind., Feb. 2.—Horace Dawley, who would have been 87 years old on Washington's birthday, February 22, passed away at his home five miles northeast of this city on Tuesday. Mr. Dawley, who was one of the best known men residing in this vicinity, was born in Haykins county, Ohio, and came to this state and located east of the city fifty years ago. He was married four times, and all of his wives preceded him in death. He has four children living.

HARTFORD CITY BOOZE RECORD

Hartford City, Ind., Feb. 2.—The police report of this city for the year 1933 shows that Mayor Seeger. The report shows that there were a total of 132 arrests, seventy-seven of which were for intoxication. The cases in which fines were assessed total 110, of which sixty-five were paid, sixteen stayed, twenty-five jailed, and four to the penal farm. The police report for the month of January was made up of six arrests, all of which were for intoxication.

RAIL MILLIONAIRE'S HOME

Robbers Touch Up Rogers for Silver and Sporting Trophies.

Poughkeepsie, N. Y., Feb. 2.—The country home of Archibald Rogers, Standard Oil millionaire at Hyde Park on the Hudson, was entered by burglars during the night and silverware and many valuable sporting trophies were stolen. Colonel Rogers said that at least twenty cups, many of them worth \$1,000 each, had been taken. He said it was impossible to estimate the value of the trophies as they represented his winnings from 1884 to 1892 in the regattas of the New York Yacht club, when he sailed the yachts Redoubt, Wasp and Colonia.

ARRESTED FOR PREJURY.

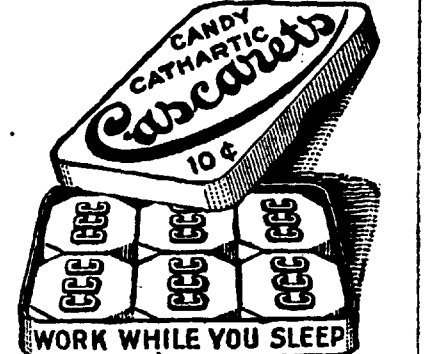

Women Relatives of Defendant in Mohr Case Accused.

Providence, R. I., Feb. 2.—Mrs. Bessie Spellman, the wife, and Mrs. Gertrude Dailey, a sister of Henry H. Spellman on trial with Mrs. Elizabeth F. Mohr and Cecil Brown for the murder of Dr. C. Franklin Mohr, were arrested today on charges of prejury. The women had testified at the morning session and had given evidence in support of an alibi for Spellman.

YOU'RE BILIOUS! CLEAN LIVER AND BOWELS TONIGHT

Don't stay headachy, sick, or have bad breath and sour stomach.

Wake up feeling fine! Best laxative for men, women and children.

Enjoy life! Remove the liver and bowel poison which is keeping your head dizzy, your tongue coated, breath offensive, and stomach sour. Don't stay bilious, sick, headachy, constipated and full of cold. Why don't you get a box of Cascarets from the drug store and eat one or two tonight and enjoy the nicest, gentlest liver and bowel cleansing you ever experienced. You will wake up feeling fit and fine. Cascarets never gripe or sicken like salts, pills and calomel. They act so gently that you hardly realize you have taken a cathartic. Mothers should give cross, sick, bilious or feverish children a whole Cascaret any time—they act thoroughly and are harmless.—Advertisement.

NEW HERBAL BALM MAKES LIFE WORTH WHILE FOR SKIN SUFFERERS

One will have to admit the fact that the aborigines were wonderfully successful in keeping down skin diseases contagious and otherwise, in their tribe. A study of the skin diseases among the Arapahoes by Dodge shows that the tribe used a balm, obtained from the trees in that vicinity or brought to them from the coast Indians, which produced wonderful results in what is known as scabies or itch and also weeping eczema. D'EXMA has this ingredient in it and its results have been wonderful.

Try this wonderful new herbal skin balm. Apply D'EXMA to Eczema; to old running sores; to leg ulcers; to ringworm, piles, to all blemishes and eruptions of the skin. It purifies and heals. No skin disease can live where D'EXMA is used. We are the only druggists in this town from whom D'EXMA, the great herbal balm, can be secured. Ask us today. Dreier Drug Co.—Advertisement.

MONTH'S CELEBRATION BEGINS WITH BANQUET

400 Attend Event at Y. W. C. A. Tuesday Evening for Members Only.

The launching of the month's celebration in observance of the golden jubilee anniversary of the Young Women's Christian association took place Tuesday evening in Fort Wayne in a very splendid manner when four hundred members of the association enjoyed the banquet. The gymnasium was converted into a banquet hall and as the guests were marching into the hall, the air was rent with yell and songs coming from the corners guarded over by the gym club and the Boss Manufacturing Girls' club.

The main auditorium of the gymnasium was not large enough to accommodate all the guests so an overflow table was set upstairs in the balcony of the same room. A four course supper was served during which time there was a succession of songs, hymns, yells and calls from all the tables by the various clubs and organizations of the association who sat in a body at the tables.

The board of directors were seated on the west side of the room with Mrs. B. Paul Mossman president, in the center. At the conclusion of the banquet, Mrs. Mossman who acted as toastmistress, asked for toasts from the various secretaries. She expressed her delight at the large attendance and told in an interesting way that the month of February had been set aside for the celebration of the fiftieth anniversary of the organization over the entire world.

Each speaker who responded told something of interest to everyone present and at the close of each brief talk, the hearty applause told in an indirect way the interest that was taken by all in the work of the local organization. The following toasts were given:

"Jubilee".....Miss Anne Louisa Cole
"Doings".....Mrs. H. L. Askew
"Cent's".....Miss May Jewell Smith
"Non-cent's".....Mrs. Grace Evans
"US".....Miss Grace Dillendorfer
"Our Home".....Mrs. A. H. Perfect
"Sleeps and Sweeps".....
"Faith".....Mrs. Helen G. Wagoner
"Faith".....Miss Anna Maude Smith
"Faith".....Miss Ruth E. Melin
"Meets".....Mrs. E. J. Thiene
"More Meets".....Mrs. W. S. Whitbeck
"Business Women".....Mrs. Nettie King
"Sisters Big".....Miss Nora Shreve
"Light".....Miss John S. House
"Fetes".....Miss Margaret Vesey
"3 Rs".....Miss Anna Todd
"Last, But Not Least".....
"Extra! Extra!".....Mrs. B. H. Hudson

Each one of the officers and secretaries in their annual reports which all showed that the Y. W. C. A. had enjoyed one of the most successful years in its history. It was organized nearly twenty years ago and since that time has grown from a membership of fifty to 1,408. The cafeteria lunch department as shown by the figures submitted by Miss Anna Maude Smith showed that it is one of the most popular places in the city. She stated that 103,339 meals were served besides the many special features and 6,409 fifteen-cent lunches for business girls.

Mrs. B. H. Hudson, who did much towards the formation of Camp Lakeside, received a hearty applause when she called out, "All Aboard for Camp Lakeside." The plan this year is to open the camp July 15 and keep it open until Labor Day.

Church Figures Given Out at Annual Meeting of Board.

Chicago, Feb. 2.—The Methodist church paid \$1,200,000 in pensions to retired ministers and widows and orphans of ministers during 1933, according to the annual report of Dr. Joseph E. Hingley, secretary of the board of conference claimants submitted at the annual meeting of the board here today. Fifteen million dollars is needed for the pension fund, Dr. Hingley's report said, and of this amount \$6,000,000 now is in the treasuries of the conference.

WOODEN LEG FAMINE IN ILLINOIS TOWN STIRS TO "PREPAREDNESS."

Carthage, Ill., Feb. 2.—Carthage has all other "preparedness plans" backed off the boards!

A group of prominent citizens here are preparing to lay in a stock of wooden legs—and mighty quick, too!

Here's the reason: Carthage has nine more or less prominent citizens who wear wooden legs, and they drew up their preparedness program after the recent accident to John Miller.

Miller slipped on an icy pavement and broke his leg the wooden one. It was six weeks beyond repair and when Miller went around town trying to buy another he found a famine of wooden legs in Carthage.

He was "stumped" for fair and now he is laid up in bed waiting for a new leg to be shipped to him from Chicago.

THE SENTINEL'S DAILY SCRIPTURE READING.

Proverbs 22:1-17.

- 1 A good name is rather to be chosen than great riches, and loving favour rather than silver and gold.
- 2 The rich and poor meet together: the Lord is the maker of them all.
- 3 A prudent man foreseeth the evil, and hideth himself: but the simple pass on, and are punished.
- 4 By humility and the fear of the Lord are riches, and honour, and life.
- 5 Thorns and snares are in the way of the froward: he that doth keep his soul shall be far from them.
- 6 Train up a child in the way he should go: and when he is old, he will not depart from it.
- 7 The rich ruleth over the poor, and the borrower is servant to the lender.
- 8 He that soweth iniquity shall reap vanity: and the rod of his anger shall fail.
- 9 He that hath a bountiful eye shall be blessed; for he giveth of his bread to the poor.
- 10 Cast out the scorner, and contention shall go out; yea, strife and reproach shall cease.
- 11 He that loveth pureness of heart, for the grace of his lips the king shall be his friend.
- 12 The eyes of the Lord preserve knowledge; and he overthroweth the words of the transgressor.
- 13 The slothful man saith, There is a lion without, I shall be slain in the streets.
- 14 The mouth of strange women is a deep pit: he that is abhorred of the Lord shall fall therein.
- 15 Foolishness is bound in the heart of a child: but the rod of correction shall drive it far from him.
- 16 He that oppresseth the poor to increase his riches, and he that giveth to the rich, shall surely come to want.
- 17 Bow down thine ear, and hear the words of the wise, and apply thine heart unto my knowledge.

Perry A. Randall.

The passing of few Fort Wayne men, perhaps in all the days of the city's history, has been more widely mourned or more deeply deplored than will be the death of Perry A. Randall, to whom the final summons came with tragic suddenness on Tuesday morning. Few Fort Wayne men have been so intimately known by so many residents of the city, few cherished so deeply in the friendship of those who knew them best, and few have in the span of life attempted so much and accomplished so largely in civic endeavor as did this remarkable character who, though gone, has left upon the city he loved the indelible impress of his dreams, his hopes and his achievements.

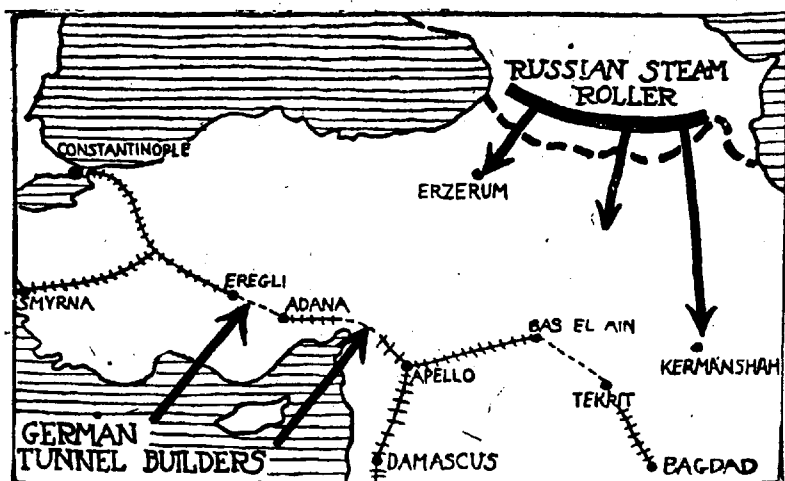

For Perry A. Randall will live in the work he left behind him, in his plans and his purposes, in his aims and his desires and in the civic spirit he did so much to create. From the day he became a citizen of Fort Wayne more than forty years ago, down to the moment when death snuffed his life spark, he was aggressive, tireless, purposeful and undaunted in carrying forward activities so manifold and so varied—activities such as would have staggered a less courageous, less forceful and a less capable man. Educated for the law and thoroughly grounded in its basic principles, Mr. Randall made no pretensions to legal profundity. Indeed his constructive spirit and his desire to achieve tangible accomplishment made him chafe at the restraint of ordinary law practice. The avenues of business were more alluring than was the law office. They afforded an outlet for the exercise of his intense desire to be in close touch with and in active participation in the achievement of building here a great city. It was not the desire for gain that inspired him, but the desire to accomplish. Possessed in comfortable degree of this world's goods, he did not love money, for again and again he made financial sacrifice in the unselfish effort to aid his friends, and came up smiling in the face of disaster.

A survey of Mr. Randall's activities, of the varied interests which claimed his attention and his talents, reveals a most amazingly large list of them. Lawyer, manufacturer, home-builder and business man but summarize under general groups some of the interests that claimed the attention of this remarkable man. Yet he was more than any one or all of these, for aside from his private interests Mr. Randall gave enthusiastically and ungrudgingly an uncounted total of days, months and years of effort toward work purely public-spirited and wholly civic in its character. Scarcely has there been undertaken in Fort Wayne in the last generation a work which had for its purpose the advancement and progress of Fort Wayne, whatever its character, without the active support and sympathy and assistance of this splendid citizen. One of the chief efforts of his entire career was in behalf of the lake-to-lake waterway project, and it was one of his cherished hopes to live to see it become a reality. Tireless in this as in all else which he undertook, Mr. Randall knew no such thing as discouragement. He was always the optimist. No element of failure daunted him. Into whatever endeavor that claimed his attention he threw heart and soul and courage that would not be denied.

A man of pronounced opinions, also, he possessed the courage of his convictions. He did not expect or desire all men to agree with him, but he reached his conclusions after mature thought and under the guidance of a fine judgment, he voiced them courageously, he was a fair fighter, and candor was a marked attribute of his make-up. Being human, he was not perfect. Like all mankind, he was perhaps subject to some degree of frailty and foible, but his was a kindly soul. His heart was warm, his sympathy deep, his friendship sincere, his character lofty, his integrity exalted, his humanity broad and his confidence steadfast. The world has all too few great-souled, devoted and useful men of the type of Perry A. Randall.

The peculiar status of the British liner Appam which, as a German prize of war has just steamed into Hampton Roads flying not the flag of the merchant marine, but the German naval ensign, is said to have given rise to another perplexing diplomatic problem. If she is merely a prize of war, then she must be interned. If, on the other hand, the contention that she is now a converted auxiliary cruiser of the German navy is sustained, she is permitted to depart within a certain fixed time. The point, a new one, is one which Washington must decide, and, having decided it, face the certainty that one or the other of the belligerents will be displeased. The navy department admits it is puzzled over the matter, but there is no occasion for despair. It can always appeal with confidence to the uncounted millions of diplomatic experts all over the country who are prepared to settle things off-hand and instantly tell Washington authorities precisely what they should do in every emergency brought about by the war.

Fate of Vast Empire Hangs on Outcome of Race Between Russ Steam Roller and German Tunnel Builders.

Map Showing Where Race for Persian and Suez Canal Is Taking Place

London, England, Feb. 2.—Can the Russian steam roller beat the German tunnel builders? The race is on! And on the outcome depends the fate of Persia and the Suez canal. Grand Duke Nicholas, uncle of the czar, is leading the Russians in increasing numbers through the Caucasus mountains and defeating the Turks right and left. And in the Taurus hills, on the main line of the Constantinople-Damascus railroad, German engineers are feverishly rushing to completion a tunnel 18 miles long. Until this tunnel is completed, German supplies and soldiers in any quantities cannot be sent into the interior of Asiatic Turkey. The Turks massed at Damascus for the descent on Suez can-

not dare not—march until their line of communication with the capital is made secure.

The military genius of Russia's great commander, and the industrial efficiency of Germany's greatest engineers are matched in a race such as the world has never seen.

Russian forces, under Nicholas, have reached Kermanshah, in Persia, ten days' march from the British beleaguered at Kut-el-Amara. Strong Turkish forces are between them, however, so allies cannot count on a junction in this region until a decisive victory is gained.

Meissner Pasha, engineer in charge of the Taurus tunnel, on the other hand, has just received numerous German and Austrian aides by way of the recently opened Berlin-Constantinople through railway.

OPENING OF THE GARDEN SEASON.

(Indianapolis News.)

While spring itself does not begin with February, spring work does. And it is gardening work. It is not expected, of course, that the gardener will go outdoors and garden. He will not spade up flower beds and turn over the soil where the summer's vegetables are to grow. But, if he is a real gardener, the advent of February will set him to doing what others postpone doing until April.

February, in the gardener's calendar, is known as "planning" month. Before it has passed into March the backyard gardener knows what he is going to plant and where he is going to plant it. His garden is planned as completely as a house might be planned. He knows where the row of early lettuce will grow, what second crop will follow it, and, in a good many instances,

what third crop will follow the second. He has planned to make the most of his ground. Each square foot of it will produce not only one crop—that would be a waste of opportunity—but a succession of crops. And he will have so planned that, with the use of early, midseason and late varieties of vegetables, he will have produce from his garden over a long season. Instead of having more peas and beans for a fortnight than he can possibly consume, and then no more at all, he will have peas and beans all through their season, enough at all times and no more than enough.

Indoors, in sunny windows, both flowers and vegetables will be planted in the seed flats before the month is ended. Later, when others are only beginning to think of planting, he will have stocky little seedlings ready to go into the ground outdoors. Thereby he snatches month out of the grasp of time. All his pruning of grape vines and fruit trees will be finished before February has passed and likewise his spraying against scale.

The back yard gardener has learned how to make the most of time, soil and opportunity. His numbers in recent years have multiplied amazingly. He is no longer the butt of the humorist's jokes. He is taken seriously. What he produces in the course of a season the government does not know, but it estimates the value of his produce in the millions. Some city families never find it necessary to buy a vegetable from spring to fall. What they consume comes from the vegetable patch in the back yard—fresh, tender, crisp, of highest quality. From the practices of the back yard gardener, and from the results he achieves, many a good farmer could learn a lesson of value. The time to begin is in February.

WARS OF FIFTY YEARS.

(Detroit Free Press.)

We profess as much horror over the present war as if war were an unusual thing. Actually, the history of the last fifty years is a record of wars. Attempts to write it in terms of development through civilization presently bring up against war. Frederick the Great calculated the recurrence of war every ten years; during the last half century there has been an average of a war every four and a half years. Fifty years ago the United States had just emerged from the throes of the civil war. We have had a remarkable era of peace since the Indian troubles which followed the rebellion were settled, broken only by the Spanish-American war and certain difficulties in the Philippines.

These years have not been peaceful to other nations. There have been the German-Austrian, Franco-Prussian, Sino-Japanese, Russo-Japanese, Spanish-Bulgarian, Russo-Turkish, Spanish-American, British-Boer, Greco-Turkish, Japanese-Chinese, Russo-Japanese, Italian-Tripolitan, the Balkan wars and the present general European melee.

We are accustomed to regard the reign of Queen Victoria as an era of peace and progress. Progress and prosperity there were, but there was also war. The Crimean war, in which England, France, Turkey and Sardinia were arrayed against Russia, the war in Afghanistan in 1842, the Sikh war of 1845-46, the Indian mutiny of 1857, the troubles in the Sudan which began in 1884 and the

"The World Is On Fire"

SAYS PRESIDENT WILSON, and the danger of the conflagration spreading is so great he has commenced a tour of the country explaining to the people, as best he can, without disclosing state secrets, the necessity for united support of the Government.

He makes it particularly plain that in these times of international stress the best minds and the men of the greatest experience are needed to successfully guide us free from entanglement in the international broils.

Cyrus Cline, by reason of his experience, hard work and boundless energy is peculiarly qualified to represent you. This is the reason for the wonderful and enthusiastic support his candidacy has received from men of all factions and all walks of life.

It is never good policy to "trade horses in the middle of a stream." It would be particularly disastrous in view of the existing situation to do so now. The Nation needs every bit of energy, experience and loyalty possessed by our lawmakers.

It is your duty—the duty of every citizen—to do your share in the present crisis, and with this in mind the candidacy of Cyrus Cline for Congress should strongly appeal to all citizens, irrespective of party affiliations.

beginnings of the South African war be long to her reign.

The present century opened with the thunder of guns off African veldts, and though only fifteen years old it has already eight wars written in its history. The Boer war, Russo-Japanese war, Franco-Moroccan war, the Italian-Turkish war, two Balkan wars, the internal war in Mexico and the present war in Europe.

FUNERAL NOTICE, L. C. B. A.

All members of Branch 370, L. C. B. A., are requested to attend the funeral of Mrs. Ellen Burns, Thursday morning.

Life insurance, which was introduced into Japan in 1881, is very popular and has doubled in extent each decade.

MANY CASES OF RHEUMATISM NOW

Says We Must Keep Feet Dry, Avoid Exposure and Eat Less Meat.

Stay off the damp ground, avoid exposure, keep feet dry, eat less meat, drink lots of water and above all take a spoonful of salts occasionally to keep down uric acid.

Rheumatism is caused by poisonous toxin, called uric acid, which is generated in the bowels and absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine. The pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly, cold weather the skin pores are closed, thus forcing the kidneys to do double work; they become weak and sluggish and fail to eliminate this uric acid which keeps accumulating and circulating through the system, eventually settling in the joints and muscles causing stiffness, soreness and pain called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these impurities.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia and is used with excellent results by thousands of folks who are subject to rheumatism. Here you have a pleasant, effervescent lithia-water drink which overcomes uric acid and is beneficial to your kidneys as well.—Advertisement.

PAGEANT MASTER IS COMING SATURDAY

At a meeting of the centennial committee Tuesday evening at the Commercial club arrangements were made for the coming next Saturday of William C. Langon, pageant master for the state centennial celebration. Mr. Langon will hold a conference Saturday afternoon with the executive committee at which time plans for the local celebration will be discussed and in the evening he will address the general public in the assembly room of the Commercial club. This meeting will be under the auspices of the Women's league and the centennial committee.

Although several more names were added to the list of committees it was not completed and will be taken up again at the next meeting.

Fort Wayne aerie No. 248, Fraternal Order of Eagles, will give a banquet this evening in the home on West Berry street in honor of groundhog day. The principal item on the menu will be groundhog. Wallace J. Dillingham, of Warsaw, district president, will speak at the meeting.

ELKS' THEATER PARTY.

The Elks' party at the New Palace theater Tuesday evening was largely attended and was a grand success. Following the performance a supper was served at the temple on West Berry street.

For Croup--Mothers-- Always Keep This Handy

The day of the Croup scare is over for those parents who wisely keep Foley's Honey and Tar Compound in the home ready for instant use.

Mrs. Chas. Reitz, Allen's Mills, Pa., writes: "I have used Foley's Honey and Tar Compound for the past eleven years and would not be without it. It has saved me many a doctor's bill for colds and croup."

If toward nightfall the little ones grow hoarse and croupy, if their breathing becomes wheezy and stuffy, give them Foley's Honey and Tar Compound. Many a careful mother has been able to ward off an attack of spasmodic croup by its timely use.

If you are awakened by the hoarse brassy cough that means croup, give Foley's Honey and Tar Compound at once. It will ease the little sufferers quickly, cut the thick choking phlegm, and soon they will have easy breathing and peaceful quiet sleep.

RHEUMATISM, STOMACH TROUBLE, BACKACHE—WOMANLY ILLS.

Woman suffered ever since she was twelve years old and finally was relieved by using Miller's True Herb Remedy. Mrs. C. Sieman, of 1331 Huestis Ave., says: "I was compelled to use medicine ever since I was twelve years old but I only got temporary relief. I was in awful pain and misery, taking medicine for so many years without any help, it seemed there was no relief for my troubles. I heard of Miller's True Herb Remedy doing so much good to the afflicted I decided to try it and the first bottle gave me more relief than all the medicine I took for twenty-five years. I had Rheumatism, Stomach Trouble, Backache and womanly ills. I can say after using a few bottles of this good medicine I am well and hearty again. Our little girl is troubled with constipation and I give her a dose now and then and it always gives her great relief. Miller's True Herb Remedy is the best we ever had in the house." For sale at all druggists, 75c. A \$1.50 bottle gives you a fifty days' treatment.

The first of pre-nuptial parties to honor Miss Constance Kepling, who is to be a bride of the month, was given this afternoon by Miss Vera Tresselt, at her home in Washington boulevard west. It was an auction bridge gathering with sixteen young women engaging in the game. Many pink and white roses were used to make the rooms look more attractive than usual and the supper table was very lovely in its appointments, with pink the general color, and roses for decoration, for favors and for the bouquet presented to Miss Kepling. Water color drawings of a wedding character were place cards and altogether the entire affair was charming, including a beautiful gift from the hostess to Miss Kepling.

There were eighteen young girls attending a beautiful sewing party given by Miss Hazel Malone at her home in West Main street, this afternoon, in honor of Miss Margaret Misner, who is to be wed within the next few weeks. Miss Malone was assisted in entertaining by her sister, Mrs. Louis A. Baker, formerly Miss Irma Malone. The supper table was done in pink and white roses and other equally attractive appointments. After the refreshments Miss Misner was presented with a handsome hat box that looked as if it might contain a French "creation" right from New York. It did contain many gifts, however, that were lovelier than any new hat could have been. The gifts were a "shower" from the guests. A big box of blue malinge topped off the cover of the box.

The Ladies' Hebrew Benevolent society will meet at 3 o'clock on Thursday afternoon.

Dr. and Mrs. Maurice Lohman will soon be at home in an apartment in the St. James.

Miss Alice Ellison, of Lagrange, is visiting her brother, T. E. Ellison, and Mrs. Ellison, for a few days.

Miss Kathleen and Miss Margery Corbett, of Toronto, Canada, are guests of Mrs. M. V. Tucker, of Harrison street.

Miss Cyril Schaefer, of West DuWald street, left on Tuesday for Oberlin college to take a special course in music.

Charles Dunkelberg, son of Mr. and Mrs. C. A. Dunkelberg, is to leave next Friday for Cornell university, Ithaca, N. Y., to take a special course of study.

The February number of the Trained Nurse and Hospital Review contains a well written and interesting article by Mrs. John J. Muir, of Fairfield avenue, on "The Minute of Nursing from the Patient's Point of View."

Invitations have been issued by Mrs. Hugh G. Keegan to a dancing party for her daughter, Margaret Ann, which will be given on Friday evening at the home of Miss Margaret Ann's grandparents, Mr. and Mrs. E. F. Yarnelle.

The Morning Musical society meeting, scheduled for next Friday afternoon, has been postponed for a week, or until February 11, when it will be held at the same time in Elks' hall. The change in time has been made owing to the bereavement in the family of Mrs. Walter Seavey, who is chairman of the committee in charge of the program.

The H. B. C. girls met with Miss Marie Henry, 620 Hendricks street, on Tuesday evening and spent a merry hour or so playing games. Music and refreshments were other entertainment.

Misses Helen Haag and Beatrice Gutwiler sang a duet. Others present were Clara Nichter, Tillie and Helen Noll, Gertrude Kress, Lizzie Merklein.

Mrs. Isaac D'Isay returned on Tuesday from a visit of several weeks in Cincinnati, at the home of her daughter, Mrs. Lippincott. Mrs. D'Isay was detained in Cincinnati and her visit prolonged for several weeks by the serious illness of her granddaughter, Laura Lida Lippincott, who is just in the beginning of her convalescence from a fever.

A pleasant surprise was given at the home of Miss Helen Adams, of 616 Walnut street, on Monday evening, in celebration of her eighteenth birthday anniversary. Misses Irene Ruble, Madge Kneel, Ruth Blackwell, Helen Truesdale, Violet Bowers, Blanche Myrtle and Bonnie Van Buskirk, Arletta Woods, Thelma Hines, Cyril Shaffer, Thelma Clark, Irene Smith, Beulah Barnes, Olive Smith, Winifred Howard, Florence Trowbridge, Margaret Willis, Hazel Owen composed the party. Games and music were enjoyed and tempting refreshments were served.

CELEBRATE GOLDEN WEDDING.
Mr. and Mrs. P. C. Tyger Surprised by Relatives, Tuesday.

A gathering of relatives at the home of Mr. and Mrs. Philip C. Tyger, of 1226 Cass street, on Tuesday evening, was a surprise planned by their children in honor of their fiftieth wedding anniversary. Mrs. Charles W. Tyger, wife of the older son, planned the anniversary party and Mrs. Morton J. Tyger helped to make it a success. The supper that was served at 8 o'clock. Covers were laid for eighteen and the table was decorated beautifully, with yellow roses, ferns and sniulax. The

day was also Mrs. Tyger's birthday anniversary though she does not look it. Grandpa Tyger is seventy-three years. Grandpa Tyger is several years his wife's senior and celebrated his eighty-second anniversary last August. Both Mr. and Mrs. Tyger are in apparently excellent health and vigorous for their years. Mr. Tyger is a native of New Jersey but Mrs. Tyger was born and has always lived in Fort Wayne. Her maiden name was Basheier. Two sons are the only children, Charles W. and Morton J. Tyger, both of this city. There are five grandchildren. Howard, a student at Purdue, Miss Louise, who attends high school and Miss Grace, a pupil of the Bloomington school. In the family of Mr. and Mrs. Morton Tyger there are two little ones, Philip and Lucille Alene. Mrs. Blessing and children, who are relatives living on the Goshen road, were present at the golden wedding party.

Young Girl to Be "Evangeline"

MISS WINIFRED SINK.

Miss Winifred Sink is to act the part of "Evangeline" in the dramatization of Longfellow's poem at the Harmon school auditorium on Friday evening. Miss Winifred is the bright and interesting daughter of Mr. and Mrs. W. G. Sink, of Columbia avenue, and she is greatly interested in the success of the entertainment she and her classmates are to give. Other characters in the play and the children who will act them are Gabriel, by Edwin Tait; Basil, by Lloyd Stocks; Benedict, by Lester Wahrenburg; Baptiste, by Elly Baker; LeBlanc, by Max Himmelstein; Father Felician, by Abe Fichman; Madam LeBlanc, by Irma Pohlman; Capt. Winslow, by Clem Grabner. There will also be Arcadian soldiers, chorus and dancing girls all from the 7th and 8th grades. Miss Beatrice Benz will be the pianist and the orchestra of the school and Miss Beatrice will furnish the music. Miss Dochterman and Miss Griffin, instructors in the Harmon departmental school, have the entire entertainment in charge and are rehearsing the children. The proceeds of tickets at fifteen cents each are to be used to buy art works for the rooms of the pupils in the seventh and eighth grades.

Current Bill to Close.
The current combination bill will close this evening. This is the program featured by the musical fantasy, "The Four Husbands," and two superb vaudeville acts, the card trick stunt done by Leopold and the sensational shooting done by the Randalls in Arizona. The "Four Husbands" is easily the best musical comedy tabloid of the season as its tuneful lyrics and its amusing book are delightfully presented by a brilliant company headed by Ralph Whitehead, George Jinks, Margaret Schaller, Betty Caldwell and others.

AT THE ORPHEUM.
A NEW STAR BLAZES.

George La Guee Shining Light in "The Turmoil." Seen at the Orpheum.

"The Turmoil," a screen play adapted directly from Booth Tarkington's widely read novel of that same title, proves to be one of the most enjoyable pictures ever screened at the Orpheum. It is a story of modern American life, and reflects with commendable fidelity the home life of the average well-to-do American family, at the same time reciting a tale of superb dramatic power and wholesome, appealing charm.

Valli Valli, one of the best known actresses of the contemporary stage, is seen in a leading role, but the acting honors of the day are captured by George La Guee, a young actor who gives an unmistakably brilliant portrayal of Tarkington's beloved book character, "Bibbs" Sheridan. All in all, "The Turmoil," stands as a very good film offering, one of the most enjoyable that you'll be apt to see in some time.

AT THE JEFFERSON.
PAULINE FREDERICK.

Superb in "The Spider" at the Jefferson.

The offering at the Jefferson today is one of exceptional quality from every angle. The famous beauty, Pauline Frederick, is the star and the play is "The Spider," a Paramount unusual in construction and theme.

The tremendous power of Miss Frederick's dramatic art and the wide range of her capabilities were never so forcefully brought out in any one production as in "The Spider." In "Zaza" Miss Frederick showed the development of a girl of the slums into a great actress and in "Bella Donna" she portrayed a cruel adventures whose vindictiveness and avarice proved her own undoing, but in her latest appearance she is called upon to present diametrically contrasted characteristics. Her wonderful mastery of this great difficulty is a lasting monument to her genius.

The added feature is the Pathe News picturizing the important news events of the world.

AT THE GRAND.

Today is Bushman day at the Grand and without question the little playhouse will be packed as usual on this occasion. Francis X. Bushman will be featured in a three-act drama entitled "The Plum Tree." Craig Ewell and Norris Griggs are in love with pretty Alice Graham. One night the limited is held up and Craig is accused. He is tried and found guilty. Alice is stunned by the fate of her sweetheart and is forced in

to a loveless marriage with Criggs. Ten years later, Craig is freed and wanders heartbroken to the Pacific coast. Criggs has become the financial leader in a Mexican revolution plot. One night Craig is discovered watching a Rebel ship being loaded with contraband arms and is put to work on the vessel. He overhears the revolutionist's plot and, after a terrific hand-to-hand battle, swims to shore and gives the alarm. The Federal troops, guided by Craig, rush to the scene and a battle takes place. Criggs and Ewell not recognizing each other, engage in an encounter in which Criggs is mortally wounded. Craig carries him out of the line of fire to a hut. Here Criggs summons a padre and confesses to having planned the train robbery to implicate Craig and to get him out of the way. Hearing his name mentioned, Craig hastens to the bedside and the two men recognize each other. The shock kills Criggs and Craig is left with a written confession. He then returns to Alice and a beautiful reunion takes place under the old plum tree.

BIG SUGAR PLANT TIED UP.
Strike of Machinists at Brooklyn Called by Union.

New York, Feb. 2.—A strike which union leaders claim has completely tied up the Brooklyn plant of the American Sugar Refining company, was called today by the Metal Workers' union. The entire staff of machinists, about 500 in number, walked out. There are about 3,500 employees in all at the plant. The men demand the reinstatement of three men whom they alleged were dismissed for their union activities. They also ask for an eight hour working day instead of the present ten hour shift.

SPECIAL MEETING OF CITY COUNCIL

Assemble Wednesday to Fix Boundaries and Annex Territory

The city council will meet in a special session that has been called for Wednesday night to start on their course two ordinances—one to relocate certain ward and precinct boundaries in the city and to annex some territory. By reason of the fact that a year ago the county commissioners annexed to Wayne township those portions of Washington, St. Joe and Adams which embraced parts of the incorporated city of Fort Wayne and that the entire city now lies within Wayne township, it is necessary to designate certain precincts by new descriptions and to change some precinct boundaries. The ordinance will add to the Second ward precincts some Ninth ward territory, because it compels voters to go far west into Bloomington to vote. This territory lies east of Calhoun street and the Lake Shore tracks. The ordinance will make DeWald street the boundary between the Third and Sixth wards and the Fourth and Sixth wards from Calhoun street to Broadway, thus eliminating a devious boundary line. The Pennsylvania railroad will be substituted for boundary line between the Eighth and Tenth wards east of Harrison street. An ordinance will be introduced annexing to the city the small area of territory disannexed some time ago to bring the procedure for the separation of grades at the Pennsylvania railroad and Wayne trace all within the jurisdiction of the county. When the territory was disannexed it was understood that after the improvement was completed the territory would again be added to the city. The council will refer these ordinances to committee and in three weeks hold a special meeting to finally pass them so they will be in effect for the primary election March 7.

DRAINING LAKE AND LAGOON.
Mayor Blames Filling of Lakeside Reservoirs for Flooded Cellars.

Pursuant to orders issued by Mayor W. J. Hosey the water in Delta lake and the lagoons in Lakeside park are being drained by the sewer pumps. Mayor Hosey blames the filling of these artificial reservoirs for the trouble Lakeside residents had in the early part of the week from flooded cellars. He says that if the lake and lagoons had not been already filled to almost their capacity through the intake pipe recently installed the freshest that poured into the sewers from the high ground of Forest park could have been diverted into the reservoirs and many millions of gallons impounded and taken care of by the sewage pumps at leisure. As it was, he says, the water had no place to go but into the sewers, which it did faster than the pumps could discharge it, causing a back-up into cellars. The mayor declared Wednesday that the reservoirs in Lakeside park would not again be filled this winter except by storm water, the sewage pumps having been planned distinctly with a view to the

drainage of the lake and lagoons would afford by impounding water. Councilman Jacob Agne, of the First ward, is agitating a movement for the construction of an 18-inch storm sewer from Forest park to the Main street sewer. This would relieve conditions during times of heavy rains. Its cost would be about \$10,000.

LARGEST MONUMENT EVER BUILT NOW BEING ERECTED IN HONOR OF U. S. HEROES.

The national memorial that is being erected by the United States of America in the national cemetery at Arlington, Va., in commemoration of the patriotism and valor of American soldiers and sailors who died for their country, is the largest monument that any nation has ever erected to its heroes.

HOLDS SUBMARINE WARFARE JUSTIFIED

Berlin International Law

Expert Replies to American Criticism.

Berlin, Jan. 15. (Correspondence of The Associated Press). In answer to American criticism of submarine warfare aroused by the Lusitania and Ancon cases, Prof. Theodore Niemeyer, international law expert at the University of Kiel, has issued a brochure entitled "The Legal Basis of Submarine War." In it he gives his reasons for believing, not only that such warfare is justified, but that passenger vessels may be torpedoed, as the Lusitania and Ancon were without any infraction of existing international law.

Submarine warfare, per se, he argues, is allowable because it is not forbidden. Various restrictions placed upon naval warfare in general by international conventions, he declares, are null and void because not ratified by all of the present combatants. The "command of necessity" he urges is another reason for the submarine. It has "the right and duty to do everything that serves the war's purpose."

He quotes Article 49 of the London Declaration to show that neutral prize may be destroyed if the attacker is in danger, but that no such condition is imposed in regard to enemy vessels. The inference therefore to be drawn is that the attacker needs no such pretense or excuse as danger to justify him in sinking the opponent's ships.

As regards the rights of passengers, the writer declares that they are not touched upon in any international agreement until the London Declaration which in Article 50, says: "Avant la destruction (of the ship) les personnes qui se trouvent a bord devont etre mises en surete." (Before the destruction of the ship the persons who are on board shall first be removed to safety.)

On the word "devont," Prof. Niemeyer lays the greatest stress of his argument. He declares that the French have lost the one word, "devont" to cover both must and shall. He elects to translate devont as shall, maintaining that if "must" had been meant the term "devont" would have been used.

On the assumption, therefore, that Article 50 was intended to read that passengers shall be placed in safety, he is of the opinion that the words, "if it is possible," are to be interpolated or

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that is failed to cure. Send for list of testimonials. Address F. J. PRESIDENT WILSON IN NEW ROLE—SKETCHES MADE WHEN CHIEF EXECUTIVE APPEALS TO PEOPLE FOR AID IN DEFENSE PLANS.

THE DESIRE OF THE UNITED STATES IS NOT THAT SHE SHOULD HAVE A GREAT BODY OF MEN WHOSE CHIEF BUSINESS IS TO FIGHT—BUT A GREAT BODY OF MEN WHO KNOW HOW TO FIGHT AND ARE READY TO FIGHT WHEN ANY THING DEAR TO THE NATION IS THREATENED.

I KNOW THAT WE ARE DAILY TREADING 'MIDST THE MOST INTRICATE DANGERS—NOT OF OUR OWN MAKING NOR UNDER OUR CONTROL—AND NO MAN IN THE UNITED STATES KNOWS WHAT A SINGLE WEEK OR A SINGLE DAY OR A SINGLE HOUR BRING FORTH.

THERE IS ONE THING THAT THE AMERICAN PEOPLE LOVE AND BELIEVE IN MORE THAN ANY OTHER IT IS PEACE AND ALL THE HARD SOME THINGS THAT BELONG TO PEACE.

AMERICA IS NOT AFRAID OF ANYBODY.

CARDS TAKE GAME FROM TURNER FIVE

Lyceum Miller Stars as Usual in Basket Shooting.

The Cardinals ran wild last night, shooting baskets from a dozen different angles, wiggling about out of reach of their opponents, passing with the accuracy of machinery and using headwork at every stage, and as the result they cleaned the Active Turners by a score of 54 and 26. But it may be said for the Turner boys that they were not up to their usual standard, although they did work hard, and that the Cards put up just about as classy a game as has been pulled on a local floor this winter.

The Cards had the advantage on their German opponents in a couple of respects, one of these being a Miller person from the Lyceums. He shot nine baskets as his share of the evening's entertainment. The lineups and scores:

Cardinals, 54—Miller, R. F.; Weberus, L. F.; Vonderhaar, C.; A. Hoffman, R. G.; Eckrich, L. G.
Turners, 26—Bade, R. F.; J. Henry, L. F.; Bauerle, C.; Ortlieb, R. G.; Fritz, L. G.

Field goals—Miller, 3; Weberus, 6; Vonderhaar, 7; Eckrich, 4; Bade, 4; Henry, 3; Bauerle, 4; Ortlieb, 2.
Pen goals—Eckrich, 2.
Referee—Blee.

Figures on Benny Kauff, Fed star, who has been signed by the New York Giants, indicate that he has his troubles against left-handed pitchers. His bats left-handed. Eddie Plank, of St. Louis, was the best Federal league southpaw last season and he held Kauff to .187 average.
Kauff batted .417 against Dave Davenport, St. Louis right-hander, and .272 against McConnell, Chicago right-hander. Plank, Davenport and McConnell were the league's leading pitchers. Kauff's average against the three was .318.

PRODIGAL HAS HALF MILLION

Boy Chided for Lack of Industry Returns With Fortune.

Urbana, O., Feb. 2.—Thirteen years ago, Andrew Dodge, son of George Dodge, Westville, when chided for lack of industry, left home and made a vow he would never return until he had made his stake. Recently he stepped off a train from Nevada, and drove to his father's home, his home coming being unannounced. He is the owner of a half interest in a gold mine at Carson City, and is rated as worth \$500,000. He is thirty-five years old, and unmarried.

SOUTH BEND GETS INTO BASEBALL STRIDE

GROSH GROCERS.

South Bend, Ind., Feb. 2.—Ed Smith established himself today in the Ashland building on West Washington avenue. The boss of the local Central league interests has opened up official quarters in a front room on the second floor and from that place will direct his baseball club.

His first act after moving into his office was to take seven bids on the remodeling contract at Springbrook park to E. H. Miller, president of the St. Joseph County Fair and Amusement association, for consideration. Ed wants to see work begun as quickly as possible on the rearrangement of the ball grounds before the more active season comes on.

"Spikes" Laross is lost to the local club because of the keen eye of Rufus Gilbert, Rife, who is manager at Terre Haute, saw by the papers Smith was dickering with the slugging gardener, and hustled up to Chicago, where "Spikes" winters, and by personal persuasion signed him up.

Smith has not signed anyone yet but Manager Ben Koehler, as the big leaguers are clinging to their reserved property now when it doesn't cost them anything to do so. When time for reporting comes, however, Smith looks for a big release of material and will be prepared to secure some of it.

COLLEGE BOY vs. FARMER BOY IN MAT TEST.

(By Brown Holmes.)

"Strangler" Lewis, college boy wrestler, is the logical man to give a real test to Joe Stecher, the youngster who came from a Nebraska farm with a remarkable leg grinders hold, won one bout after another, claims the American championship and is seeking a match with Frank Gotch for the world's title.

Lewis has gone through the big international tournament at New York with a clean record in the catch-as-catch-can game. His most notable triumphs were over Mort Henderson, who was a sensation as the Masked Marvel; Wladek Zbyzsko and Doc Roller.

Stecher has appeared in only one match in the tournament. He beat the marvel. That entitles him to meet Zbyzsko and Lewis.

The "Strangler" is the only man who has ever given Stecher a real tussle since the Nebraskan became a national figure.

They wrestled two hours and five minutes to a draw.

Lewis is different from most wrestlers. He is smart. He attended Kentucky State university, then continued his education by reading high-class literature in spare time, especially on trains while going from one city to another between matches.

He is a student of psychology and says he expects to "thing himself to the championship." He says that many times, through mind control, he is able to make opponents do almost as he wants them to.

In college Lewis was a star in athletics. He was physical instructor at Kentucky state before he became a professional wrestler.

The "Strangler's" right name is Robert Friedrich. He was called "Strangler" after "Strangler" Evan Lewis, who won fame on the mat before him. He measures 6 feet 1 inch, weighs 255, measures

19 inches around the neck and 43 around the chest. He is only 23 years of age. A match between Lewis and Stecher in the New York tournament will be the biggest event of the year in the wrestling game. The winner of the tournament will get \$10,000. Lewis has the edge on the purse and the final match probably will be between him and the farmer boy from Nebraska.

GERMANS RETREAT IN DISORDER

The Broadway Germans pranced out of St. John's gym last night, dragging the wrong end of a 43 and 25 tally. The St. John's boys were on deck all the time after the first half, although the tiff was an even break up till the end of the initial period. Lineups and scores:

Germans, 28—Lenz, F.; Bayer, F.; Harber, C.; Allen, G.; Kampe, G.
St. John's, 43—Siebold, F.; Sauerwine, F.; Stocks, C.; Gidley, G.; Loonis, F.; Pruechte, G.

Field goals—Lenz, 4; Boyer, 3; Harber, 2.

"Wires Down"—Unsung Heroes of Snows Answer Call of Stern Duty

"Trouble-Shooters" Along Telephone and Telegraph Line Brave Danger So World May Talk.

Seattle, Wash., Feb. 2.—These are the days when from the great snow-swept regions the word often comes, "telegraph and telephone communication has been cut off"—when the wires are blown down.

By that token it is also a time when the names of heroes are being written in the calendar of linemen's perilous exploits.

Across the northern states, where the wire trunk lines pass from Pacific to Atlantic, the vigilant men who repair the breaks when storms play havoc are stationed in little cabins, five to ten miles apart.

In his office here the wire chief sits, equally alert. When a break occurs he figures out the approximate location by means of his Wheatstone bridge, a device that measures wire mileage through resistance.

A hurry call goes to the nearest patrol this side the break, and a muffled figure on snowshoes, kit strapped to his back, fights into the storm to locate "the trouble."

One of the most recent cases of a "trouble shooter's" bravery to be recorded is that of Ben Huneagard, a lineman at Easton, Wash.

The wires had gone down somewhere east of Lake Keechelus. The snow was deep and still falling. Lineman G. W. Hull had been dispatched from Wolf's cabin, together with Wolf, to make repairs.

Then the wire chief at Seattle noted a second break, not long after the two men had left. It was behind them. They were cut off from all communication with the outside world.

After waiting 20 hours to hear from Hull and Wolf, the wire chief sent out rescue parties from the nearest points, east and west.

Huneagard and a helper comprised one of these parties. In a few hours the helper turned back. "You're a fool to go on, Ben," he said. "I'm going back." And he quit.

"All right, Ben," replied Huneagard,

Ben Huneagard, lineman hero, "shooting trouble" after a storm in the Washington Cascade mountains.

briefly, plodding on into the storm, searching for Hull and Wolf.

Night came, and the blizzard closed in about him. At midnight, half dead, he saw part of a cabin roof above the snow.

It proved to be a deserted shack, half smashed by the weight of a slide. Crawling through the wreckage, Huneagard managed to light a flame in the fireplace and hung up his dripping stockings to dry. The warmth had made him drowsy. When he awoke it was morning, and his socks had burned.

Thrusting his naked feet into icy boots, he continued his search on snowshoes, locating Hull and Wolf in another

KANSAS CITY COPS CHICAGO PLAYERS

Chicago, Feb. 2.—Kansas City bids fair to boast an all-Chicago ball club during the coming A. A. pennant clash. Three of the early birds cast adrift by President Weeghman were gobbled up by Danny Shay, skipper of the Blues, who set about his task of assembling a winner by purchasing Caruso Beck, Artie Phelan and Bubbles Hargrave. The K. C. boss continued to angle for athletes who performed last season under Bresnahan and Tinker and yesterday obtained John (Red) Murray and Charley Handford, outfielders.

Both outposts were under contract for 1916 and Tinker selected Kansas City as their jumping off place only after failing to plant them in the majors. Murray was a free agent when Bresnahan added him to the west side roster during the middle of the last season. Handford originally plunked in the International league and was around the early vandals, enlisting with the Buffalo Bobs. After one season with that organization Handford was purchased by Weeghman.

Star to Be Out Half a Season

John McGraw, manager of the New York Giants, is looking for a star outfielder, following reports that Dave Robertson, one of the best gardeners in the National league, will not be able to be with the Giants until mid-season. Robertson is reported to have been injured while on a hunting trip in the south. McGraw was counting largely on Robertson and the newly acquired Benny Kauff, star of the Federal league, to put the Giants in the running.

HAS BIG RAT POPULATION.

New York City Figures Damage Done by Rodents at Tall Sum.

New York, Feb. 2.—This city has a rat population of 2,500,000 and as each rat costs the city ten cents a day in damage it does collecting its food the total cost of sustaining these rats is \$250,000 a day or \$91,250,000 a year according to an estimate by Dr. Stieker Heiser, director of the health commission and formerly director of health of the Philippine islands. Dr. Heiser in an address before the People's Institute last night, advocated a campaign to exterminate the rats.

STRAY FERRET CAPTURED.

John Erwin, 517 East Creighton avenue, captured a full grown ferret at the transfer corner Tuesday evening and it was taken to police headquarters to await a claimant. Several women who were waiting to take street cars were thrown into a state of great excitement while the little animal was racing about, thinking it was a skunk.

SHOP AND RAILROAD NEWS

DEATH LIST NEARLY EQUALS ADDITIONS

Fifty-One Join Pennsy Roll of Honor and Forty-Seven Old Ones Die.

On January 1, 1915, five men, each of whom have served the Pennsylvania Railroad system more than a half-century, were retired under the operation of the pension rules and placed on the "roll of honor." They were Cyrus J. Herschberger, engineer, of Pittsburgh; John Turner, car cleaner, of Camden; William M. Yoder, of Baltimore, a clerk; George W. McNelly, a switchman, of Philadelphia, and George W. Davis, general freight agent of the Vandalia, of Cincinnati. Altogether fifty-one employees were retired January 1, and of this number twenty-two had worked more than forty years each. Included in the list were nine engineers, five clerks, four conductors, four laborers and one general officer. The "roll of honor" now totals 4,561 names and the amount spent in pensions since the plan was established on January 1, 1900, has been \$12,224,390.55. The mortality list of the pension department for December shows that forty-seven pensioners died during that month, which in number is only four short of the members added to the "roll of honor." Of the deceased, thirty-four were on the lines east and thirteen on the lines west of Pittsburgh. None were Fort Wayne people.

NEW INDIANAPOLIS LINE.

The report that the Pennsylvania is going to establish a new line into Indianapolis and abandon its present route has been revived with a seemingly authentic foundation. The present route is over the L. E. & W. line from Kokomo southward, and the new route will be an extension of the Vandalia from Frankfort to Indianapolis. Concerning the matter the Peru Chronicle says:

"The six Pennsylvania passenger trains daily and about twenty-five freight trains are operated every twenty-four hours on this line of track on running orders issued from the Lake Erie dispatchers' office in Peru. This amount of business together with the regular traffic of the Lake Erie on the south end of the Peru division make the fifty-five miles about the busiest piece of single track in the country. It is said the new plans provide for the removal of the Vandalia offices to Frankfort if the reports are true. The Pennsylvania, which has had a sudden rush of business, will use the Vandalia yards in Logansport and will do the shipping and other work for the Vandalia in that city. The trainmen and engineers employed by the Vandalia at Logansport will be taken over by the Pennsylvania and will not be compelled to move."

BOWSER EFFICIENCY CLUB.

"Filteration Equipment" was the first of a series of technical papers to be read at the meetings of the Bowser Efficiency club this season. It was read by J. M. Morrison and it will be followed by others until all of the factory products have received especial attention. Mr. Morrison illustrated his remarks with lantern slides and brought out every point so as to make it understood by the hearers, some of whom were not familiar with that subject. The meeting last night closed with a debate on "Preparedness," which proved most interesting and at times amusing. J. M. Morrison took the affirmative side and J. E. Lewis took the negative. There were no judges and the hearers were left to draw their own conclusions as to the merits of each side.

BOWSER TALKS TO STUDENTS.

"While you are here to get a start in life—to build a foundation for life, and with the idea that you must some day make a fortune—don't lose sight of the fact that reputation will buy more than all the credit in the city of Fort Wayne," was the way S. F. Bowser emphasized one of the points he wished to impress upon the minds of the students of the International Business college yesterday, when he delivered a lecture before them. Mr. Bowser took up the fundamental principles for life's success as his subject and his talk was one of the best of the series being delivered by prominent business men and manufacturers.

OWEN BARRY INJURED.

Owen Barry, a hammersmith at the Pennsylvania blacksmith shop, who is working at night at present, sustained a painful wound in the forehead last night which has put him out of commission for awhile. A piece of steel was thrown out by the hammer at 8:30 o'clock and struck Mr. Barry a glancing blow on the forehead, cutting a gash and bruising the flesh just above the eyes. Mr. Barry has been employed at those shops for over a quarter of a century.

PAY DAYS THIS WEEK.

The Pennsylvania and the G. R. & I. paymasters will be in Fort Wayne this week. The G. R. & I. will pay the employees of that company tomorrow and Friday morning, the car returning here at 4 o'clock Friday to pay the Pennsylvania shop clerks and the following day the Pennsylvania shopmen. The distribution of cash among the employees will be greater than for many years, because of the busy times and the large force in the shops.

A. J. GLUTTING INJURED.

Andrew J. Glutting, of Supt. B. R. Hudson's office, of the G. R. & I., sustained a badly sprained left arm when he slipped and fell on the floor last night. The injury is chiefly in the elbow, but the entire arm is more or less injured and it will be a week or more before Mr. Glutting will be able to use

the limb. He appeared at the office this morning to make a report, but could not work.

WAS MANAGER AT MADISON.

W. S. Goll, who was manager of the Madison works, recently absorbed by the Fort Wayne Electric works, has arrived here to take a position with the local plant. He will have charge of the electric transmission for automobile department, which is new, looking after both the commercial and engineering ends of it.

FORT WAYNE FIRM GETS JOB.

H. J. Collier company, with offices in the Bass block, has secured the contract to build two large bridges for the Erie road on the Greenlake division in New Jersey. The Colliers have also been awarded the contract to build a new stone crushing outfit for the Erie Stone company at Kenton, O. Construction work will be taken up at once.

HAD TWO TOES CRUSHED.

Andrew Bennett, weighmaster at the cupola of No. 5 wheel molding room at the Bass foundry, will be unable to work for several days because of an injury which was received yesterday afternoon. A heavy piece of iron rolled off a truck and fell on his right foot, crushing two of the toes.

HORSES FOR EXPORT.

Two special trains carrying horses for export to the warring nations passed through the city over the Pennsylvania last night. One train of six cars traveling on express train schedule passed through the city at 7:50 o'clock and another of 18 cars went through the city at 1:30 this morning.

L. E. REHLING RECOVERING.

Louis E. Rehling, of 515 East Taber street, one of the oldest blacksmiths in point of service in the Pennsylvania shops, is convalescing and expects to be out again by Saturday. Mr. Rehling has been sick for three weeks and was in a serious condition for awhile.

CAR WHEEL ROLLER INJURED.

John Sarna, a car wheel roller at the Bass foundry, is at St. Joseph's hospital with a fractured leg. He sustained the injury at 10:30 o'clock Wednesday morning, when a car wheel fell upon him. The company surgeon attended the man.

HIS FINGER IS CRUSHED.

J. B. Boitet, a helper in the Pennsylvania machine shop, had the index finger of his left hand crushed at 8 o'clock this morning, while at work in the shop. He was attended by Dr. Van Sweringen, the company's surgeon.

INDUSTRIAL NOTES.

Machinist John Klingler is sick and off duty from the Pennsylvania shops.

F. A. Etzold, a Pennsylvania tinner, is sick and off duty.

After a week's illness, Nickel Plate Engineer W. Sanders, is on duty again. Nickel Plate Engineer Grove Miller is taking a lay off to attend to some private matters.

Frank Spruiger, of the Bass machine shop, is off duty on account of sickness.

F. A. Walda, Pennsylvania boiler-maker, is off duty as the result of a badly bruised foot, sustained yesterday.

Fireman Theodore C. Mousing, of the Nickel Plate, is detained at home by the illness of his mother and his wife.

Elmer Wiebke, clerk in the Pennsylvania machine shop office will spend the week-end in Chicago.

G. Buhr, a Pennsylvania tank repairer, will be off duty a day or two as the result of being struck on the hand yesterday morning by a piece of flying iron.

H. E. Loneragan, a painter, is looking after private matters today and failed to show up for work at the Pennsylvania shops.

S. Tan, a welder at the Pennsylvania shops, was disabled for a few days yesterday when one of his fingers was badly cut.

John Neff, representing the Locomotive Arch Brick company, of New York, was here yesterday and called on patrons among the railroad companies.

Nickel Plate Conductors B. Schondel, M. L. Honder, C. A. Bowman and W. K. Pierce are off duty for various reasons, none being sick, however.

Machinist A. L. Stewart, of the Pennsylvania shops, is a victim of the grip and was unable to report for duty this morning.

Boilermaker S. C. Walda, of the Pennsylvania shops, sustained an injury to one of his feet yesterday and will be unable to work for several days.

Conductors W. O. Miller and J. F. Haddock, and brakeman I. F. Smith, who had been laying off, have resumed work.

Nickel Plate Fireman J. F. Baughman, has obtained a two weeks' leave of absence from duty and will visit friends in Cleveland and elsewhere.

Machinist Allen Hamilton, who had been sick two or three weeks, resumed his duties in the Pennsylvania tool room yesterday.

Paul Zimmerman, storekeeper of the Pennsylvania Chicago Terminal division, was here today on business connected with the department.

Pennsylvania Engineer T. R. Davis, who had been off duty on account of an injured eye, reported for work this morning.

Engineers E. W. Crosby and J. W. Sanburn, of the Nickel Plate, are taking a few days off to attend to some private business.

Engineer J. F. Ragan and W. O. Granger, of the Nickel Plate, are sick and off duty. L. Schaeffer, another engineer, is off duty to attend to some private business.

Engineer J. I. Soffer, who was sick and Engineer D. T. Grubb, who had been looking after some private business, reported for duty on the Nickel Plate yesterday.

F. F. Troendly, a tank repairer; F. E. Blady, a boiler-maker, and G. H. Henschen and F. H. Suboski, rivet heaters, are absent from the Pennsylvania shops on account of sickness.

Jose de la Torre, who came to the Bowser people as a translator of the Spanish and Mexican languages two years ago, has been promoted to salesman with headquarters in Porto Rico.

Blacksmith Rhinehart Sutterlin failed to show up at the Bass works for duty today on account of sickness. Thomas Ross, of the same shop, is off duty on account of the illness of his wife.

J. B. Oliver, a cabinet-maker at the Pennsylvania shops, is off duty on account of sickness. Nick Miller, who had been sick a week, resumed work in the car machine shop this morning.

Floyd Tew, Nickel Plate passenger fireman, is on duty again, after an absence of two or three weeks, on account of the sickness and death of his wife. The remains were taken to the old home in Michigan for interment.

D. C. Tegtmeyer, who was off duty on account of the illness of his daughter, and H. Rohrbach who was sick two or three days, resumed work at the Pennsylvania erecting shops this morning.

William Bullock, a Washburn conductor, known to most of the men in the operating department in Fort Wayne, was buried at Decatur yesterday, following an illness of nearly four years. Mr. Bullock commenced work on the Washburn in 1893.

Freight business on the roads running through Fort Wayne was heavier during the past month than it was during January of 1915. The Washburn probably noticed the greatest gain, there being an increase on that line of upwards of 10 per cent.

A. R. Eckles, of Wellsville, assistant road foreman of engines of the Cleveland and Pittsburgh division, was here today on special business connected with the department. He was in conference with Assistant Road Foreman of Engines F. E. Moro, who recently was down on the C. & P. doing special work.

Henry Roemke was not able to appear at his force in the Pennsylvania blacksmith shop this morning. An attack of the grip, with which he has been wrestling for two or three days, got the best of him this morning and he was not able to leave his bed. C. S. Burnsworth and H. E. Richmond, of the same shop, are also off duty on account of sickness.

The president declares he knew the people of Kansas wanted to know the facts before taking action.

"I have come," he said, "not to plead a cause. The cause I came for does not need pleading. I want to clear away clouds which have arisen to fog this issue."

FIRST STOP AT LAWRENCE.

Lawrence, Kan., Feb. 2.—President Wilson arrived here today at 9:29 o'clock a. m. for the first Kansas stop of his midwestern trip. He was greeted by a cheering crowd of several thousand, including students from Kansas university. The temperature was below zero and the ground was covered with snow, but this did not lessen the enthusiasm of the people. The bands played patriotic airs and the students sang and gave their college yells. It was the noisiest crowd the president has met. Half the population of 13,000 was at the station.

SAYS MOTHER-IN-LAW TOOK HER HUSBAND

Wherefore Dessie Poince Sues Alda Hamm for \$2,000.

Alleging that his mother-in-law induced her son, who was the plaintiff's husband, to leave her and procure a divorce, Dessie Poince has begun suit in the circuit court against Alda Hamm for \$2,000 damages. The plaintiff says her mother-in-law threatened to separate them soon after they were married, spoke disrespectfully of her and sought to separate them. Her husband, she says, would go away from her in the morning jolly and pleasant and would return after visiting with his mother in an ugly and unkind mood toward her. Finally, it is alleged, the defendant brought her son to town and with him consulted attorneys about a divorce, got him to file a suit against the plaintiff and paid the costs involved. A divorce was granted the husband of the plaintiff in the superior court November 15, last. P. B. Colerick appears for the plaintiff.

Charged With Grand Larceny.

In the circuit court affidavits charging grand larceny have been filed by Prosecutor Frank A. Emrick against Curtis Spruiger, John Smith, Jesse Smith and Howard Criswell, who are accused of robbing John Rousseau, a Jewell township farmer of \$140 in New Haven the night of January 24. All have confessed save Spruiger, who still maintains his innocence.

Pennings Gets \$2 Judgment.

In the superior court Wednesday Judge Carl Yable announced his finding and judgment in the suit of August C. Pennings vs. the Fort Wayne Bessemer Home mission, the Fort Wayne giving the plaintiff \$2. Pennings' judgment was based on the actual damages the court found he had suffered by reason of having had his water supply cut off by the defendant, of whose building the plaintiff was an occupant.

Webkes Again Seek Injunction.

For the second time within a few weeks Fred D. Wiebke and four others of the Wiebke family have filed suit in the court to procure an injunction restraining the board of park commissioners and the city of Fort Wayne from proceeding with the proposed paving of Rudisill boulevard. The action just begun in the circuit court makes the Graves Construction company, which has been awarded the contract to pave Rudisill from Plaza avenue to Broadway, is made a party to the suit. In the complaint it is alleged that the cost of the improvement will be in excess of 50 per cent. of the assessed valuation of the property affected, that the materials specified in the contract are not of the sort known as modern pavements; that the proceedings were irregular and that an unfair and illegal charge of \$500 for "overhead" cost has been made by the department and made a part of the assessment for paving. The complaint was filed by Harper & Fisher. The Wiebkes have been steadfastly resisting all steps for the paving of Rudisill boulevard.

Notes of the Courts.

Edwin L. Martin has begun suit in the circuit court against Harman Sheets and Harmon Sheets, trustee, to collect \$192 on a contract. P. H. Kleckamp, Jr., attorney for the plaintiff.

John H. Aulderheide has begun suit in the superior court against Wade Bates to foreclose a chattel mortgage, demanding \$89.40. Ryan, Ryan & Aldrich appear for the plaintiff.

Josephine Hagganjos has commenced an action in the superior court against Gustav Hagganjos for divorce, alleging cruel and inhuman treatment. She says the defendant beat her and drove her from their home three or four times, compelling her to seek shelter for herself and two children, of which she asks custody, at the home of her parents. Emrick & Emrick are her attorneys.

The superior court has granted a divorce to Maude Franks from Herbert Franks and restored her maiden name of Fish.

TRIBUTE OF BAR TO HON. P. A. RANDALL

Resolutions Adopted and Eulogies Spoken for Dead Lawyer.

The Allen County Bar association assembled in the circuit court room, Wednesday morning at 10 o'clock, when the members joined in paying tribute to the memory of Hon. Perry A. Randall, long a member of the association and one of its most honored and distinguished associates.

Resolutions were adopted expressing the sorrow of the association over the sudden and almost tragic death of Mr. Randall and members of the association paid personal tributes in sincere and eloquent eulogies of the life and character of the dead lawyer.

Brief addresses were made by Judge Robert S. Taylor, Judge William J. Vesey, Hon. James M. Barrett, John Morris, James B. Harper, Frank H. Kleckamp and Harry E. Kennerk.

The association decided that a floral tribute be purchased to place upon the casket of its deceased member and made arrangements to go in a body to attend the funeral services in the First Presbyterian church.

There was an unaffected manifestation of grief over the death of Mr. Randall. The older members of the bar had known him almost from his youth and personal esteem for him was sincere and warm.

Charles M. Niezer and Harry E. Kennerk were appointed a committee to provide the bar's floral offering. Hon. William P. Breen, president of the Allen County Bar association, presided at the meeting.

Resolutions Adopted.

The following resolutions, presented by the committee designated for that purpose were adopted:

"Perry A. Randall was born near Avilla, Noble county, Indiana, on July 24, 1847. His father, Edwin Randall, was a pioneer settler and a prominent citizen who in the early days served as associate judge of the probate court of his county, and carried the title of Judge Randall for the rest of his life. The son, Perry, came to Fort Wayne to attend the high school of this city. He then entered the University of Michigan, taking both the literary and the law course and was graduated in 1872.

"Shortly afterwards he moved to Fort Wayne, and was admitted to the bar and entered upon a general practice in which he was highly successful. He was first associated with Judge James A. Fay, whose daughter he married. In 1881 he formed a partnership with Mr. W. J. Vesey, which continued a number of years. At various times afterward he was associated with Gideon W. Snover, Newton D. Douglass and Charles Niezer.

"Mr. Randall was a man of intense activity, both of mind and body, and was greatly interested in the up-building of the city. At the time the Fort Wayne Electric Light company was organized by Ronald T. McDonald, Mr. Randall, with John H. Bass, Oscar A. Simons and Henry G. Olds, were on the board of directors. He was active in the work of home building in Fort Wayne. He organized the old Tri-State Building and Loan company, of which he was one of the directors until it was succeeded by the Tri-State Trust company, at which time he sold out his interest. But he continued to interest himself in home building and built some houses in South Wayne and elsewhere as personal investments.

"Mr. Randall was an enterprising and prominently active on behalf of the proposed Chicago and Lake Erie waterway. The first public meeting to push this project met on November 16, 1907, and from that time on he was president of the canal association and the most active member in it. Since that time he has done an immense amount of work for the canal project and for waterways in general, and has been known all over the country for his interest in this subject. Some years ago he was elected a director of the National Rivers and Harbors congress and he held this place until the time of his death.

"He was president of the Commercial club for one term. He was an active member of the Masonic order, being at the time of his death a Scottish Rite Mason of the 32d degree.

"But above and beyond all business and civic virtues were his lofty integrity and generosity of character. His word was as good as his bond, and all his undertakings were carried out with scrupulous honesty. No deserving cause ever found him deaf to its appeal. He was the prime mover in the organization of the local Anti-Tuberculosis league and was its president for two full years and was serving the third at the time of his death.

be allowed to remain Turkish instead of being made German. Germany, he said, should indulge in no thought of making Turkey a part of the German empire. He even favored a protective policy in Turkey's behalf which should act against imports from Germany as well as those from other countries.

In making a number of recommendations for the rejuvenation of Turkey economically, he said that one essential was a far-sighted credit system, with special reference to the needs of farmers and other small borrowers.

Railways and highways must be built extensively, agriculture rationally reformed by means of experiment stations and model farms. A topographical survey of all sections of the country available for agriculture must be made, he said, to serve as basis for a wide-reaching system of irrigation. In the foreign trade the Oriental system of long credits should be abolished, he declared.

stand the expense of replacing and repairing the bicycles.

The boys operated with a system. Two to three of them would act as scouts. When they saw a bicycle left at a curbing two of them would watch for the owner while the third jumped on and rode it away. After they had stolen a half dozen bicycles they took them apart and changed them so much that the owners could not identify them.

Finally one of the boys got "cold feet," he said, and returned a bicycle he had stolen. However, he had changed the pedals in the meantime and the owner saw there was something wrong.

An investigation resulted in the arrest of the eight boys. All declared they got their ideas from "dime novels" and motion pictures.

Make Your Own Stomach Medicine at Home

Simple, Inexpensive, Effective.

Many people seem to think that the best medicines are to be had only upon the prescription of a high-priced specialist, but there are many simple things that can be obtained for a few cents which often do the work even after the best doctors have failed.

How many stomach sufferers have ever heard of concentrated liquid marlin? Perhaps not one in ten, yet here is something that any good druggist can sell you and which is said to produce astonishing results in cases of indigestion, dyspepsia, gas, belching, bloating, nausea and heart palpitation after meals and similar indications of stomach disorders.

It is a simple thing—perfectly harmless—and the best way to prepare it is to get two ounces of liquid marlin (concentrated)—cost about fifty cents and an empty eight ounce bottle. Take these home, pour the marlin into the bottle and add water enough to fill it. The dose is a teaspoonful before each meal and the quantity—eight ounces—will last for several weeks. Those who know of it and have tried it, say it is not only the simplest, but one of the finest things persons troubled in this way can take and that relief is usually felt within a few minutes.

Being in liquid form it has the advantage over the many medicines in pill or tablet form. The rapidity with which it reaches the affected parts and brings relief to the sufferer is the best proof that it is readily assimilated by the stomach.

SODALITY UNION ELECTS OFFICERS

First Business Meeting of
New Organization Held
Tuesday Evening.

All the Catholic congregations in Fort Wayne were represented Tuesday evening at the first business meeting of the members of the Sodalita union held in library hall. The meeting was a very important one and was presided over by Rev. John A. McCarthy, spiritual director.

A constitution as drawn up by a committee was adopted as was a set of by-laws after which in order was the election of officers. Mrs. Mary Sommers, who was elected president of the temporary organization, was chosen to head the organization by acclamation. The other officers were chosen by ballot.

The next regular meeting of the organization will be held Monday evening, March 6, at which time every committee chairman is expected to turn in a written report.

The officers and committees named are:

President, Mrs. Mary Sommers; vice president, George Rokers; recording secretary, Miss Catherine Sullivan; corresponding secretary, Arthur Kelker; treasurer, Miss Mary Pothoff; press representative, Miss Helen May Irwin. Executive Council—George Ryder, George Zurbuch, Henry J. Bogenschuetz, Mrs. Mary Pothoff, Miss Louise Brinker, Mrs. John McNulty.

Committee on Public Morals—Mrs. Georgia McKinnis, Adam A. Reinhardt, Miss Alice O'Reilly, George Zurbuch, William Heit, Harry McCormick. Committee on Finance—William Fleming, Mrs. John Eggeman, Hubert Berghoff, Jr., Louis Fox, John Suelzer, Jr., J. Herman Bueter.

Committee on Missions—Miss May Trentman, Miss Anna App, Miss Augusta Vieler, Miss Helen Freiburger, Mrs. Celia Galland.

Committee on Catholic Literature—Miss Grace Hogan, Miss Mayme Nussbaum, Miss Teresa Bequette, Adolph Keller, Miss Catherine Lordier. An additional member will be elected on this committee at the next session.

100 MEN EXPECTED TO ATTEND BANQUET

The first annual banquet of the Men's Bible class of St. John Reformed church, of which Rev. J. H. Bosch is teacher, will be given Wednesday evening in the auditorium of the school hall, Washington and Webster streets. Officials are planning for 100 men of the church. This is the first event of its kind ever given by this organization since its existence of half a year.

Rev. F. H. Diehm, of the Reformed church of Huntington, will be the principal speaker of the evening. Other addresses will be given by Rev. F. W. Knatz, of Salem Reformed; Rev. John Winkler, of the Orphans' Home, and Rev. J. H. Bosch, Christian Hesse, president of the class, will preside as toastmaster and responses will be given by members of the class and of the Ex-enda Bible class and the German Bible class of the church. The two latter classes have been invited and will attend in a body.

One of the best quartets of the city, composed of Theodore Haberkorn, Wilbur Gidley, Earl Siebold and Fred Bloemer, will furnish music for the evening. Other social events have also been planned by the committee in charge.

some extent in Washington, St. Joe and Adams townships by reason of the annexation to Wayne townships of such parts of the others as embraced parts of the city of Fort Wayne. Changes were made also in Cedar Creek. The legislature of 1915 passed an act by which the 1914 registration became permanent in unchanged precincts for all voters registering in them in 1914.

There will be registration for first voters and other voters who have moved into the precincts since the last registration. In Fort Wayne and the five townships named a registration day will be held twenty-nine days previous to the election. In the other townships first voters and voters who have moved in will have a special registration.

MUST REGISTER IN FIVE TOWNSHIPS

The voters in Wayne, Washington, St. Joe, Adams and Cedar Creek townships will have to register, this fall to qualify themselves to vote at the November elections. Voters in the other

fifteen townships registered voters will be exempt from this necessity. This was the decision reached Tuesday afternoon at the conference of a committee consisting of Democratic County Chairman W. A. Johnson, County Auditor Will Johnson, W. H. LaTourette, J. W. Garman and Francis E. Moore, representing the political parties. In those townships where no changes have been made in precinct boundaries and where the registration books of 1914 are available registration will not be necessary. The precincts were changed quite extensively in Wayne township and to Erie freight office in the absence of one of the clerks who is ill.

Mr. and Mrs. O. L. Vance had as their guests Mr. and Mrs. Thurman Porter, of Parker City; Lanta, Carol, Fanny and Gail Baughman, of Fort Wayne, and Mrs. H. H. McGill.

HERMAN BILL, active water as their 1101 E. Pontiac, health insurance. West Baden Sprudel Water overcomes constipation and its attendant ills—headache, stomach upsets, lazy liver, rheumatism. It cleanses, tones and invigorates—frees the spark of ambition—helps man over the hard spots on the road to success.

The Mother Spring, at West Baden, Indiana, is a busy place. There they bottle this excellent laxative water and druggists everywhere sell it—large bottles for 35c, small ones for 15c. Many people buy it by the case, and those who appreciate good health drink at least a glass of it once a week. It's the greatest bowel exerciser you ever heard of. Indoor workers and others leading sedentary lives should get acquainted with this splendid natural laxative water.

Herman Bill is a pharmacist in whom hundreds of Fort Wayne people place great dependence and entire confidence. His store at 1101 East Pontiac street is a busy place, and his advice concerning West Baden Sprudel Water is the honest opinion of a professional man who knows what's best for humanity.

WOULD PLACE POWER BEHIND HIS WORDS

Needed to Back Up Letters
of Protest, Declares the
President.

Des Moines, Ia., Feb. 2.—President Wilson in addressing the largest audience of his present trip, in which he is advocating preparedness, here last night asked this question:

"Do you want the situation to be such that all the president can do is to write messages and utter words of protest?"

"Why, to ask that question is to answer it," he said.

"Whenever international law is violated by one or the other belligerents," the president said, "America was called upon to register a 'voice of protest of insistence'."

"Do you want the situation to be such that all the president can do is to write messages and utter words of protest?"

If these breaches of international law which are in daily danger of occurring should touch the very honor of the United States, do you wish to do nothing about it; do you wish to have all the world say that the flag of the United States can be stained with impunity? Why, to ask the question is to answer it.

"I know there is not a man or woman within the hearing of my voice who would wish peace at the expense of the honor of the United States."

Applause is thunderous.

The president's address was punctuated with thunderous applause. He spoke slowly and gravely with emphatic gestures to enforce his words. His declaration that the United States wanted peace drew a quick response and his assertion that the self-respect of the nation must be preserved, elicited another great demonstration. A throng that filled every seat in the Coliseum cheered him to the echo.

The president declared he was trying to weigh carefully every word he said. He reiterated that he had been daily charged to keep the country out of war and also to uphold its honor.

"And many a night when it has seemed impossible for me to sleep," he said, "because of the apparently inextricable difficulties into which our international relations were drifting, I have said to myself 'I wonder if the people of the United States fully know what that mandate means to me' and then sleep has come; because I knew that there was not a community in America that would not stand behind me in maintaining the honor of the United States."

"The difficulty of keeping America at peace during this Titanic struggle across the sea cannot be disclosed now; perhaps it never can be disclosed. How anxious and how difficult this task has been. But my heart has been in it. I have not grudged a single burden that has been placed upon me with that end in view. For I know that not only my own heart, but the heart of all America was in the cause of peace."

Cannot Be An Ostrich.

There are actually men in America who are preaching war, the president declared; men who want the United States to have entangling alliances abroad. He said he did not think they spoke the voice of America, which he declared to be for peace.

He added that others go further than he in advocating peace. "They preach the doctrine of peace at any price," he added, while men in the audience called, "never, never." He said these men did not know the circumstances of the world.

"America cannot be an ostrich with its head in the sand," he said.

The president declared he hoped if this war had no other result it would create an international tribunal to settle the questions which cause war. His declaration that he had found the people of the middle west for preparedness drew long applause.

"Some one who does not know our fellow citizens as well as he ought to know them told me there was a certain degree of indifference and lethargy in the middle west with regard to the defense of the nation," he declared.

"I said I did not believe it, but was going out to see. I have seen what I expected to see—great bodies of serious men and women coming together to show their interest in the object of my visit."

The president closed with a tribute to the American flag.

"As I look at that flag," he said, "I seem to see many characters upon it which are not visible to the physical eye. There seem to move ghostly visions of devoted men who, looking to that flag, thought only of liberty, of the rights of mankind, of the mission of America to show the way to the world for the realization of these rights. And every grave and every brave man in the country would seem to have upon it the colors of the flag if he were a true American—would seem to have on it that stain of red which means the true pulse of blood; that patch of pure white which means the peace of the soul. And, then there seems to rise over the graves of those men and to hallow their memories—that blue space of the sky in which swim those stars which exemplify for us the glorious galaxy of the states of the union which stand together to vindicate the rights of mankind."

H. F. MOELLERING ELECTED.

Henry F. Moellering, of the firm of Moellering Brothers & Millard, was elected director of the Peoples Trust and Savings company, at the regular monthly meeting of the directors Tuesday evening. Mr. Moellering was named to fill the vacancy caused by the death of his brother, William F. Moellering.

Our Price Tickets Tell the Story

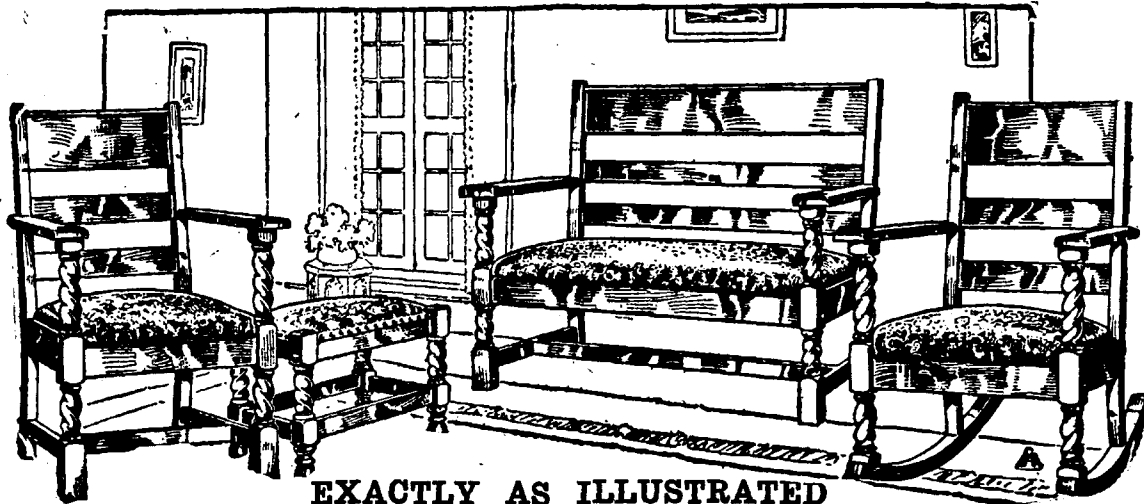

They speak volumes—they tell of savings that make you wonder how it is possible!

The original price tags stay on each piece of furniture and the sale price tags are merely slipped over them so that you can see the saving effected on each article.

Back of these reduced price tickets are months of planning, and they clearly emphasize the great influence our buying power has with the manufacturers. By doing our buying jointly with seventy-five of the leading furniture stores of the country, we are able to make it an object to the manufacturers to grant us price concessions.

This Great February Sale

Is the biggest selling event we have ever held. Every department is represented, and convenient credit terms apply on everything.

EXACTLY AS ILLUSTRATED

This Beautiful Four-Piece Jacobean Library Suite

Upholstered in Genuine
Leather or Tapestry . . . **\$34.50**

We want to impress upon you very forcibly that the illustration seen above is not drawn from imagination, but traced over photographic blue print and consequently every feature of this set is shown in actual proportion. There has been no attempt at exaggeration, even though it may seem almost incredible that seven pieces of furniture of the character pictured above should sell for so little.

Coil Spring Construction Seat —An Important Feature.

The hidden parts of this classic suite are just as high in their quality as the surface. This suite was built to wear well as well as look well. The seats are deeply stuffed over heavy coil springs, and you can select either the very fine tapestry, as pictured above, or the genuine leather, just as you prefer.

The Finish is Unequaled in the Highest Priced Furniture.

It makes no difference whether you select the Jacobean famed oak finish or the mahogany finish. In either case you are going to get the very finest finish possible to apply to wood. The factory that produces this parlor suite is well known for its skilled workers. The finish they apply to their furniture will stand the test of time.

Selling Furniture of This Quality on These Low Credit Terms

is quite an achievement. To be able to sell this suite at this low price would be considered almost enough by most stores, but not so with this firm. We realize that in order that the greatest number of people might avail themselves of this low-price opportunity we must supply low credit terms to suit you.

LEAVES TO HUNT GOLD IN THE NORTH

Alaskan Railway Opens Up
Immense Fields, Explorer Says.

New York, Feb. 2.—Prof. Herschel C. Parker, who climbed Mount McKinley, will start in a few days on another trip into Alaska, this time to prospect for gold. A farewell dinner was given in his honor at the Hotel Belvedere by the Explorers' club.

The opening of the government railroad from Seward, the northernmost open port of Alaska, to Fairbanks, will make available practically all the vast territory west of the line. This includes the Matanuska coal fields, 150 miles north of Seward, and the greater part of the remainder is known to be a rich field for placer gold mining. Professor Parker is going in the interests of one or more business men whose names he would not give.

"The day of the small prospector is gone in these fields," he said. "It costs many thousands of dollars to start placer mining. Nothing has been done so far because it was impossible to get the machinery up the shallow, rocky rivers, but the road will open the territory. The profits are sure. There is no gamble in prospecting there."

"It is one thing to the credit of the administration that the westerly route was taken," he said, "in spite of the influence of wealthy men who wanted it to go by the easterly way. The government should be paid amply for the 20 million dollars it spends for the boom that the gold fields alone will bring."

INHERITANCE TAX OPINION

Masonic Lodges and Similar Organizations Exempt, Says Stotsenbury.

Indianapolis, Feb. 2.—Evan B. Stotsenbury, attorney general, has given an opinion to the inheritance tax department of the state board of tax commissioners, in which he said that Masonic lodges, and other organizations of similar character, where they are beneficiaries of legacies, are not amenable to the provisions of the inheritance tax law, if they are of the class of institutions known legally as charitable, and if the property that is bequeathed to them is to be used solely for the purpose of the organization.

The opinion said, in part: "Such societies are exempt from the payment of the inheritance tax where the property can be considered as having been devised to a charitable institution for the purpose of its organization. It has been held in Indiana that a devise to a Masonic lodge is a devise to charitable uses."

WISCONSIN ENDORSES WILSON.

Milwaukee, Feb. 2.—President Wilson was commended for all his acts and his appointment of Louis D. Brandeis as associate justice of the supreme court upheld in resolutions adopted by Wisconsin democrats in convention here yesterday. This is said to be the first state convention to endorse the president.

Five hundred delegates attended the meeting, which was held in the same hall where President Wilson spoke to

9,000 persons Monday. The following were placed in nomination for delegates at large to the St. Louis convention:

United States Senator Husting, Judge John C. Karel, of Milwaukee, William Wolfe of La Crosse, George Hilton of Oshkosh, and M. J. Sholey, mayor of Kenosha. Of these four will be elected.

Merchants in a number of the towns in northeastern Indiana held a meeting Tuesday at the Anthony hotel.

WHAT WILL POOR OLD NEW YORK DO NOW?—CHORUS GIRL FAMINE IS SENSATIONAL REPORT FROM BROADWAY.

Broadway has lost its blase air for once—and the reason is the famine of chorus girls. Theatrical managers are in despair.

Girls in "Town Topics," shown with Trish Frigante, in the upper row of the picture above and the "Stop! Look! Listen!" girls, shown in the bottom row

are guarded day and night for fear some other managers will kidnap them. The wave of war prosperity that is sweeping the country is given as cause.

by theatrical folk. They say the girls are all getting married instead of making a career behind the footlights.

RELIGION, TEMPERANCE AND HEALTH

CHEERY OMENS FOR TEMPERANCE

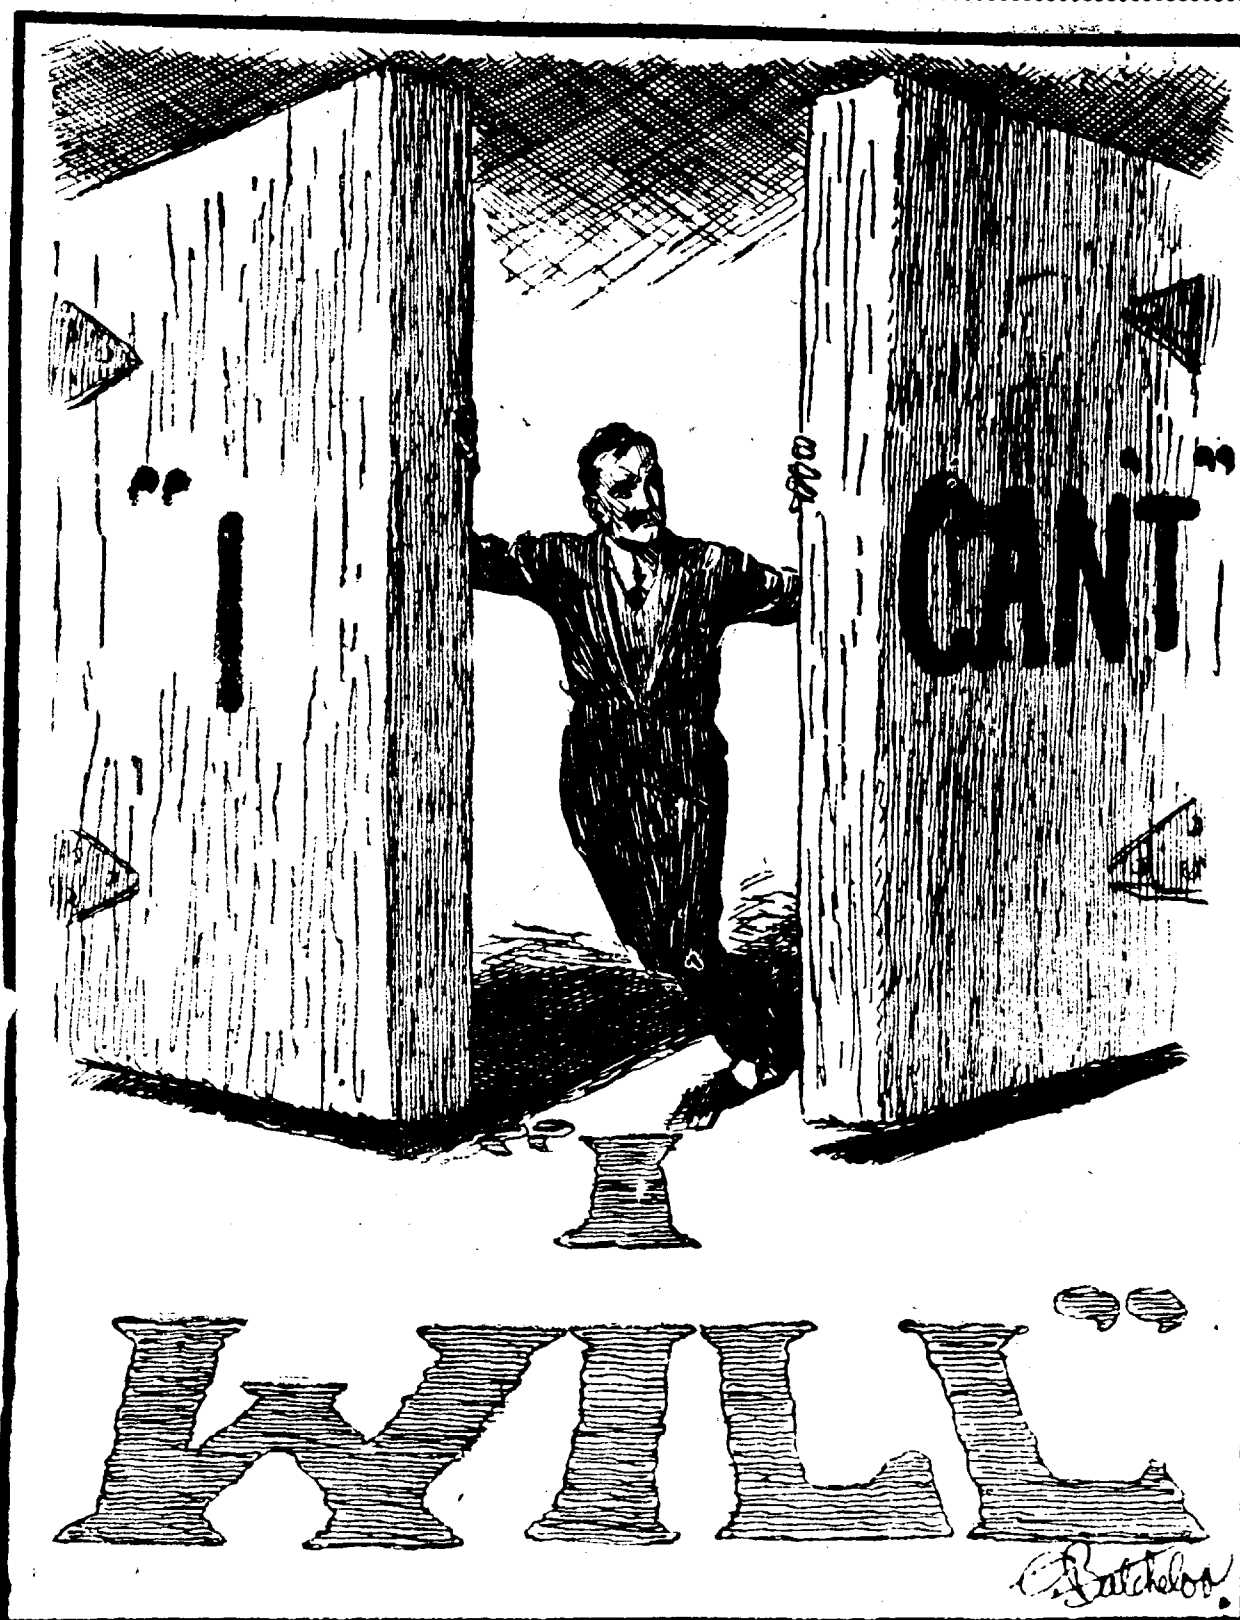

Surely no temperance man need be downhearted in the opening of this new year, 1916. On the 1st of January saloons disappeared from seven states of the American union, and 8,000,000 more Americans were set free from the demoralizing associations of the legalized liquor traffic. Iowa, Colorado, Idaho, Oregon, Washington, Arkansas and South Carolina, thus added to the column of prohibition states, make the total now eighteen, and when Virginia put in effect her already adopted law on the 1st of next November, she will count nineteen.

To be sure, Washington is to vote on the issue again that same month and may possibly recede—although victors of the 1914 fight don't think there is any real danger of it. On the other hand, Nebraska, Michigan, South Dakota, Vermont and Alaska will each ballot on putting their present saloons, and two or three big temperance victories are pretty sure out of that list. There is also more than a chance that Ohio and California will likewise be found voting on the question. Whether, therefore, the federal prohibition amendment does or does not pass congress, it is clear that 1916 will record itself a year of memorable prohibition advance.

Meanwhile, across the international boundary to the north progress in the same good direction is no less rapid. Following close after the big success which won over to the "dry" policy the might Canadian province of Alberta, comes cheering news that the sturdy old island colony of Newfoundland has voted on the liquor business by a ratio of nearly five to one on ballots cast. The statute providing for the election was indeed so worded that every elector who for any cause failed to get to the polls was counted as favoring the whisky side; nevertheless, the temperance forces exceeded by about 400 votes the total stipulated for success.

Turning back to Canada again, one finds the province of Ontario seething already with a campaign which is to culminate in July and which in the eyes of careful political prophets promises good hope of ending the liquor trade in all the teeming territory that looks to Toronto as capital and metropolis. George A. Warburton, the widely known Young Men's Christian Association secretary of that city, has accepted the executive leadership of the movement, and his extraordinary organizing ability is counted on as an invaluable asset in helping the cause.—The Continent.

SWING OPEN THE DOORS.

"I can't" bars the way to success. It looks a formidable obstacle, but if you go at it with determination, the doors will swing open easily enough, and you'll find "I will" overcoming every hindrance.—From the Los Angeles Herald.

The Certainty of Christ's Coming.

This second epistle, beloved, I now write unto you; in both which I stir up your pure minds by way of remembrance: that ye may be mindful of the words which were spoken before by the holy prophets, and of the commandment of us the apostles of the Lord and Saviour: Knowing this first, that there shall come in the last days scoffers, walking after their own lusts, and saying, Where is the promise of His coming? for since the fathers fell asleep, all things continue as they were from the beginning of the creation. For this they willingly are ignorant of, that by the word of God the heavens were of old, and the earth standing out of the water and in the water: Whereby the world that then was, being overflowed with water, perished: But the heavens and the earth, which are now, by the same word are kept in store, reserved unto fire against the day of judgment and perdition of ungodly men. But, beloved, be not ignorant of this one thing, that one day is with the Lord as a thousand years, and a thousand years as one day. The Lord is not slack concerning His promise, as some men count slackness; but is long-suffering to us-ward, not willing that any should perish: but that all should come to repentance. But the day of the Lord will come as a thief in the night; in the which the heavens shall pass away

with a great noise, and the elements shall melt with fervent heat, the earth also and the works that are therein shall be burned up. Seeing then that all these things shall be dissolved, what manner of persons ought ye to be in all holy conversation and godliness. Looking for and hastening unto the coming of the day of God, wherein the heavens being on fire shall be dissolved, and the elements shall melt with fervent heat? Nevertheless ye, according to His promise, look for new heavens and a new earth, wherein dwelleth righteousness. Wherefore, beloved, seeing that ye look for such things, be diligent that ye may be found of him in peace, without spot, and blameless. And account that the long-sufferings of our Lord are salvation; even as our beloved brother Paul also according to the wisdom given unto him hath written unto you: As also in all his epistles, speaking in them of these things; in which are some things hard to be understood, which they that are unlearned, and unstable wrest, as they do also the other scriptures, unto their own destruction. Ye therefore, beloved, seeing ye know these things before, beware lest ye also, being led away with the error of the wicked, fall from your own steadfastness. But grow in grace, and in the knowledge of our Lord and Saviour Jesus Christ. To him be glory both now and for ever. Amen.

What Can You Do?

"I can do anything," says one. Perhaps so, after you have learned how, but what can you do now? Thousands of people would be glad of employment but when they are asked what they can do they can give no definite answer. They are unskilled, and so cannot do things which many other people of no greater natural ability are able by reason of their training to do.

A man who wishes to make his way through life, needs to know how to do something for which there is a wide and general, constant demand. There are many things which people can do, but no one wishes them done. There are other things which must be done, perhaps once or twice in a life-time, but no man can depend on such occupations for employment or support. It is a sad thing for a man to be in need of work while others are in need of help, and yet be unable to do the many things which should be done and must be done. Life is a very earnest matter, and it is well for people to carefully consider in the light of the best counsel they can obtain, what they are fitted to do, what there is need of doing and how they can qualify themselves to do the needed thing and be most useful in the world. There is work enough for all, if they could only find it. There is bread enough for all if they could only earn it; but many have not been properly advised, and while the bread is in one place they are in another, and while needed work is pressing they have never learned how to do it.

REST

"To step out of self-life into Christ-life; to lie still and let Him lift you out of it; to tell your hands close and hide your face upon the hem of His robe; to let His life cool, soothing, healing hands upon your soul, and draw all the hurry and fever from its veins; to realize that you are not a mighty messenger, an important worker of His, full of care and responsibility, but only a little child with a Father's gentle bidding to heed and fulfill; to lay your busy plans and ambitions confidently in His hands; as the child brings its broken toys to its mother's call; to serve Him by waiting; to praise Him by saying, 'Holy, holy, holy,' a single note of praise, as to do the seraphim of the Heavens; if that be His will; to cease to hurry so that you lose sight of His face; to learn to follow Him and not run ahead of orders, to cease to live in self and for self and to live in Him and for Him. To love Him more than your own; to be a clear and facile medium for His life; to shine and glow through this consecration, and this is rest."

The Handicapped Son of Wealth

By Dr. Charles E. Barker

"Here I am, millions to my credit in the bank—and a pauper in body and soul." Never shall I forget the tragic and pathetic words of this young man of wealth and position in society, but bankrupt in health and morals, who called at my office in Washington four years ago.

He was seeking too late to regain his health, for he had been going "the pace that kills." The lines of dissipation were cut deep in his otherwise handsome face. Disease had wrought its awful havoc with his body and nature had now called for a "show down." He was simply paying the price.

Will say that this striking arraignment and pathetic diagnosis is correct in so many cases that it is an exception. The student of human nature will find that here in America the boy of poor or humble parentage stands a better chance of making good than the son of wealth and luxury. The poor boy need not look with envious eyes upon some son of the rich who are "greasing the way" of life for the boy, while he is compelled by necessity to breast the waves of adversity and either to sink or swim in the struggle. The real child of fortune is the young man who along with stuff and moral fiber is bequeathed the necessity and opportunity of fighting and conquering obstacles and difficulties, up to and through manhood, guided by a wise father.

It is a handicap to the average son of wealthy parents to be given over during his maturing years to association with other young men like himself, having plenty of money, automobiles and yachts and little or no training, loose ideas about life, and left to follow his unguided inclinations. He hits a hot pace.

A Universal Remedy.

There is probably no single article in the world which possesses such curative powers as water. If it cost a dollar a pint, and had to be brought a thousand miles, physicians could not doubt prescribe it, and people would be anxious to purchase it. But it is, perhaps, too cheap and convenient to come into general use.

About three-quarters of every human body is warm water, and the presence or absence of this fluid in due proportion has more to do with health than almost any other condition of our existence. A man can live upon water three or four times as long as he can upon dry food; in fact, nothing is fit for food unless it contains a large percentage of water. And for a large proportion of the diseases which men suffer, water is the most prompt and efficient remedy. In cases of croup, colic, neuralgia, congestion, sore throat, or rheumatism, there is nothing which will so promptly relieve distress and dangerous symptoms as pure, fresh water. In fact, nature cries out for water with unutterable desire; and it is often the only remedy which can satisfy and relieve the sufferer.

Water, as the medium through which life is communicated and sustained, is a most fitting emblem of the Spirit of the Lord, which falls like rain upon the thirsty soul, which abides within like a well of water springing up into everlasting life, and which, like rivers of living water, flows forth to satisfy the longings of a dying world.—The Saviour says: "If any man thirst, let him come unto me and drink; he that believeth on me, as the scripture hath said, out of him shall flow rivers of living water." Blessed are they who know, by glad experience, that "these are the true sayings of God," and who have proved that he that drinketh the water that Jesus gives, shall never thirst, for the water that he bestows shall be in him a well of water, "springing up into everlasting life."

BY THEIR FRUITS

We must bear some kind of fruit, and by our fruits we are to be known. Of what use is a barren tree, which is fruitless from year to year? "Cut it down, why cumbereth it the ground?" We may talk of repentance and prove its necessity, but if there is no fruit to prove it in ourselves, what does it avail? "Bring forth fruits meet for repentance" was the word of the great Forerunner.

How little deep sorrow for sins committed is manifest among men. How little weeping is seen over past wrongs. Much is said about faith; "believe on the Lord Jesus Christ and thou shalt be saved"; but does not faith bring forth fruits of righteousness? By the fruits we know the tree. The fruit of the spirit is love, joy, peace, long-suffering, gentleness, meekness. What blessed fruits are these! The same tree does not bring forth good and evil fruit. Where one grows the other is absent. We cannot serve God and mammon.

How many are trying to live to please this world and also to serve the Lord. The great effort seems to be to take the world with all its vanities into the church. Would it be strange if the Lord should say of such fruitless trees, Cut them down, why cumber they the ground? O members of the church of Christ, what is your fruit? "By their fruits ye shall know them."

"TAKE A DROP."

"Come in, Patrick, and take a drop of something," said one Irishman to another.

"No, Mike; I'm afraid of drops ever since Tim Flaherty died."

"He was one of the liveliest fellows in these parts. But he began the drop business in Barney Shannon's saloon."

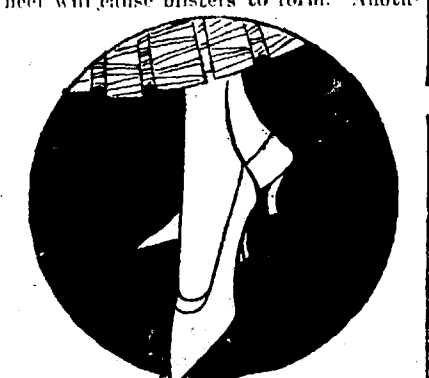

Give Feet Daily Attention and Avoid Many Feet Ills

FEET

A great many adults have weak feet. This is because in their childhood they contracted many bad foot habits or else were made to wear shoes that were too small or sometimes too large.

Then they did not notice it, for their bodies were light and their muscles strong, but as middle age approaches, the elasticity of tissue and muscle decrease and then foot ills develop.

If people would give as much daily attention to their feet as to their hands, many foot ailments could be avoided. Careful attention to the fit of one's shoes will prevent the forming of blisters. An ill-fitting shoe that rubs the heel will cause blisters to form. Another

spot where blisters are apt to form, unless one's shoes fit perfectly is on the sole of the foot under the little toe.

A shoe that is too narrow in front and crowds and pushes the front of the foot to one side will cause in-growing toenails. It had been it is best to consult a chiropodist, but afterwards if one

would prevent a recurrence of the trouble see to it that different shoes, ones that do not pinch the toes, are worn.

While exercise is the best possible means of obtaining health there are three very essential don'ts: Don't strain, don't overdo or don't exercise if one feels "all tickered out."

WHY TEETH DECAY

There are more than 30 varieties of germs usually found in the mouth. They are not there when a child is born but they begin to arrive soon afterwards.

In addition to the germs each person has in their mouth there are others such as pneumonia and diphtheria germs which are only to be found in some mouths.

The ordinary germs secrete alkaline substances which are not harmful to the teeth. But there are a few which produce acid and these cause decay.

Little particles of food lodge in a crack or some shielded place in the tooth. Into it germs find their way. They grow and secrete acid. The result is a cavity. The larger the number of germs, the more acid and the greater the cavity.

In short, decay in the teeth comes from acid working in one place. Acid comes from germs and germs thrive upon food refuse.

Cavities may be cleaned out and filled. But the wise and sane process is to keep the mouth and the teeth so clean that decay will not make its appearance.

In case of an emergency—if a child is choking slap it on the back between the shoulders. Raise the child's arms as high as possible above its head. If the object swallowed is small let it go through the body. Assist this by getting the child to eat bread and potatoes. Do not give castor oil or other laxatives.

Building His Own Prison

"Whoever a man soweth, that shall he also reap." (Gal. 6:7).

A wealthy contractor in his prosperous days did a business of a half million a year, but when caught in hard circumstances, forged a note for \$2,000, and was convicted and sentenced to imprisonment. The building of the Tombs in New York was his last large contract, and into it he stepped as a prisoner. "I never dreamed," he said, "when I built this prison, that I should be an inmate one day. But here I am. It is hard luck."

"Every man imprisoned in sin has built his own prison. The retribution which wrongdoing brings is not an arbitrary punishment inflicted by the revenge or caprice of an outside judge or fate, but it is just the necessary consequence of the wrong itself. Drunkenness shuts a man up in his own habits, as unyielding as stone walls and iron bars, and with his own fiery appetite, and no wiser prison could he have. Yet he built it himself." But there is one who can open even these self-made prison doors. Accept His offer of grace, and go forth free in Christ; free from all habits that destroy body and soul.

THE HARVEST OF TEARS

The beautiful hymn, "Abide With Me," was written in 1847, by Rev. Henry Francis Lyte, when he was in the final stage of disease. His life was one of disappointments. His ambitions were crossed, his affections were betrayed, his health failed. Though of gentle birth and high scholarship, he was placed in what he himself called "a dreary Irish curacy." But he was not permitted to linger even there; failing health compelled him to relinquish his charge in an attempt to prolong his life in the soothing climate of Italy. Before leaving for the south he gathered his strength for the administration of a last communion service, although, as he wrote, "scarcely able to crawl." Then he gave his farewell to the members of his flock and retired to his chamber. As the evening of the Sabbath day gathered its shadows, he came forth wearily, and laid in the hands of one of his relatives this hymn of eight stanzas. Thus was this prayer in hymn born in an hour of deepest darkness and bitterest disappointment.—Heidelberg Teacher.

WE AGREE WITH THE VICE PRESIDENT

Mr. Marshall says: "If we believe in peace and if our words are not mere lip service, the time has come in the history of the world when the mothers of men shall cease to put into the hands of their sons the drums and fires and little wars of warfare and shall cease pointing out to their children statues of men who have waded through slaughter to a throne. Rather shall they point out to them the statues of those whose lives have made for righteousness, amity and peace."

Just this week we saw a mother get off the train with two boys both of whom were dressed like Indians, and they had each of them a small size toy pistol. The spectacle to an intelligent person was more sad than funny. To think that those boys had to be raised by such a mother was indeed lamentable.

A Rule of Happiness.

Happiness begins in the heart and soul. Everything that earth has to offer could be brought to a raving lunatic and could not make him lunatic nor happy. It is the human mind from which the feeling of joy must flow. Circumstances come second, not first. So one can only happiness with the mind. What does it come from? When the mind perceives that a thing is good, really and truly good, and worth while, the first step toward happiness can be taken. The mind must therefore seek out what is good. Pleasure attracts most young minds, and there are plenty of right pleasures. But pleasure is the highest good of the universe. These young people who think clearly about life will soon find much higher happiness in it than mere pleasure.

All of the highest good of life is obtainable. That is its characteristic. Everybody cannot make money. But everybody can have the love of God, faith, hope, love, peace and power. So the will must come into play in reaching happiness. A resolution to gain a share in these high joys is the next step, and then persevering search for that share. It is always larger than the seeker thinks, and it is enduring. In this way one will learn happiness; take hold of it, and keep it in increasing measure, the true, lasting joy of the Lord.—Home and School.

"JUST ME"

A missionary of the American Sunday School Union tells in the Watchword a story of what a boy can do.

Organizing a Sunday school in one of the outlying districts of his field, a little way out of the city, he says:

"One stormy Sunday in winter I wended my way to the locality through the snow. When I came in sight of the schoolhouse, I could see the white smoke curling up from the chimney, and felt sure that a warm welcome awaited me. As I drew near, the bell rung; the hour for the session had arrived."

"Entering the schoolhouse I found only one lad, about fourteen years old. I greeted my young friend cordially, and asked, 'Was that the last bell for Sunday school?'"

"Yes, sir," was his polite response.

"How has the Sunday school been getting along? I inquired by way of keeping up the conversation."

"Oh," said he, "it was doing first-rate till the bad weather came; but since then it hasn't been doing so well."

"We chatted pleasantly for some time, enjoying the warm fire he had built. No one else appearing, I said to my young friend, 'Do you think there will be any one else here today?'"

"No," he said; "it's a pretty bad day, and they don't come out very well when it is that bad weather."

"How many were here last Sunday?" I asked, recalling the fact that the weather of the several previous Sundays had also been bad.

"Just me," was his laconic reply.

"Well, that's not very encouraging, is it?" I suggested.

"No," was the reply; "but I thought if I came and built the fire, and rang the bell, somebody else might come."

indicating a locality across the fields, over on another road.

"How many were here two weeks ago?" I asked.

"Just me," was his laconic reply.

"And this is the third Sunday in succession you have come here, built a fire, rung the bell, and waited for an hour for someone to come?"

"Yes, sir,"

"Well, how long are you going to keep this up?"

"Till they tell me to quit," was his reply, and he seemed to realize the importance of his position, and how great was the responsibility laid upon him.

"Well, you are the stuff they make successful Sunday school workers out of," I said, patting him approvingly on the shoulder.

"I don't want to see the Sunday school go down, and it isn't if I can help it," was his reply.

"You are all right, my boy," I said. "You just keep right on doing your duty, whether any one else does or not, and you will have your reward. Have you a Bible all your own?" I asked.

"No," he said, "but I mean to have one some day."

"All right, here is one that shall be yours," and I gave him a good Bible I had with me, and wrote his name in it.

"The next Sunday, 'Just Me' went as usual, built his fire, and rang the bell. Some of the people and the children came out and the Sunday school was saved."

"I have got my eyes on that boy, and some day I am of the opinion that there will be another chapter written in his life's history, and it will tell of other faithful fulfillment, because, 'He that is faithful in that which is least, is faithful also in much.'"

"When the book is opened, and the roll is called in heaven, 'Just Me' will have chosen to call him, 'Just Me' the boy who kept right on doing his duty, whether any one else did or not, and you will have your reward. Have you a Bible all your own?" I asked.

CHICAGO GRAIN AND PROVISIONS.

Chicago, Feb. 2.—Weakness developed in the wheat market today owing chiefly to lower quotations at Liverpool. It was explained that larger Australian and Argentine shipments to Europe were expected, and that a fleet capable of loading 5,000,000 bushels had been obtained for Australia. Offerings here, however, were small and the market accordingly rallied. Opening prices, which ranged from a shade to 1/4¢ down, with May at \$1.34 to \$1.34 1/4, and July at \$1.25 to \$1.25 1/4, were followed by an upturn to above yesterday's finish.
The close was steady, 1 1/4¢ to 1 1/2¢ to 2¢ net lower, with May at \$1.33 and July at \$1.24 1/4.
Favorable weather eased corn. After opening 1/4¢ to 1/2¢ off, the corn market underwent some additional decline before beginning to recover.
The market closed steady at 1/4¢ to 1/2¢ to 1 1/4¢ decline.
Oats swayed with other cereals.
It required only a few buying orders to lift provisions.

THE DAY ON WALL STREET.

New York, Feb. 2.—Moderate gains and a few declines were reported at the opening of today's trading, the market lacking the snap and vigor of yesterday's session. U. S. Steel made a trivial gain, which was immediately forfeited, and other active stocks were disposed to yield on light offerings. Industrial Alcohol continued its extraordinary gyrations, with an early gain of 5¢ at 163 1/2, and Texas company rose two points. Rails were once more a nominal feature, that part of the list showing more irregularity than industrials and specialties. Secondary offerings were mostly at lower prices.
Further rallies and declines marked the dealings of the forenoon which were far below yesterday's corresponding period. The movement was altogether professional and confusing from the fact that it was restricted largely to ill assorted issues like Cuban American Sugar, Wyllis-Overland, National Enameling and Rock Island. U. S. Steel continued under pressure, but improved later on the advance in allied shares, notably Republic Iron, Colorado Fuel and Sloss-Sheffield which gained one to over three points. The unchanged American Smelting dividend caused some disappointment, the list showing heaviness at noon. Bonds were steady.

WETS SEEK OPTION

ELECTION AT MUNCIE

Muncie, Ind., Feb. 2.—It became known today that wets have a number of petitions in circulation for an option election in Muncie. The petitions already bear the signatures of several hundred voters, although they have been in circulation only a day or so. Many persons who voted two years ago are displeased with the policy of the administration of Mayor Rollin A. Bunch regarding the operation of "blind tigers."

FLOOD DANGER NOW PASSED.

Wabash River Now Slowly Falling at Lafayette.
Lafayette, Ind., Feb. 2.—The Wabash river reached its flood crest shortly before last midnight, a stage of 23 feet, and is now slowly falling, all further flood danger being eliminated by the sudden cold weather. The water reached the highest mark since 1913 and as in that year, partly destroyed Brown street levee.

HOME IN MIDST OF FLOOD BURNS.

The wireless station at Colon at noon today sends out broadcast forecasts of the weather in the Caribbean, south Atlantic and gulf regions to aid shipping.

HIGH WATERS START TO SLOWLY RECED

After reaching a stage of 20.2 feet Tuesday afternoon the high waters started to gradually recede and at 7 o'clock Wednesday morning the government gauge in the Maumee river showed a stage of 20 feet, the same as on Tuesday morning at the same time. Later readings showed that the waters were slowly receding. There is no longer any cause for alarm unless there is another heavy rain, which is not at all probable. The Fort Wayne & Northern Indiana Traction Company expects to be able to resume through service by evening as the water all along its line is slowly receding.

RUFFIAN PREPARES TO CLEAN UP COURT

Charlie Harkenrider Puts Edge on Honeymoon by Going to Jail.

Charlie Harkenrider, Fort Wayne's premier roughneck, strode into the city court, Wednesday morning, slapped his hat down, took a hitch in his belt, buttoned his coat and swept the court, its attendants and the police with a truculent glare and belittled: "I'm ready."

Whether Charles meant he was ready for trial on a charge of disorderly conduct or in a due state of preparedness to meet any and all comers wasn't quite clear, but Chief of Police Charles Lenz took no chances and put the bully in a seat while Station Master Joe Degitz stepped closer and looked determined. Throughout the hearing Harkenrider was noisy and threatening and he put a climax on the proceedings after he had been given a fine and jail sentence by growing to Judge H. Wayland Kerr: "I'll make you remember this, even if you are the judge."

Harkenrider was released from the county jail early last week after having completed a sentence that he broke into installments by escaping several months ago. He was located in Michigan and brought back to serve the remainder of his term. Last Thursday he went with Eva Sweetzer to Lima, Ohio, where the two were married. They returned to Fort Wayne and took quarters at 617 Clinton street. Harkenrider got drunk Tuesday and late in the afternoon caused consternation in his newly established household by quarreling with his wife and her aged father, a man named Sanders, from Alliance, Ohio. During the trouble Harkenrider discharged a shot from a 38-caliber revolver. The bride fled affrighted from her rooms and called Policeman Gus Lauer, who was later reinforced by Station Master Degitz. Harkenrider was disarmed, taken to headquarters and locked up. He was in an uncommonly ugly mood Wednesday morning and the imminence of trouble in court was not imaginary. Prosecuting Attorney John C. Hoffman has prepared an affidavit charging Harkenrider with carrying concealed weapons and he will be rearrested as soon as he has served out \$20 and costs and thirty days that Judge Kerr put on him.

Clara Burritt is Held.

Clara Burritt, a woman of defective mind, who stabbed her brother, George

Burritt, at their home, 1109 Erie street, Monday night during a quarrel in which the family had participated, was arraigned on a charge of assault and battery. Her case was continued until Saturday and she was returned to jail in default of \$500 bond. She will be held until her mental condition has been legally adjudged and some arrangement made to take care of her.

Other City Court Cases.

Dick Schreck, who in former days was a police court regular but more recently has kept out of the hands of the law, was in on a drunk charge and was continued until Friday. He was found on the banks of the Maumee river near the east end of Wayne street, defying the flood.

George Stewart, held on a charge of assault and battery with intent to kill, was continued until February 9. His bond remains at \$600. Henry Williams, who says Stewart assaulted him with a shovel, has so far recovered from his fractured skull as to be able to leave the hospital.

Tim Moore, a drunk, was turned loose.

SHELTERED ALMOST 10,000.

Figures just compiled at police headquarters show that during the year 1915 there were 9,722 men sheltered in the "bum room" and practically all of them were taken care of during the eight colder months. During January this year 3,171 sought lodgings at the police station.

When a twelve-inch shell strikes the water it throws up a "splash" higher than a battleship's mast. This splash weighs about 2,000 tons, enough to drown a small ship.

WILL TRAIN FLIERS IN EIGHT CITIES

Aero Club Plans Schools, Funds for Which Are Being Raised.

New York, Feb. 2.—Preparations for establishing training schools for aviators in New York, Chicago, Boston, Newport News, Augusta, Me., Detroit, Los Angeles and Seattle are being made by the Aero Club of America. Funds already have been provided to assure the training of two hundred men, it was stated.

More than \$200,000 is reported to have been raised throughout the country to undertake the work. A group of men in Illinois has underwritten \$50,000 of this sum to provide training for one hundred aviators.

W. C. Robinson, of Grinnell, Ia., holder of the American endurance record, informed the club he would undertake the training of one officer from the militia of each state.

PRESS COMMENTS.

News Items About the Greatest Sale Ever Known

BIG SCOOP

CLOSED BY LIVE FORT WAYNE CLOTHIERS.

Circulating rumors within the last few days were confirmed today through the announcement of the Barker-Rose Clothing Co.—a scoop, one of unusual magnitude in the purchasing of men's and young men's suits from leading clothiers closed at figures that will place them in a position to effect their sale at prices less than what the actual materials could now be bought for.

In the last year, since war has played havoc in all lines—in particular it has demoralized the woolen market, advancing higher and higher, so that woollens cost today more than double of what it was quoted for a year ago. The news will create a stir among local business circles, but will undoubtedly be welcomed by the hundreds of thousands of people who thus have a rare opportunity offered them.

The Barker-Rose Clothing Co. is one of the leading retail clothing concerns of Fort Wayne, catering to the highest class of trade, having built up an enviable reputation and ranking today among the best known high-grade clothing retailers in this section of Indiana.

To accomplish this huge task in the given length of time the concern is bending all efforts and sparing no expense to thoroughly advertise this event, and as advertisements have been sent broadcast over a radius of 100 miles an enormous crowd is expected to attend. Vast preparations are being made to accommodate the expected masses, scores of clerks having been employed and are now making important changes in the establishment to properly meet the demand when this sensational clothing sale will commence.

Kuppenheimer and other celebrated makers of the finest clothing in the United States will be included, including also the entire high grade stock of furnishing goods.

The event will be known by title as "A Mighty Purchase," Commencing Wednesday, February 2, for 15 days, closing Saturday, February 19.

THOUSANDS OF PEOPLE TO COME TO FT. WAYNE

Men's and Young Men's Clothing, Suits and Overcoats and Furnishing Goods to Be Sold at Prices Less Than Cost by Barker-Rose Co.

Sale of Extraordinary Magnitude to Open February 2, for 15 Days, to February 19.

This section of Indiana will witness one of the largest business events that should bring men into Fort Wayne from everywhere—through the big group of purchases made by the Barker-Rose Co. of high grade clothing that will be offered at values extraordinary. Every one used to wearing good clothes will quickly admit clothing for such values are unusual. Great interest is being manifested in the disposal of this high grade clothing stock in the way of preparation for its sale to the clothing wearer. Publicity upon an extensive scale under direction of every known up to the minute organization work—to give intelligent news and information through many mediums to every clothes wearer that this opportunity is one unusual for saving money, to whomsoever that purchases one of these highly custom tailored suits or overcoats.

There should be thousands of men coming to Fort Wayne to this event as outside of Fort Wayne some 200 interurban, traction and nearby towns and cities will be thoroughly advertised through this publicity campaign throughout this section of Indiana.

All out of town trade will be paid railroad fare—where purchases will amount to \$20.00 or over—every purchaser is guaranteed—and money refunded if in any way dissatisfied or exchanges made on request.

All goods are to be sold—our price as advertised—emphatically calling attention to the publicity, that every claim is exactly as represented, tolerating no fiction or alluring exaggerated statements.

The "Title," "A Mighty Purchase," adopted by the Barker-Rose Co., is boldly brought out in a clever idea that deserves much credit to the event.

GUARANTEE

Every purchaser is guaranteed satisfaction or money cheerfully refunded. Every price—every statement—and every article is guaranteed as represented in quality and value in this advertisement—not tolerating under any conditions exaggeration or misrepresentation, alluring, fictitious, misleading price values.

BOAT BLOWS UP; 14 DEAD

NEW DISASTER IN OHIO RIVER

Towboat Sinks Soon After
Boilers Explode Near
Huntington, W. Va.

MANY HURLED INTO STREAM BY BLAST

Fourteen Believed Dead
and Many Others Hurt
in Accident.

Huntington, W. Va., Feb. 2.—The Sam Brown, a Pittsburg towboat, sank within a few minutes after her boilers exploded in the Ohio river opposite this city at 11:05 o'clock today. It is believed that few of the crew were saved. A few survivors from the Sam Brown but not more than six in all, reached the Ohio side of the river following the explosion. Debris from the boat landed on both banks of the river. The boat was blown to pieces and sank immediately. A great majority of the members of the crew, approximately thirty, are believed to have perished.

Fourteen Thought Dead.

Ben J. Williams, mate of the towboat, a survivor, says there were thirty-four persons on board the boat. Of these twenty were later accounted for. Fourteen are missing and it is believed that they are dead.

Captain Lew C. Blair, of Pittsburg, in command of the boat, is missing and is believed dead. Four men injured in the explosion are in a hospital here. The Sam Brown had come from the Kanawha river with a tow of barges. It is believed that nearly every person who was in the neighborhood of the boilers was instantly killed.

Hurled Into Water.

Other members of the crew were hurled into the water, some of them painfully injured but owing to the proximity of the shore most of them were able to reach the bank.

The cause of the explosion is not known. Included in the list of known dead are C. H. Robinson, Wm. Cousins and Wesley Fess, firemen, who were on duty at the time of the explosion. All resided in Middleport, O.

HOG SEES SHADOW, THEN GOES BACK

The groundhog saw its shadow in Fort Wayne Wednesday with the result, according to old-timers who declare it never fails, that there will be six more weeks of cold weather. The groundhog did not tarry long as it no sooner saw its shadow than it hurried back into its hole, where it will remain until spring.

On Thursday there will be an eclipse of the sun and what effect groundhog day will have on it is a subject on which men differ. The eclipse of the sun will begin at 9:16 a. m. and last until 11:04 a. m. It will be seen over Indiana as a partial eclipse, though in some parts of the world it will be total.

ARCHITECT WING IN ELEVATOR ACCIDENT

Architect J. F. Wing, residing at 215 West Creighton avenue, had a narrow escape from possible death Tuesday afternoon when he attempted to get off of the south elevator at the seventh floor of the Shoff building.

The elevator did not stop even with the floor and when Mr. Wing started to get off the operator started the car too quickly, with the result that his left foot was caught between the floor and the car. The ends of his toes were painfully mashed, but no bones were broken. He was otherwise injured, but not seriously.

SUITS ARE DISMISSED.

Boston, Feb. 2.—The four suits brought by the Guaranty Trust company, the National City bank and Charles W. Rantoul, jr., of New York, and Maurice Hansens, of Brussels, against the North German Lloyd Steamship company to recover more than two million dollars in damages because the steamer Kron Prinzess Cecilie failed to complete her voyage to France and England, just before the outbreak of the war, were dismissed today.

FIRE IN RAILWAY STATION.

Indianapolis, Feb. 2.—Fire in the Union railway station here today caused damage estimated at \$10,000. The loss was principally on records and office fixtures. The cause of the fire which started in a store room on the third floor and spread to the roof, is not known. Train service was not seriously hampered.

18 INCHES OF SNOW AND MORE FALLING

Rail Traffic at Seattle is
Tied Up and Business
Crippled.

Seattle, Wash., Feb. 2.—Eighteen inches of snow stopped railroad traffic here today disorganized the public schools and crippled business and manufacturing. It is still snowing. The Northern Pacific is working with snow plows, but Great Northern and Chicago, Milwaukee and St. Paul trains are laid up in division point yards, or snow bound in the mountains. The Milwaukee division yards near Cle Elum, are under six feet of snow. Advice from Juneau, Alaska, say eleven men perished in the recent storm. The fishing schooner Edison, of Tacoma, was wrecked on Cape Decision and her crew of six perished. Two men were lost from the fishing schooner Eunice. The gas boat W. N., was wrecked at Cape Bendel and two men lost. Herbert Allen was frozen to death near the Olympia mine.

LAKE TOWNSHIP IS TO RETAIN SALOONS

In the option election held Tuesday in Lake township, this county, a majority of 21 was polled by the "wets" and the township will retain its saloons. There were 269 ballots cast—143 for and 122 against the saloons. Four ballots were thrown out by the election board because they were spoiled. Interest displayed in the election exceeded expectations. Lake township has but 249 registered voters, but the option fight brought to the polls twenty votes in excess of the registration. There are approximately 300 voters in the township and 90 per cent. of them went to the polls. The voting took place at the Lake Center school house and the Australian ballot was used in order that the trouble of hauling a heavy voting machine from the city might be avoided. It was 9 o'clock Tuesday night before the count had been completed and the result made known. The only saloons in Lake township are situated in the village of Arcola and they will continue in business.

INCORRIGIBLE BOY ATTACKS TEACHER

Juvenile probation officers are investigating an attack that was made Tuesday by an incorrigible boy on Miss Margaret Essig, teacher at No. 8 school in Wayne township. Miss Essig had much trouble with two boys in her room, but not until Tuesday was an attempt made to do her bodily injury. She undertook to punish one of them for some offense he had committed when the boy grabbed her by the throat, attempted to choke her and otherwise injure her. The incident was reported to Trustee Henry P. Scherer, who has turned the case over to the juvenile officers. It is expected that stringent action will be taken.

ONE FT. WAYNE BANK OBSERVES THRIFT DAY

The Old National bank Wednesday observed thrift day in celebration of the one hundredth anniversary of the savings bank idea in this country. The American Bankers' association has made arrangements to carry on this year a country wide educational campaign on thrift, and heads of Fort Wayne banks have been asked to set aside a day to be known as thrift day.

According to statistics that have been compiled by the First National bank there are only 108 savers in America per thousand population, as compared with 544 in Switzerland, 336 in Sweden, 346 in France, 302 in England and 225 in Italy.

COAL DEALER FILES BANKRUPT PETITION

Cyrus S. Swank, proprietor of the Independent Coal company, 1017 Wells street, filed Wednesday his voluntary petition in bankruptcy in the federal court scheduling liabilities at \$4,045.19 and assets at \$1,005. He claims \$600 exemption. The unsecured claims principally for coal purchased amount to \$3,045.19. The petition was filed for Swank by Attorney Levi A. Todd.

RESIGNS AS STORE MANAGER.

J. G. Lewis has resigned his position as manager of the Independent 5 and 10 cent store to accept a position with the Home Stores company of Milwaukee as inspector of its stores in northern Michigan. Mr. Lewis will be located at Escanaba, Mich., and will leave Thursday for his new position.

WILSON IN A ZERO PARADE

President and His Wife
Ride Long in an Open
Auto at Topeka.

AT TURNING POINT IN PRESENT TOUR

Kansas Capital, Undaunted
by Cold, Gives Wilson
Warm Welcome.

MAY BE NECESSARY TO USE FORCE, SAYS WILSON.

Topeka, Kan., Feb. 2.—"For one thing, it may be necessary," the president said with an emphatic gesture in his address here this afternoon, "to use the forces of the United States to vindicate the rights of American citizens everywhere to enjoy the rights of international law."

"America is not going to abide the habitual or continued neglect of those rights."

Topeka, Kas., Feb. 2.—President Wilson reached Topeka, the turning point of his middle western tour this forenoon. He was greeted with a salute of 21 guns and escorted by state troops through the principal streets to the residence of Gov. Capper, whose guest he was till 1 o'clock when he addressed an audience in the auditorium.

President and Mrs. Wilson rode over snow-packed streets in zero weather in an open automobile. A crowd cheered them at the station but most of the city's 50,000 population lined the sidewalks along the way to the governor's residence. Although the weather was cold the day was clear. The president tucked the collar of his great coat up behind his ears and Mrs. Wilson's face could hardly be seen for her furs.

Street Parade in Zero Chill.

The president was met at the station by Gov. Capper, republican; Mayor J. E. House, of Topeka, and W. W. Webb, president of the Commercial club. Kansas national guardsmen held the crowd back.

For the first time on his present tour the president participated in a long street parade lasting 45 minutes. Preceding his automobile were several companies of national guardsmen and following was a brass band playing popular and patriotic airs. American flags had been distributed in advance to the crowds along the way. Schools held no sessions, the state house employees were given a day off and city employees had a half holiday.

At Gov. Capper's home he stood on the porch for a moment and waved his hat. With Mrs. Wilson, Secretary Tamm and Dr. Grayson, he then went in to luncheon.

What Capper Said.

Gov. Capper, introducing the president to the six thousand persons gathered in the municipal auditorium, praised him for keeping the United States out of war but added, "many of us are not in accord with the program

COMMITTEE CUTS COLOMBIAN CLAIM

Reduces Proposed Payment
and Tones Down the
Apology.

Washington, Feb. 2.—Reducing the proposed payment to Colombia from \$25,000,000 to \$15,000,000 and altering the proposed apology of the United States for the partition of Panama to make it a mutual expression of regret on the part of the United States and Colombia, the senate foreign relations committee today ordered a favorable report on the long pending Colombian treaty.

The vote on the treaty was eight for to seven against. Senator Clarke, of Arkansas, was the only democrat voting against it. By a vote of ten to three the committee also favorably reported the treaty to pay Nicaragua \$3,000,000 for a canal route and naval bases in the Bay of Fonseca.

The senate today rejected 9 to 16 an amendment by Senator Cummins to the Philippine bill which would give the people of the island their independence only after they had voted in favor of being free from United States control.

TWO MORE CLUBS FOR CIVIC FORUM

Two more organizations Wednesday endorsed the civic forum or federation of all civic clubs in the city and at a meeting of the presidents of the various clubs Thursday a permanent organization will be effected. Favorable action was taken at the regular weekly meeting and luncheon of the Fort Wayne Rotary club and at a meeting of the directors of the Commercial club, Wednesday afternoon.

At the meeting of the Rotary club the members voted to attend in a body the district meeting to be held in South Bend on Washington's birthday, February 22. The club will charter a special car. Maurice Niezer sang a solo and Leipzig, who is appearing at the New Palace theater, performed a number of card tricks.

BULLETIN.

Washington, Feb. 2.—Vice President Marshall cast a deciding vote in the senate today on the Philippine bill, helping to pass the Clark amendment to withdraw the sovereignty of the United States from the islands not sooner than two years and not later than four. Fifteen democrats voted against it.

AGENT MAKES TEST.

Country Club Has Closed Deal for Purchase of Thirty More Acres.

For the purpose of testing the soil and making a general survey of the grounds, Clarence Henry, county agricultural agent, spent Wednesday at the Country club. Several different samples of soil were taken by the county agent and the results of his tests will be made known in a few days. The Country club contemplates the beautifying of its grounds and the sowing of much grass. The club has closed the deal for the purchase of thirty more acres.

NEAR 3,000,000 RED CROSS SEALS SOLD

Indiana Smashed Record in
Recent Effort—Allen
County's Pennant.

Indianapolis, Feb. 2.—The Indiana Society for the Prevention of Tuberculosis has issued a report showing that 1915 Red Cross seal sales in the state exceeded all previous records. It is shown that through all agencies 2,966,594 seals were disposed of during the holidays, netting more than \$26,000 for anti-tuberculosis work in this state during this year.

Of this amount more than \$22,000 remains with local anti-tuberculosis societies for intensive local work; \$2,861.26 representing 10 per cent. on the first 2,000,000 seals sold and 9 1/2 per cent. on the remainder, will go to the American Red Cross, and after the expenses of the Red Cross seal campaign are paid approximately \$2,500 will remain in the treasury of the state anti-tuberculosis society for educational, publicity and propaganda work.

Allen county won the pennant with a per capita sale of 3.5 in class A. Vigo was given honorable mention.

8 OR 10 HURT IN WRECK ON PENNSY

Five Cars of Pittsburg-New
York Express Derailed
at Seward, Pa.

Pittsburg, Pa., Feb. 2.—Five cars of the Pittsburg and New York day express on the Pennsylvania railroad were derailed as the train passed Seward, Pa. 67 miles east of Pittsburg, this morning at 11:30 o'clock.

Eight or ten passengers were slightly injured and with the remainder of the passengers were placed on the front part of the train and taken to Altoona.

The derailed cars were two sleepers, a dining car and two chair cars, the last cars on the train. The sleepers turned over but the others remained upright.

PROGRESSIVES MEET BEHIND CLOSED DOORS

For the purpose of selecting delegates to the state convention and to discuss the advisability of nominating a county ticket a meeting of the progressive organization in Allen county was held Wednesday afternoon in the office of H. F. J. Reiter on Court street. The meeting was held behind closed doors and newspaper reporters and all others not identified with the organization were barred.

"We are hopeful of nominating a county ticket," declared Mr. Reiter Wednesday afternoon. "This meeting was called for the purpose of ascertaining just what could be done."

PREPARE TO STRIKE SOON

Army of 150,000 Turks to
Support Germans in At-
tack on Saloniki.

FORWARD MOVEMENT ABOUT FEBRUARY 15

Greece and Rumania Re-
ported to Have Signed
Neutrality Pact.

Today's War News Given in Summary

"Reasonable hope for a positive understanding" between the United States and Germany on the Lusitania issue is felt in Berlin, according to a semi-official announcement there today. Instructions sent to Ambassador von Bernstorff give rise to this hope, it is stated.

Military operations along the various war fronts appear pretty much at a standstill for the moment. Aerial movements have constituted the chief activities of late, except for German advances at important sectors of the line in France. Satisfaction is expressed in German newspapers over the latest Zeppelin attack on England, the military importance of the localities which the Zeppelins are declared to have visited being emphasized.

Indications of possible notable developments in the Balkans are contained in today's dispatches. One from Athens declares that the Germans and Bulgarians, together with a force of 150,000 Turks, are likely to begin an attack on Saloniki about the middle of this month.

A London message quotes Bucharest newspapers as hearing that Greece and Roumania have signed a dual neutrality treaty.

In Mesopotamia the British are still prevented from attempting to advance because of bad weather and floods.

NEUTRALITY PACT REPORTED.

Athens, Feb. 2.—Information received in military quarters here indicates that German and Bulgarian troops supported by 150,000 Turks will be ready to begin an attack on the Franco-British forces at Saloniki about Feb. 15.

Two Greek soldiers, five refugees and seven workmen were killed and fifty civilians were injured by the Indian-made bombs dropped early this morning from the Zeppelin in the raid at Saloniki, already reported. No damage was done to military buildings and the population has remained calm.

London, Feb. 2.—The Adevenerl, a newspaper of Bucharest, declares that Greece and Roumania have signed a dual neutrality convention, according to a dispatch received here by wireless telegraph from Rome.

A Reuter's dispatch from Delhi transmits an official statement issued there

GERMANS MAY SINK APPAM

Rather Than See Liner Fall
Back Into Hands of
the British.

U. S. CONSIDERS LINER'S STATUS

Old Treaty More Likely to
Govern Than The Hague
Agreement.

Washington, Feb. 2.—State department officials indicated today that if the British liner Appam, which appeared unexpectedly in Hampton Roads yesterday under a German prize crew is finally held to be a prize, the Prussian-American treaty of 1828 is more likely to govern the case than is The Hague convention.

This would mean that the Appam would be turned over to her German captors and in that case some German officials expressed the view that the prize crew rather than let her fall back into the hands of the British, as would seem inevitable if she fell port, might take the ship to the three mile limit and sink her.

In case she is held to have become a German fleet auxiliary, she will have the choice of leaving port after a certain time for supplies or repairs, or, in the event of the war, as have the Prince Eitel Friedrich and the Kronprinz Wilhelm.

The Original Treaty.

The original Prussian-American treaty of 1790 provided:

"The vessels of war, public and private, of both parties, shall carry freely wheresoever they please; the vessels and

WINONA DIVIDEND TOTALS \$97,727.29

The final and only dividend, amounting to \$97,727.29, in the bankruptcy case of the Winona Assembly and Summer School association, was paid Wednesday to creditors holding securities, the general creditors receiving nothing. The amount of the dividend each creditor will receive depends entirely upon the class of securities, of which there are five.

The total amount of claims against the association was in excess of \$800,000. The property of the association was sold some weeks ago at trustee's sale to B. O. Excehl, acting as trustee for a new company organized for the purpose of continuing the work at Winona. The payment of the dividend Wednesday brings to a close the bankruptcy proceedings.

LAST MINUTE NEWS

CAPTURED BOAT LINED WITH BOMBS, IS REPORT

Old Point Comfort, Va., Feb. 2.—How the captured British steamer Appam was lined with bombs which could be touched off by the German prize crew at the sign of an uprising among her 400 captives, was told by persons on the ship to Quarantine Inspector McCaffrey, and he related the story today. He said: "According to stories told me by passengers many bombs are planted about the ship and all of them can be exploded by the touching of a secret button. The bombs were placed by the Germans immediately after they took possession of the boat. The Appam's commander, Captain Harrison, and the other English officers were warned that any attempt to overpower the prize crew would result in the ship being blown up without further notice."

TEIPER ADMITS THAT REVOLVER IS HIS OWN

Buffalo, N. Y., Feb. 2.—John Edward Teiper, detained in connection with the Orchard Park tragedy, admits the ownership of the revolver found 75 feet from the automobile in the Orchard Park road, according to an announcement by District Attorney Dudley, at noon today. He said he bought the weapon ten days ago and at first denied ownership. The admission came after the ownership had been traced.

NEWEST AIR RAID WAS AIMED AT WAR PLANTS

Berlin, Feb. 2.—Rumors have circulated here that the Zeppelin raid on England on Monday night was in reprisal for the Barlong affair, but the Associated Press correspondent is assured in authoritative quarters that the attack did not come under that head. It is stated that the Midlands section of England was selected for the raid because it is the center of the munitions industry and because Liverpool is the center of England's commerce and that there was a purpose to bring home to the people of Great Britain the fact that the defenses of London did not avail against Germany's air craft and it was intended also to interfere with the preparations being made in England for the carrying on of the British operations in France and Flanders.

The Lokal Anzeiger publishes a long editorial on the Zeppelin raid over England, saying that every one will be convinced that the attack was fully justified on considering the places visited and their military significance. It asserts that Liverpool, which the German admiralty announced yesterday, was bombed, is to be considered primarily as a port of entry for American ammunition, whose destruction is our sacred duty.

The Lokal Anzeiger also says that grain ships from Canada dock at Liverpool, referring in this connection to the attempt to "starve out the Germans." Manchester, it says, is the place where England stores its great quantities of cotton. It continues:

"Nottingham, as the chief manufacturing city of England for lace curtains and underwear, could perhaps have induced us to be milder if it had not taken up the manufacture of ammunition."

Nottingham has learned it is dangerous for cities to play with war equipment and materials during a war.

Even before the war, this newspaper continues, "Sheffield manufactured knives, armor plate, guns and projectiles and therefore Sheffield receives a Zeppelin visit the better."

GRISWOLD ADDRESSES REAL ESTATE MEN KANSAS CITY GETS NO GLIMPSE OF HIM

Speaker Tells of the Early History of Fort Wayne. President Still Asleep as He Passes Through That City Today.

B. J. Griswold was the principal speaker Tuesday evening at the regular weekly meeting and luncheon of the Fort Wayne Real Estate exchange at the Commercial club, his address being in the form of court procedure and several early settlers who have long since passed away were put on the witness stand to testify. Among them were General Anthony Wayne, George Washington, General Tipton, Captain James Riley, John T. Barr, Benjamin Franklin, Sticksney, Little Turtle and many other historical characters.

Mr. Griswold dealt with the early history of Fort Wayne, the old of Henry Rudsill to encourage German immigrants to locate here. Rudsill was sent here in the interests of Byron McKelrick, who, with John T. Barr, made the first plat of the city. He was so industrious in his desire to increase the population of Fort Wayne that he went east and arranged that all Germans, who landed in this country and said they had not decided where they would locate, were to be sent to this city.

The speaker closed with an appeal to the real estate men not to forget "Him-Who-Went-Before" and who made Fort Wayne possible.

At the business session several possible sites for the new factory that local business men are attempting to bring here were suggested and will be turned over to the Commercial club committee, which has the matter in charge. Officials of the factory will probably visit Fort Wayne the latter part of the week. William H. Scheiman presided at the meeting.

EYES ON CROWD; BACK TO WILSON

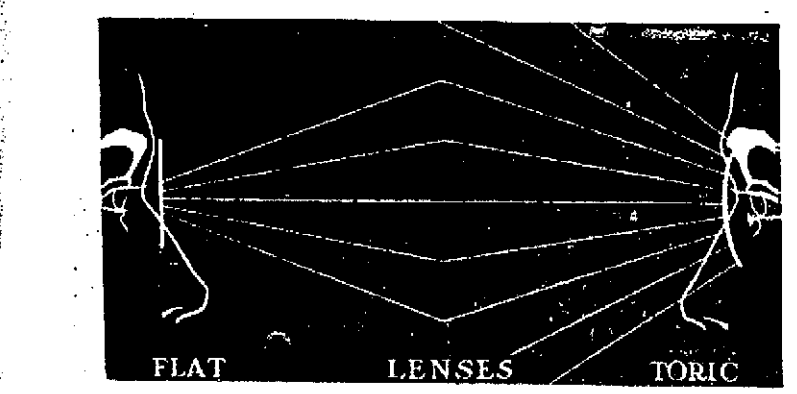

St. Louis Policemen Mav Not Get a Glimpse of President.

St. Louis, Feb. 2.—Although the police board has detailed 600 uniformed patrolmen for duty during President Wilson's stay in St. Louis tomorrow, not one of the policemen will get a glimpse of the president if he obeys orders. Each policeman will be instructed to keep his back turned to the president and his eyes on the crowd only.

CLINE OFFERS BILL FOR UNIFORM PENSION

Washington, D. C., Feb. 2.—Congressman Cyrus Cline, of the Twelfth Indiana district, has introduced in the house of representatives a bill providing for the payment of pensions of twelve dollars per month to the widows of the Spanish-American war veterans. Under Congressman Cline's bill a pension is to be provided regardless of the cause of the soldier's death.

MAN HURT ON WAY TO WORK GETS AN AWARD

He Rode in Auto at Invitation of Employers and Was Injured.

Indianapolis, Feb. 2.—The state industrial board in an important opinion yesterday held that Walter Yeargin, a plasterer, was entitled to receive compensation from his employers for a period of fifty weeks, at the rate of \$13.20 a week and also the sum of \$43 for medical expenses.

The employers were J. Henry E. Bode and Fred Bode, contractors, of Richmond, which also was the home of the plaintiff.

The defendants opposed an award of compensation to Yeargin on the ground that his injury was not occasioned by an accident arising out of and in the course of his employment as provided by the compensation act. In their contention the defendant contractors relied on the general rule that an employee, when on his way to work, is not in the course of his employment. The board held that while this may be conceded to be a general rule, it is not a universal rule. Co-existent with it is another general rule, that where workmen are employed at work at a certain place and are transported to and from such place by the employer, as a part of their contract of employment, the period of service continues during the time of transportation, the board said.

Injuries Serious.

The accident, which resulted in the fracture of one of Yeargin's ribs and permanent injury to one of his eyes, occurred Oct. 20 last. Yeargin had been employed by the defendants on a building at Richmond when he was notified that he would be taken to Portland to work on a job partially completed. The defendants told Yeargin that they would take him to Portland in their automobile. The automobile, in which Yeargin was riding at the solicitation and request of his employers, was overturned and he was seriously hurt. The injury to his eye has seriously impaired the vision.

"In this case, it appears from the evidence, without any dispute, that the plaintiff was not riding in the automobile at his own solicitation or for his own convenience or purpose," reads the board's opinion, "but that he was riding at the solicitation of the defendants, under their direction and for the purpose of the furtherance of their interests. Under this state of facts the board holds that the plaintiff's injuries were caused entirely by an accident arising out of and in the course of his employment."

At the top are the four men indicted for the Washington Park bank robbery. Left to right, they are: Harry Kramer, Chas. Kramer, Harry Fein, Alex Brodie. Below are Eddie Mack, leader of the bandits, who confessed and won immunity; and his wife and daughter.

"REASONABLE HOPE" IN LUSITANIA CASE

Berlin, Feb. 2.—Instructions have been sent by the German government to Ambassador von Bernstorff, at Washington, of such a nature as to give "reasonable hope" for a positive understanding concerning the Lusitania affair, it was announced here today.

The announcement, which is of a semi-official nature, is said by the Overseas News agency to have been made in connection with the alarming reports about the nature of German-American relations. The text of the statement reflected by the news agency is as follows:

"It is true that on Saturday, Jan. 29, a telegraphic report from the German ambassador at Washington arrived at Berlin showing that up to that time it had been impossible to adjust the Lusitania in a way satisfactory to both nations by friendly verbal exchange of views. On Tuesday instructions were transmitted to the German ambassador, which give reasonable hope for a positive understanding."

The Wolff bureau announced that instructions were cabled on Feb. 1 to Count von Bernstorff on the Lusitania situation, "which give reason to hope for a final understanding."

WATSON MEETING IS WELL ATTENDED

An enthusiastic meeting was held Tuesday evening in the Watson headquarters on the second floor of the Arcade building in the interest of James E. Watson, candidate for the republican senatorial nomination. About seventy-five were in attendance. Judge O. N. Heaton acted as chairman and T. J. Logan and a number of others gave short talks.

At the same hour Edward Schmidt, former United States marshal for the district of Indiana, held a conference at the Anthony hotel with a number of local supporters of Harry S. New.

MUCH MINERAL LAND OPEN FOR LOCATION

Douglas, Ariz., Feb. 2.—Thousands of acres of mineral-bearing land in Mexico are open today for location, because of the edict of the Carranza de facto government of Mexico which named midnight of January 31, as the extreme hour at which delinquent mining taxes might be paid.

Many of the American land holders who were taxed eight pesos gold per pertenencia (two and one-fifth acres) allowed portions of their holdings to revert to the government as they felt according to reports which reached here today. That the graduated scale of taxation announced some time ago by Gen. Carranza would be almost confiscatory as compared with the worth of certain portions of their claims.

Much of the land which has reverted to the government had been held for many years and taxes amounting to many thousands of dollars had been paid on it to the then government of Mexico.

BOTH STEAMERS YET AFLOAT AT 4. A. M.

Wireless Brings News After Collision 200 Miles Off Cape Race.

Halifax, Feb. 2.—The Japanese steamer Takata Maru and the steamer Silver Shell which were reported to have been in collision 200 miles southeast of Cape Race, last night, were afloat at 4 o'clock this morning at which hour a wireless message was received at Cape Race from the Takata.

The Takata Maru sailed from Tokyo for New York on January 22 in ballast. She was owned by the Nippon Shipping company which operates fleets on both the Pacific and Atlantic coasts. According to local agents of the line the Takata Maru was the last word in steamship construction. She was a boat of 6,719 tons gross, built a year ago and was on her second trip to New York.

The cannella was carried from Japan to France by a missionary named Kamel.

MOTHER TALKS OF AID GIVEN SON AND SELF

**Mrs. Mary Welch Says Work
of Tanlac In Her Case
Is Wonderful.**

Mrs. Mary Welch, wife of a well known employe of the Budd Manufacturing Co., who lives at 509 Fairmount place, and Albert Welch, 24 years old, her son, both have found relief from troubles through the use of Tanlac, the Master Medicine, that is gaining countless dozens of Fort Wayne friends. Mrs. Welch said:

"I have suffered from catarrh of the stomach for a long time. My digestion was poor and I felt distressed after meals. I always had a bad taste in my mouth and my tongue seemed to burn. I also suffered frequently from formations of gas on my stomach. My appetite was very poor. Albert Welch, my son, has had a bad form of catarrh of the head since a small boy. His head was stepped up continually and he had no sense of smell."

"We knew people who had gained benefits through use of Tanlac and we decided to try the medicine. I have been taking Tanlac only a short time, but already I believe my catarrh of the stomach is a thing of the past. I feel fine after my meals now. My appetite is good and the burning sensation of my tongue and the formations of gas on my stomach are gone. My son says his head is becoming clearer each day and his sense of smell is being restored. Tanlac has done us wonderful good and I am glad to recommend it to everyone suffering from the troubles we were bothered by."

Tanlac is especially beneficial for stomach, liver and kidney trouble, catarrhal complaints, rheumatism, nervousness, loss of appetite and the like and is a fine blood purifier and system builder.

Tanlac is now being introduced in Fort Wayne at the Wayne and Calhoun streets store of the Meyer Drug Co., where the Tanlac Man is explaining the new remedy. It also may be obtained at the other Meyer stores, 1429 Calhoun Calhoun and Columbia and Broadway and Taylor.—Advertisement.

ALLEGES OFFICE IS SHORT.

Inspector Examines Books of Crothersville Postmaster.

Seymour, Ind., Feb. 2.—An alleged shortage of about \$1,100 in the accounts of John M. Nelson, postmaster of Crothersville, was discovered by Postoffice Inspector Bittlemeyer, who checked up the books in the office and filed a report with the division office. Friends of Nelson say the shortage is entirely clerical and are trying to make up the amount. He is a democrat and succeeded William Goecker, a republican.

The first report, it is said, showed that the deficit was about \$1,940, but on examination it was found that Nelson should have had a credit of approximately \$740 for settlement of stamps which were stolen from the office during the administration of A. Ritz. The account was carried for some time in the hope that congress would reimburse Ritz, but this was never done. Nelson was formerly a druggist at Crothersville.

STOP DANDRUFF! HAIR GETS THICK, WAVY, BEAUTIFUL

Girls! Draw a cloth through your hair and double its beauty.

Spend 25 cents! Dandruff vanishes and hair stops coming out.

To be possessed of a head of heavy, beautiful hair; soft, lustrous, fluffy, wavy and free from dandruff is merely a matter of using a little Danderine.

It is easy and inexpensive to have nice, soft hair and lots of it. Just get a 25-cent bottle of Knowlton's Danderine now—all drug stores recommend it—apply a little as directed and within ten minutes there will be an appearance of abundance, freshness, fluffiness and an incomparable gloss and lustre, and try as you will you can not find a trace of dandruff or falling hair; but your real surprise will be after about two weeks' use, when you will see new hair-line and downy at first—yes, but really new hair—sprouting out all over your scalp—Danderine is, we believe, the only sure hair grower, destroyer of dandruff and cure for itchy scalp and it never fails to stop falling hair at once.

If you want to prove how pretty and soft your hair really is, moisten a cloth with a little Danderine and carefully draw it through your hair—taking one small strand at a time. Your hair will be soft, glossy and beautiful in just a few moments—a delightful surprise awaits everyone who tries this.—Advertisement.

NEWS OF FORT WAYNE'S NEIGHBORS

REDKEY MERCHANT MISSING.

Portland, Ind., Feb. 2.—Roy Brown, manager of the Brown grocery at Redkey, has been mysteriously missing from that place since Saturday night and circumstances surrounding his disappearance has prompted friends and relatives to believe that he has met with foul play. Brown, who was about twenty years old, is a son of C. W. Brown, of Ridgeville. He has been conducting the grocery and being a single man, boarded at the Bryum hotel in Redkey, situated near his store. On last Saturday night, as was his custom, after closing his store he went to his room in the hotel. He discarded a sweater coat for a business coat and went from the hotel to the Schaefer & Lee restaurant. There it is said he purchased a package of cigarettes and left at about 11:30 o'clock. Since then no trace of him has been found.

MUCH DRILLING IN VAN WERT CO.

Van Wert, Ohio, Feb. 2.—Van Wert county is showing greater activity in drilling than any other county in the northwestern Ohio fields. In Liberty township the Keystone Oil and Gas company drilled a second well on the Tickle farm, but it only made two barrels. The same company is starting a test on the Koogle farm, and Kuhn & Lane are starting a well in this same territory. In York township Lynch & Sellers are starting a well on the Goodrich farm, while Jameson and others are drilling a test on a second Goodwin farm adjoining W. L. Parmenter and other Lima operators are starting a well on the Thomas farm, and Ralph Bros. are making a test on the Prill farm, Ridge township, same county.

DIES AT SOLDIERS' HOME.

Bluffton, Ind., Feb. 2.—John Heckman, aged 70, an inmate of the Soldiers' Home at Lafayette, died, after having been an invalid for sixteen years with rheumatism and complications. Mr. Heckman formerly resided on a farm near Liberty Center and later worked at the blacksmith trade in Liberty township. He has several sons and daughters living, including Charles and William Heckman, who reside in the south part of Bluffton. Mrs. Heckman was with her husband during his long sickness. Both were living at Lafayette at the time of his death. Mr. and Mrs. Heckman spent last summer near Montpelier with one of their children, returning to Lafayette in September.

STOLEN HORSE RECOVERED

Montpelier, Ind., Feb. 2.—The horse and buggy belonging to David Mitchell, residing north of here, which was stolen from a local hitch rack, over a week ago, was located at Winchester, and Mr. Mitchell went to gain possession of the outfit. Marshal Morris, in a discussion with a traveling man, learned that an outfit had been sold at Winchester, and telephoning "Buck" Fletcher, a detective of that place, soon verified his suspicions. Fletcher arrested two men giving their names as Jesse and Albert Mendenhall, who claim this city as their home. The outfit had been sold by the fellows to another party, whose name could not be learned.

BIG MEETING OF MASONS

Van Wert, Ohio, Feb. 2.—The Masters and Wardens of the Elbe Lodge bodies of Paulding, Defiance, Van Wert and Mercer counties, together with the Master Wardens and Past Masters of this lodge, of the Masonic order, will meet in this city Friday to confer regarding matters of the order. At 6 o'clock in the evening a banquet will be served for the visiting Masons and members of the local lodge in the banquet hall of the Masonic rooms. This will be followed by the conferring of the Fellowship degree on a class of candidates.

NARROW ESCAPE IN FLOOD.

Montpelier, Ind., Feb. 2.—Roland Sider, sixteen-year-old son of Mr. and Mrs. John R. Sider, of this city, came near losing his life last evening, when he fell from the bridge over the Salomon river, just north of the city limits. Sider was rescued a short distance down stream, after he had been in the water for some time.

FATE OF THE EARLY GROUNDHOG

Kendallville, Ind., Feb. 2.—Roy Pray, rural carrier on route No. 4, is confident that one groundhog will not see his shadow today. Such was the conclusion when he captured one of the woolly animals in the road yesterday. Mr. Groundhog had come out a day early, and evidently forgot that he was early. Mr. Pray captured the animal alive and brought him to this city. He decided to place the animal in the weather in a cage, keeping him from seeing his shadow.

VETERAN DIES AT MONROE.

Bluffton, Ind., Feb. 2.—Notice was

sent here Tuesday to the Lew Dailey post, G. A. R., notifying the local veterans of the death of Moore of Comrade R. B. Bartram, a civil war veteran, who made his home in this city and county for a number of years. He lived in this county at one time with his son, Henry, and he also was employed at various times in local restaurants. He had been in failing health for more than a year and local veterans received a letter only a few days ago informing them that he was rapidly sinking.

SURVIVED FOUR WIVES.

Montpelier, Ind., Feb. 2.—Horace Dawley, who would have been 87 years old on Washington's birthday, February 22, passed away at his home five miles northeast of this city on Tuesday. Mr. Dawley, who was one of the best known men residing in this vicinity, was born in Hawkins county, Ohio, and came to this state and located east of the city fifty years ago. He was married four times, and all of his wives preceded him in death. He has four children living.

HARTFORD CITY BOOZE RECORD

Hartford City, Ind., Feb. 2.—The police report of this city for the year 1915 has been filed with Mayor Seibert. The report shows that there were a total of 132 arrests, seventy-seven of which were for intoxication. The cases in which fines were assessed total 110, of which sixty-five were paid, sixteen stayed, twenty-five jailed, and four to the penal farm. The police report for the month of January was made up of six arrests, all of which were for intoxication.

RAIL MILLIONAIRE'S HOME

Robbers Touch Up Rogers for Silver and Sporting Trophies.

Poughkeepsie, N. Y., Feb. 2.—The country home of Archibald Rogers, Standard Oil millionaire at Hyde Park on the Hudson, was entered by burglars during the night and silverware and many valuable sporting trophies were stolen.

Colonel Rogers said that at least twenty cups, many of them worth \$1,000 each, had been taken. He said it was impossible to estimate the value of the trophies as they represented his winnings from 1854 to 1882 in the regattas of the New York Yacht club, when he sailed the yachts Bedouin, Wasp and Colonia.

ARRESTED FOR PREJURY.

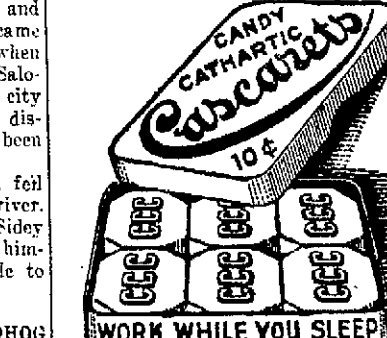

Women Relatives of Defendant in Mohr Case Accused.

Providence, R. I., Feb. 2.—Mrs. Beattie Spellman, the wife, and Mrs. Gertrude Dailey, a sister of Henry H. Spellman on trial with Mrs. Elizabeth F. Mohr and Cecil Brown for the murder of Dr. C. Franklin Mohr, were arrested today on charges of perjury. The women had testified at the morning session and had given evidence in support of an alibi for Spellman.

Wake up feeling fine! Best laxative for men, women and children.

WORK WHILE YOU SLEEP

Enjoy life! Remove the liver and bowel poison which is keeping your head dizzy, your tongue coated, breath offensive, and stomach sour. Don't stay bilious, sick, headachy, constipated and full of cold. Why don't you get a box of Cascarets from the drug store and eat one or two tonight and enjoy the nicest, gentlest liver and bowel cleansing you ever experienced. You will wake up feeling fit and fine. Cascarets never gripe or sicken like salts, pills, and calomel. They act so gently that you hardly realize you have taken a cathartic. Mothers should give cross, sick, bilious or feverish children a whole Cascaret any time—they act thoroughly and are harmless.—Advertisement.

NEW HERBAL BALM MAKES LIFE WORTH WHILE FOR SKIN SUFFERERS

One will have to admit the fact that the aborigines were wonderfully successful in keeping down skin diseases contagious and otherwise in their tribe. A study of the skin diseases among the Arapahoes by Dodge shows that the tribes used a balsam, obtained from the trees in that vicinity or brought to them from the coast Indians, which produced wonderful results in what is known as scabies or itch and also weeping eczema. DEXMA has this ingredient in it and its results have been wonderful.

Try this wonderful new herbal skin balm. Apply DEXMA to eczema; to old running sores; to leg ulcers; to ringworm, piles, to all blemishes and eruptions of the skin. It purifies and heals. No skin disease can live where DEXMA is used.

MONTH'S CELEBRATION BEGINS WITH BANQUET

400 Attend Event at Y. W.

C. A. Tuesday Evening for Members Only.

The launching of the month's celebration in observance of the golden jubilee anniversary of the Young Women's Christian association took place Tuesday evening in Fort Wayne in a very splendid manner when four hundred members of the association enjoyed the banquet. The gymnasium was converted into a banquet hall and as the guests were marching into the hall, the air was rent with yell and songs coming from the corners guarded over by the Glympit club and the Boss Manufacturing Girls' club.

The main auditorium of the gymnasium was not large enough to accommodate all the guests so an overflow table was set upstairs in the balcony of the same room. A four course supper was served during which time there was a succession of songs, hymns, yells and calls from all the tables by the various clubs and organizations of the association who sat in a body at the tables.

The board of directors were seated on the west side of the room with Mrs. B. Paul Mossman president, in the center. At the conclusion of the banquet, Mrs. Mossman who acted as toastmistress, asked for toasts from the various secretaries. She expressed her delight at the large attendance and told in an interesting way that the month of February had been set aside for the celebration of the fiftieth anniversary of the organization over the entire world.

Each speaker who responded told something of interest to everyone present and at the close of each brief talk the hearty applause told in an indirect way the interest that was taken by all in the work of the local organization. The following toasts were given:

"Jubilee".....Miss Anna Louise Cole
"Doings".....Mrs. H. L. Askew
"Cent's".....Miss May Jewell Smith
"Non-cent's".....Mrs. George Evans
"US".....Miss Grace Diffendorfer
"Our Home".....Mrs. A. H. Perfect
"Sleeps and Sweeps".....Mrs. Helen G. Wagner
"Eats".....Miss Anna Maude Smith
"Feats".....Miss Ruth E. Melin
"Meets".....Mrs. P. J. Thelme
"More Meets".....Mrs. W. S. Whitbeck
"Business Women".....Mrs. Nettie King
"Sisters Big".....Miss Nora Shreve
"Light".....Miss J. S. House
"Feet".....Miss Margaret Veser
"35 Rs".....Miss Anna Todd
"Last, But Not Least".....Miss Mary Harrah

"Extry! Extry!".....Mrs. B. H. Hudson

Each one of the officers and secretaries in their toasts told some statistics of their annual reports which all showed that the Y. W. C. A. had enjoyed one of the most successful years in its history. It was organized nearly twenty years ago and since that time has grown from a membership of fifty to 1,408. The cafeteria lunch department as shown by the figures submitted by Miss Anna Maude Smith showed that it is one of the most popular places in the city. She stated that 103,339 meals were served besides the many special features and 6,400 fifteen-cent lunches for business girls.

Mrs. B. H. Hudson, who did much towards the formation of Camp Lakeside, received a hearty applause when she called out, "All Aboard for Camp Lakeside." The plan this year is to open the camp July 15 and keep it open until Labor Day.

GARRETT NEWS.

Garrett, Ind., Feb. 2.—Fred L. Feick spent Monday and Tuesday in Fort Wayne and Decatur on business.

Mr. Cris Reyher, a pioneer merchant of DeKalb county, is able to be out again after suffering a light stroke of paralysis a week ago. Mr. Reyher is eighty years of age and unusually spry for a man of those years.

The funeral of Mrs. Harry Brown was held Tuesday morning at the Methodist church the Rev. Charles Tinkham officiating. The funeral party left on the interurban car at 2:30 for the Vandalia station south of here where they boarded a train for Chubbuck, the former home of the deceased, and where the funeral will be held Wednesday morning. All business houses were closed during the funeral, which was attended by many out of town friends also. Among these was Rev. A. F. McClell, of Butler, a former pastor of the deceased.

Mrs. Robert Carper and children returned yesterday from a few days visit with the former's parents at Waterloo. Mrs. Arthur Smith is entertaining her sister-in-law, Mrs. George Clark, of Kendallville.

Mrs. H. A. Gingery is spending the day with Fort Wayne friends.

Ivan Calkins who has been visiting his parents for the past few days, returned to his work in Fort Wayne today.

Engineer George Childers who has been very ill for some time, is slowly recovering which his many friends will be delighted to hear. Mr. Childers is one of the older employees of the B. & O. and is well and favorably known all along the line.

The Garrett high school students are invited to attend the revival meetings at the Baptist church Friday evening when a special service will be held and special music given. This is to be High School night and every student is urged to be present.

Mr. and Mrs. J. P. Gephart and sons spent Monday in Fort Wayne.

Miss Letta Tabbutt spent Monday evening with Auburn friends.

After being closed for several months, while undergoing extensive repairs, the hotel in this city formerly known as the Keyser hotel, will be opened to the public for business next Monday. The new proprietor has decided to name it the Ober hotel. Landlord Ueber is known by all the traveling public, having conducted the St. James hotel in Avilla for many years, and which won an enviable reputation.

The high water caused considerable trouble at the Summers' greenhouse on East Quincy street, Sunday evening when it rose so high that it put the fires out under the boilers.

WOODEN LEG FAMINE IN ILLINOIS TOWN STIRS TO "PREPAREDNESS."

Carthage, Ill., Feb. 2.—Carthage has all other "preparedness plans" backed up by the board.

A group of prominent citizens here are preparing to lay in a stock of wooden legs and mighty quick, too!

Here's the reason: Carthage has many more or less prominent citizens who wear wooden legs, and they drew up their preparedness program after the recent accident to John Miller.

Miller slipped on an icy pavement and broke his leg the wooden one. It was shivered beyond repair and when Miller sent around town trying to have another he found a famine of wooden legs in Carthage.

He was "stumped" for fair and now he is laid up in bed waiting for a new leg to be shipped to him from Chicago.

AMERICANS REACH ATHENS.

Members of Red Cross Party Undergo Hardships.

Athens, Feb. 1.—(Via Paris, Feb. 2.)—Miss Marie Lamon and Dr. Dura Guecin, both of Chicago, survivors of the Red Cross party on board the Italian steamer Brindisi, which was sunk by a mine off the Albanian coast, on Jan. 6, have arrived in Athens. They were in the water three hours before being picked up and reached Durazzo just in time to join the retreating Serbian army. They walked to Avlona whence they were transported to Corfu with the Serbians. From Corfu, without money and with their only possessions the clothes they were wearing, they made their way to Athens.

THE SENTINEL'S DAILY SCRIPTURE READING.

Proverbs 22:1-17.

1 A good name is rather to be chosen than great riches, and loving favour rather than silver and gold.

2 The rich and poor meet together: the Lord is the maker of them all.

3 A prudent man foreseeth the evil, and hideth himself: but the simple pass on, and are punished.

4 By humility and the fear of the Lord are riches, and honour, and life.

5 Thorns and snares are in the way of the froward: he that doth keep his soul shall be far from them.

6 Train up a child in the way he should go: and when he is old, he will not depart from it.

7 The rich ruleth over the poor, and the borrower is servant to the lender.

8 He that soweth iniquity shall reap vanity: and the rod of his anger shall fail.

9 He that hath a bountiful eye shall be blessed; for he giveth of his bread to the poor.

10 Cast out the scorner, and contention shall go out; yea, strife and reproach shall cease.

11 He that loveth pureness of heart, for the grace of his lips the king shall be his friend.

12 The eyes of the Lord preserve knowledge; and he overthroweth the words of the transgressor.

13 The slothful man saith, There is a lion without, I shall be slain in the streets.

14 The mouth of strange women is a deep pit: he that is abhorred of the Lord shall fall therein.

15 Foolishness is bound in the heart of a child: but the rod of correction shall drive it far from him.

16 He that oppresseth the poor to increase his riches, and he that giveth to the rich, shall surely come to want.

17 Bow down thine ear, and hear the words of the wise, and apply thine heart unto my knowledge.

Perry A. Randall.

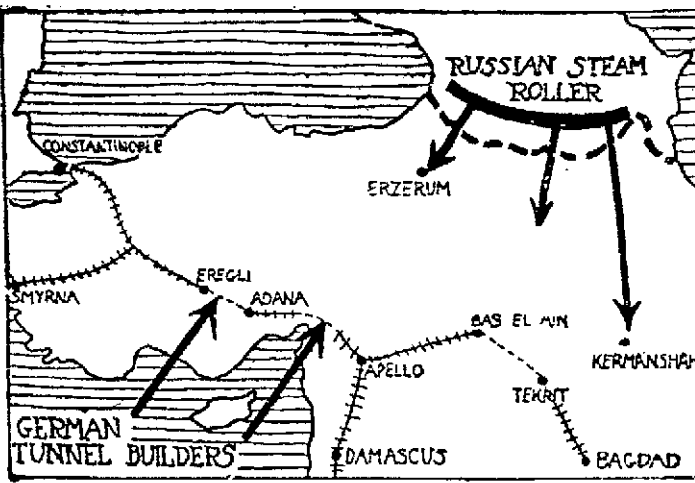

The passing of few Fort Wayne men, perhaps in all the days of the city's history, has been more widely mourned or more deeply deplored than will be the death of Perry A. Randall, to whom the final summons came with tragic suddenness on Tuesday morning. Few Fort Wayne men have been so intimately known by so many residents of the city, few cherished so deeply in the friendship of those who knew them best, and few have in the span of life attempted so much and accomplished so largely in civic endeavor as did this remarkable character who, though gone, has left upon the city the indelible impress of his dreams, his hopes and his achievements.

For Perry A. Randall will live in the work he left behind him, in his plans and his purposes, in his aims and his desires and in the civic spirit he did so much to create. From the day he became a citizen of Fort Wayne more than forty years ago, down to the moment when death snuffed his life spark, he was aggressive, tireless, purposeful and undaunted in carrying forward activities so manifold and so varied—activities such as would have staggered a less courageous, less forceful and a less capable man. Educated for the law and thoroughly grounded in its basic principles, Mr. Randall made no pretensions to legal profundity. Indeed his constructive spirit and his desire to achieve tangible accomplishment made him chafe at the restraint of ordinary law practice. The avenues of business were more alluring than was the law office. They afforded an outlet for the exercise of his intense desire to be in close touch with and in active participation in the achievement of building here a great city. It was not the desire for gain that inspired him, but the desire to accomplish. Possessed in comfortable degree of this world's goods, he did not love money, for again and again he made financial sacrifice in the unselfish effort to aid his friends, and came up smiling in the face of disaster.

A survey of Mr. Randall's activities, of the varied interests which claimed his attention and his talents, reveals a most amazingly large list of them. Lawyer, manufacturer, home-builder and business man but summarize under general groups some of the interests that claimed the attention of this remarkable man. Yet he was more than any one or all of these, for aside from his private interests Mr. Randall gave enthusiastically and ungrudgingly an uncounted total of days, months and years of effort toward work purely public-spirited and wholly civic in its character. Scarcely has there been undertaken in Fort Wayne in the last generation a work which had for its purpose the advancement and progress of Fort Wayne, whatever its character, without the active support and sympathy and assistance of this splendid citizen. One of the chief efforts of his entire career was in behalf of the lake-to-lake waterway project, and it was one of his cherished hopes to live to see it become a reality. Tireless in this as in all else which he undertook, Mr. Randall knew no such thing as discouragement. He was always the optimist. No element of failure daunted him. Into whatever endeavor that claimed his attention he threw heart and soul and courage that would not be denied.

A man of pronounced opinions, also, he possessed the courage of his convictions. He did not expect or desire all men to agree with him, but he reached his conclusions after mature thought and under the guidance of a fine judgment, he voiced them courageously, he was a fair fighter, and candor was a marked attribute of his make-up. Being human, he was not perfect. Like all mankind, he was perhaps subject to some degree of frailty and foible, but his was a kindly soul. His heart was warm, his sympathy deep, his friendship sincere, his character lofty, his integrity exalted, his humanity broad and his confidence steadfast. The world has all too few great-souled, devoted and useful men of the type of Perry A. Randall.

Fate of Vast Empire Hangs on Outcome of Race Between Russ Steam Roller and German Tunnel Builders.

Map Showing Where Race for Persia and Suez Canal Is Taking Place

London, England, Feb. 2. Can the Russian steam roller beat the German tunnel builders? The race is on! And on the outcome depends the fate of Persia and the Suez canal. Grand Duke Nicholas, uncle of the czar, is leading the Russians in increasing numbers through the Caucasus mountains and defeating the Turks right and left. And in the Taurus hills, on the main line of the Constantinople-Damascus railroad, German engineers are feverishly rushing to completion a tunnel 18 miles long. Until this tunnel is completed, German supplies and soldiers in any quantities cannot be sent into the interior of Asiatic Turkey. The Turks massed at Damascus for the descent on Suez can-

not dare not—march until their line of communication with the capital is made secure.

The military genius of Russia's greatest commander, and the industrial efficiency of Germany's greatest engineers are matched in a race such as the world has never seen.

Russian forces, under Nicholas, have reached Kermanshah, in Persia, ten days' march from the British beleaguered at Kut-el-Amara. Strong Turkish forces are between them, however, so allies cannot count on a junction in this region until a decisive victory is gained.

Meisner Pasha, engineer in charge of the Taurus tunnel, on the other hand, has just received numerous German and Austrian aides by way of the recently opened Berlin-Constantinople through railway.

OPENING OF THE GARDEN SEASON.

(Indianapolis News.)

While spring itself does not begin with February, spring work does. And it is gardening work. It is not expected, of course, that the gardener will go outdoors and garden. He will not spade up flower beds and turn over the soil where the summer's vegetables are to grow. But, if he is a real gardener, the advent of February will set him to doing what others postpone doing until April.

February, in the gardener's calendar, is known as "planning" month. Before it has passed into March the backyard gardener knows what he is going to plant and where he is going to plant it. His garden is planned as completely as a house might be planned. He knows where the row of early lettuce will grow, what second crop will follow it, and, in a good many instances,

what third crop will follow the second. He has planned to make the most of his ground. Each square foot of it will produce not only one crop—that would be a waste of opportunity—but a succession of crops. And he will have so planned that, with the use of early, mid-season and late varieties of vegetables, he will have produce from his garden over a long season. Instead of having more peas and beans for a fortnight than he can possibly consume, and then no more at all, he will have peas and beans all through the season, enough at all times and no more than enough.

Indoors, in sunny windows, both flowers and vegetables will be planted in the seed flats before the month is ended. Later, when others are only beginning to think of planting, he will have sturdy little seedlings ready to go into the ground outdoors. Thereby he snatches a month out of the grasp of Time. All his pruning of grape vines and fruit trees will be finished before February has passed and likewise his spraying against scale.

The back yard gardener has learned how to make the most of time, soil and opportunity. His numbers in recent years have multiplied amazingly. He is no longer the butt of the humorist's jokes. He is taken seriously. What he produces in the course of a season the government does not know, but it estimates the value of his produce in the millions. Some city families never find it necessary to buy a vegetable from spring to fall. What they consume comes from the vegetable patch in the back yard—fresh, tender, crisp, of highest quality. From the practices of the back yard gardener, and from the results he achieves, many a good farmer could learn a lesson of value. The time to begin is in February.

WARS OF FIFTY YEARS.

(Detroit Free Press.)

We profess as much horror over the present war as if war were an unusual thing. Actually, the history of the last fifty years is a record of wars. Attempts to write it in terms of development through civilization presently bring up against war. Frederick the Great calculated the recurrence of war every ten years; during the last half century there has been an average of a war every four and a half years. Fifty years ago the United States had just emerged from the throes of the civil war. We have had a remarkable era of peace since the Indian troubles which followed the rebellion were settled, broken only by the Spanish-American war and certain difficulties in the Philippines.

These years have not been peaceful to other nations. There have been the German-Austrian, Franco-Prussian, Serbian, Bulgarian, Russo-Turkish, Spanish-American, British-Boer, Greco-Turkish, Japanese-Chinese, Russo-Japanese, Italian-Tripolitan, the Balkan wars and the present general European melee.

We are accustomed to regard the reign of Queen Victoria as an era of peace and progress. Progress and prosperity there were, but there was also war. The Crimean war, in which England, France, Turkey and Sardinia were arrayed against Russia, the war in Afghanistan in 1842, the Sikh war of 1845-46, the Indian mutiny of 1857, the troubles in the Sudan which began in 1884 and the

Cyrus Cline, by reason of his experience, hard work and boundless energy is peculiarly qualified to represent you. This is the reason for the wonderful and enthusiastic support his candidacy has received from men of all factions and all walks of life.

It is never good policy to "trade horses in the middle of a stream." It would be particularly disastrous in view of the existing situation to do so now. The Nation needs every bit of energy, experience and loyalty possessed by our lawmakers.

It is your duty—the duty of every citizen—to do your share in the present crisis, and with this in mind the candidacy of Cyrus Cline for Congress should strongly appeal to all citizens, irrespective of party affiliations.

beginnings of the South African war belong to her reign.

The present century opened with the thunder of guns off African veldts, and though only fifteen years old it has already eight wars written in its history: the Boer war, Russo-Japanese war, Franco-Moroccan war, the Italian-Turkish war, two Balkan wars, the internal war in Mexico and the present war in Europe.

MANY CASES OF RHEUMATISM NOW

Says We Must Keep Feet Dry, Avoid Exposure and Eat Less Meat.

Stay off the damp ground, avoid exposure, keep feet dry, eat less meat, drink lots of water and above all take a spoonful of salts occasionally to keep down uric acid.

Rheumatism is caused by poisonous toxin, called uric acid, which is generated in the bowels and absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine. The pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly, cold weather the skin pores are closed, thus forcing the kidneys to do double work; they become weak and sluggish and fail to eliminate this uric acid which keeps accumulating and circulating through the system, eventually settling in the joints and muscles causing stiffness, soreness and pain called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these impurities.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia and is used with excellent results by thousands of folks who are subject to rheumatism. Here you have a pleasant, effervescent lithia-water drink which overcomes uric acid and is beneficial to your kidneys as well.—Advertisement.

PAGEANT MASTER IS COMING SATURDAY

At a meeting of the centennial committee Tuesday evening at the Commercial club arrangements were made for the coming next Saturday of William C. Langon, pageant master for the state centennial celebration. Mr. Langon will hold a conference Saturday afternoon with the executive committee at which time plans for the local celebration will be discussed and in the evening he will address the general public in the assembly room of the Commercial club. This meeting will be under the auspices of the Women's league and the centennial committee.

Although several more names were added to the list of committees it was not completed and will be taken up again at the next meeting.

Fort Wayne aerie No. 248, Fraternal Order of Eagles, will give a banquet this evening in the home on West Berry street in honor of groundhog-day. The principal item on the menu will be groundhog. Wallace J. Dillingham, of Warsaw, district president, will speak at the meeting.

ELKS' THEATER PARTY.

The Elks' party at the New Palace theater Tuesday evening was largely attended and was a grand success. Following the performance a supper was served at the temple on West Berry street.

For Croup--Mothers-- Always Keep This Handy

The day of the Croup scare is over for those parents who wisely keep Foley's Honey and Tar Compound in the home ready for instant use.

Mrs. Chas. Reata, Allen's Mills, Pa., writes: "I have used Foley's Honey and Tar Compound for the past eleven years and would not be without it. It has saved me many a doctor's bill for colds and croup."

If toward nightfall the little ones grow hoarse and croupy, if their breathing becomes wheezy and stuffy, give them Foley's Honey and Tar Compound. Many a careful mother has been able to ward off an attack of spasmodic croup by its timely use.

"If you are awakened by the hoarse brassy cough that means croup, give Foley's Honey and Tar Compound at once. It will ease the little sufferers quickly, cut the thick choking phlegm, and soon they will have easy breathing and peaceful quiet sleep."

RHEUMATISM, STOMACH TROUBLE, BACKACHE--WOMANLY ILLS.

Woman suffered ever since she was twelve years old and finally was relieved by using Miller's True Herb Remedy. Mrs. C. Steman, of 1331 Huestis Ave., says: "I was compelled to use medicine ever since I was twelve years old but I only got temporary relief. I was in awful pain and misery, taking medicine for so many years without any help, it seemed there was no relief for my troubles. I heard of Miller's True Herb Remedy doing so much good to the afflicted I decided to try it and the first bottle gave me more relief than all the medicine I took for twenty-five years. I had Rheumatism, Stomach Trouble, Backache and womanly ill. I can say after using a few bottles of this good medicine I am well and hearty again. Our little girl is troubled with constipation and I give her a dose now and then and it always gives her great relief. Miller's True Herb Remedy is the best we ever had in the house." For sale at all druggists, 75c. A \$1.50 bottle gives you a fifty days' treatment.

The first of pre-nuptial parties to honor Miss Constance Kephling, who is to be a bride of the month, was given this afternoon by Miss Vera Tresselt, at her home in Washington boulevard west, it was an auction bridge gathering with sixteen young women engaging in the game. Many pink and white roses were used to make the room look more attractive than usual and the supper table was very lovely in its appointments, with pink the general color, and roses for decoration, for favors and for the bouquet presented to Miss Kephling. Water color drawings of a wedding character were placed cards and altogether the entire affair was charming, including a beautiful gift from the best-ess to Miss Kephling.

There were eighteen young girls attending a beautiful sewing party given by Miss Hazel Malone at her home in West Main street, this afternoon, in honor of Miss Margaret Misner, who is to wed within the next few weeks. Miss Malone was assisted in entertaining by her sister, Mrs. Louis A. Baker, formerly Miss Irma Malone. The supper table was done in pink and white roses and other equally attractive appointments. After the refreshments Miss Misner was presented with a handsome box that looked as if it might contain a French "creation" right from New York. It did contain many gifts, however, that were lovelier than any new hat could have been. The gifts were a "shower" from the guests. A big box of hair-maline topped off the cover of the box.

The Ladies' Hebrew Benevolent society will meet at 3 o'clock on Thursday afternoon.

Dr. and Mrs. Maurice Lohman will soon be at home in an apartment in the St. James.

Miss Alice Ellison, of Lagrange, is visiting her brother, T. L. Ellison, and Mrs. Ellison, for a few days.

Miss Kathleen and Miss Margery Corbett, of Toronto, Canada, are guests of Mrs. M. V. Tucker, of Harrison street.

Miss Cyril Shaefer, of West DeWald street, left on Tuesday for Oberlin college to take a special course in music.

Charles Dunkelberg, son of Mr. and Mrs. C. A. Dunkelberg, is to leave next Friday for Cornell university, Ithaca, N. Y., to take a special course of study.

The February number of the Trained Nurse and Hospital Review contains a well written and interesting article by Mrs. John J. Muir, of Fairfield avenue, on "The Minutiae of Nursing from the Patient's Point of View."

Invitations have been issued by Mrs. Hugh G. Keegan to a dancing party for her daughter, Margaret Ann, which will be given on Friday evening at the home of Miss Margaret Ann's grandparents, Mr. and Mrs. E. F. Yarnelle.

The Morning Musical society meeting, scheduled for next Friday afternoon, has been postponed for a week, or until February 11, when it will be held at the same time in Elks' hall. The change in time has been made owing to a bereavement in the family of Mrs. Walter Seavey, who is chairman of the committee in charge of the program.

The H. B. C. girls met with Miss Marie Henry, 639 Hendricks street, on Tuesday evening and spent a merry hour, or so playing games. Music and refreshments were other entertainment. Misses Helen Haag and Hedrae Ottewill sang a duet. Others present were Clara Nixter, Tillie and Helen Noll, Gertrude Kress, Lizzie Merckle.

Mrs. Isaac D'Isay returned on Tuesday from a visit of several weeks in Cincinnati, at the home of her daughter, Mrs. Lippincott. Mrs. D'Isay was detained in Cincinnati and her visit prolonged for several weeks by the serious illness of her granddaughter, Laura Lida Lippincott, who is just in the beginning of her convalescence from a fever.

A pleasant surprise was given at the home of Miss Helen Adams, of 616 Walnut street, on Monday evening, in celebration of her eighteenth birthday anniversary. Misses Irene Ruble, Madge Knepe, Ruth Blackwell, Helen Truesdale, Violet Bowers, Blanch, Myrtle and Bonnie Van Buskirk, Arletta Woods, Thelma Hines, Cyril Shaeffer, Thelma Clark, Irene Smith, Beulah Barnes, Olivia Smith, Winifred Howard, Florence Trowbridge, Margaret Willis, Hazel Owen composed the party. Games and music were enjoyed and tempting refreshments were served.

CELEBRATE GOLDEN WEDDING.

Mr. and Mrs. P. C. Tyger Surprised by Relatives, Tuesday.

A gathering of relatives at the home of Mr. and Mrs. Philip C. Tyger, of 1325 Cass street, on Tuesday evening, was a surprise planned by their children in honor of their fiftieth wedding anniversary. Mrs. Charles W. Tyger, wife of the older son, planned the anniversary party and Mrs. Morton B. Tyger helped in arrangements for the supper that was served at 8 o'clock. Covers were laid for eighteen and the table was decorated beautifully with yellow roses, ferns and smilax. The

HOW TO CLEAN WHITE KID GLOVES

Put the soiled gloves on the hand, saturate a piece of white cloth with non-explosive Klee-Nu cleaning fluid, rub the glove and the dirt will disappear as if by magic, leaving the gloves clean, soft and white as new—ready to wear after a few minutes' airing. Cleaning only requires a few minutes, and one bottle cleans many pairs, saves the gloves, avoiding delay and expense of sending them out.

Klee-Nu removes grease, oil and general soils from all fabrics and the finest silks without injury, leaving no ring. Klee-Nu is a transparent, scientifically prepared liquid cleaner, is ready for use, cannot burn or explode, free from acid and harmless to most fabrics.

Get a large 25 cent bottle today at your druggist, who refund money if dissatisfied, or sent upon receipt of 25 cents. Address The Klee-Nu Co., Fort Wayne, Ind.—Advertisement.

Young Girl to Be "Evangeline"

MISS WINIFRED SINK.

Miss Winifred Sink is to act the part of "Evangeline" in the dramatization of Longfellow's poem at the Harmon school auditorium on Friday evening. Miss Winifred is the bright and interesting daughter of Mr. and Mrs. W. C. Sink, of Columbia avenue, and she is greatly interested in the success of the entertainment she and her classmates are to give. Other characters in the play and the children who will act them are Gabriel, by Edwin Tait; Basil, by Lloyd Stocks; Benedict, by Lester Wahrburg; Baptiste, by Elzy Baker; LeBlanc, by Max Himmelman; Father LeBlanc, by Irma Fichman; Capt. Winslow, by Clem Grabner. There will also be Arcadian soldiers, chorus and dancing girls all from the 7th and 8th grades. Miss Beatrice Benz will be the pianist, and the orchestra of the school and Miss Dechterman and Miss Griffin, instructors in the Harmon departmental school, have the entire entertainment in charge and are rehearsing the children. The proceeds of tickets at fifteen cents each are to be used to buy art works for the rooms of the pupils in the seventh and eighth grades.

Current Bill to Close.

The current combination bill will close this evening. This is the program featured by the musical fantasy, "The Four Husbands," and two superb vaudeville acts, the card trick stunt done by Liepzig and the sensational shooting done by the Randalls in their sht, "Seventeen Minutes in Arizona." The "Four Husbands" is easily the best musical comedy tabloid of the season as its timely lyrics and its amusing book are delightfully presented by a brilliant company headed by Ralph Whitehead, George Jinks, Margaret Schaller, Betty Caldwell and others.

AT THE ORPHEUM.

A NEW STAR BIAZES.

George La Guere Shining Light in "The Turmoil." Seen at the Orpheum.

"The Turmoil," a screen play adapted directly from Booth Tarkington's widely read novel of that same title, proves to be one of the most enjoyable pictures ever screened at the Orpheum. It is a story of modern American life, and reflects with commendable fidelity the home life of the average well-to-do American family, at the same time reciting a tale of superb dramatic power and wholesome, appealing charm.

Valli Valli, one of the best known actresses of the contemporary stage, is seen in a leading role, but the acting honors of the day are captured by George La Guere, a young actor who gives an unmistakably brilliant portrayal of Tarkington's beloved book character, "Bibbs" Sheridan. All in all, "The Turmoil," stands as a very good film offering, one of the most enjoyable that you'll be apt to see in some time.

AT THE JEFFERSON.

PAULINE FREDERICK.

Superb in "The Spider" at the Jefferson.

The offering at the Jefferson today is one of exceptional quality from every angle. The famous beauty, Pauline Frederick, is the star and the play is "The Spider," a Paramount unusual in construction and theme.

The tremendous power of Miss Frederick's dramatic art and the wide range of her capabilities were never so forcefully brought out in any one production as in "The Spider." In "Zaza" Miss Frederick showed the development of a girl of the slums into a great actress and in "Bella Donna" she portrayed a cruel adventuress whose villainousness and avarice proved her own undoing, but in her latest appearance she is called upon to present diametrically contrasted characterizations. Her wonderful mastery of this great difficulty is a lasting monument to her genius.

The added feature is the Pathe News picturizing the important news events of the world.

AT THE GRAND.

Today is Bushman day at the Grand and without question the little playhouse will be packed as usual on this occasion. Francis X. Bushman will be featured in a three-act drama entitled "The Plum Tree." Craig Ewell and Norris Criggs are in love with pretty Alice Graham. One night the limited is held up and Craig is accused. He is tried and found guilty. Alice is stunned by the fate of her sweetheart and is forced into a loveless marriage with Criggs. Ten years later, Craig is freed and wanders heartbroken to the Pacific coast. Criggs has become the financial leader in a Mexican revolution plot. One night Craig is discovered watching a rebel ship being loaded with contraband arms and is put to work on the vessel. He overhears the revolutionist's plot, and, after a terrific hand-to-hand battle, swims to shore and gives the alarm. The Federal troops, guided by Craig, rush to the scene and a battle takes place. Criggs and Ewell not recognizing each other, engage in an encounter in which Criggs is mortally wounded. Craig carries him out of the line of fire to a hut. Here Criggs summons a padre and confesses to having planned the train robbery to implicate Craig and to get him out of the way. Hearing his name mentioned, Craig hastens to the bedside and the two men recognize each other. The shock kills Criggs and Craig is left with a written confession. He then returns to Alice and a beautiful reunion takes place under the old plum tree.

SPECIAL MEETING OF CITY COUNCIL

Assemble Wednesday to Fix Boundaries and Annex Territory

The city council will meet in a special session that has been called for Wednesday night to start on their course two ordinances—one to relocate certain ward and precinct boundaries in the city and to annex some territory. By reason of the fact that a year ago the county commissioners annexed to Wayne township those portions of Washington, St. Joe and Adams which embraced parts of the incorporated city of Fort Wayne and that the entire city now lies within Wayne township, it is necessary to designate certain precincts by new descriptions and to change some precinct boundaries. The ordinance will add to the Second ward precincts some Ninth ward territory, because it compels voters to go far west into Bloomingdale to vote. This territory lies east of Calhoun street and the Lake Shore tracks. The ordinance will make DeWald street the boundary between the Third and Sixth wards and the Fourth and Sixth wards from Calhoun street to Broadway, thus eliminating a devious boundary line. The Pennsylvania railroad will be substituted for boundary line between the Eighth and Tenth wards east of Harrison street. An ordinance will be introduced reannexing to the city the small area of territory disannexed some time ago to bring the procedure for the separation of grades at the Pennsylvania railroad and Wayne trace all within the jurisdiction of the county. When the territory was disannexed it was understood that after the improvement was completed the territory would again be added to the city. The council will refer these ordinances to committee and in three weeks hold a special meeting to finally pass them so they will be in effect for the primary election March 7.

BIG SUGAR PLANT TIED UP.

Strike of Machinists at Brooklyn Called by Union.

New York, Feb. 2.—A strike which union leaders claim has completely tied up the Brooklyn plant of the American Sugar Refining company, was called today by the Metal Workers' union. The entire staff of machinists, about 500 in number, walked out. There are about 3,500 employees in all at the plant. The men demand the reinstatement of three men whom they alleged were dismissed for their union activities. They also ask for an eight hour working day instead of the present ten hour shift.

ONE DEAD; ONE BADLY HURT.

English Royal Flying Corps Lieutenant Meets Death.

London, Feb. 2.—Lieut. J. S. Reed, of the Royal flying corps, died today as a result of injuries sustained at Alder shot by the fall of a new aeroplane on which he was acting as observer. Lieut. Browning, the pilot, was injured badly.

EVERYONE LIKES THIS COLD CURE

"Pape's Cold Compound" ends cold or gripe in few hours.

Your cold will break and all gripe misery end after taking a dose of "Pape's Cold Compound" every two hours until three doses are taken. It promptly opens clogged-up nostrils and air passages in the head, stops nasty discharge or nose running, relieves sick headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness.

Don't stay stuffed-up! Quit blowing and sniffing! Ease your throbbing head—nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only 25 cents at any drug store. It acts without assistance, tastes nice, and causes no inconvenience. Accept no substitutes—Advertismen.

Let the lake and lagoons would afford by impounding water, Councilman Jacob Agno, of the First ward, is agitating a movement for the construction of an 18-inch storm sewer from Forest park to the Maumee river. This would relieve conditions during times of heavy rains. Its cost would be about \$10,000.

CHOOSE NEW PAVING.

In making preliminary selection of material for the twenty-six streets included in the year's improvement program the board of works has designated asphalt macadam for Fry street, Linden avenue, Old Fort street and Park View avenue. This is the material chosen by the park board for Radcliff boulevard.

PNEUMONIA KILLS EIGHTEEN.

The records in the city health office show that during the period from Jan. 1 there have been eighteen deaths from pneumonia in Fort Wayne.

THE BIRTH RECORD.

To Mr. and Mrs. August Witte, 1615 Roy street—a girl.

To Mr. and Mrs. Frederick Thieme, 1827 John street—a boy.

THE DEATHS

WATERS.

Martin Waters, aged eighty years and eleven months, dropped dead at 10 o'clock Monday morning at his home in Scipio township near the state line. Death was due to heart trouble from which he had been a sufferer for many years. Had he lived several days he would have celebrated his eighty-first birthday.

Besides the widow, the following children survive him: Sylvester Waters, of Kendallville; John Waters, at home; Mrs. Myrtle Powell and Mrs. Elizabeth Gustin, both of Scipio township; several grand children and two sisters, Mrs. Harriet Miller and Mrs. Jane Cole, of Michigan.

The deceased was born in Coffee county Ohio, but came to Allen county in 1851 and has since resided in Scipio township. He was a life long member of the United Brethren church.

BAUS.

Mrs. Elizabeth Baus, aged sixty-seven years, died Tuesday at the family home 1817 St. Marys avenue, following an illness of two weeks due to la grippe. She is survived by the husband and the following children: August, George, Elizabeth and Adam Baus, and Mrs. Calvin Eddington.

Funeral services Thursday afternoon at 2 o'clock at the residence, Rev. J. H. Busch officiating. Interment at Lindenwood.

BERBERICK.

The infant child of Mr. and Mrs. Theodore Berberick, of 820 Hanover street, died recently at the home of the parents. The deceased is one of twins. Funeral services were held Wednesday afternoon at 3 o'clock from the Getz & Cahill parlors and interment followed at St. John's Catholic cemetery at New Haven.

Frank Gabel, aged 36 years, died at midnight Tuesday at St. Joseph hospital following a brief illness due to pneumonia.

LISBON FOOD RIOTS STILL IN PROGRESS

Lisbon, Feb. 1.—(Via Paris, Feb. 2.)—The rioting which began last Saturday on account of the increased price of food articles, has not yet been quelled and one person was reported killed and several wounded today by bombs thrown by the rioters in their conflicts with the police and the military.

The minister of the interior stated in the senate today that the government is determined to repress all attempts on the part of rioters to prevent men from returning to work. The senate passed a vote of confidence in the government. The opposition party announced that it had no intention of raising any obstacles to the efforts of the government to restore and preserve order.

PHIL M'NAGHY ASKS LEGISLATIVE PLACE

Indianapolis, Feb. 2.—Phil M. McNaghy, of Columbia City, a member of the firm of attorneys of which Thomas R. Marshall, vice president, once was a member, has filed a declaration of his intention to become a candidate for the legislature on the democratic ticket from Allen and Whitley counties.

Three candidates for congress also filed their declaration of candidacy with the secretary of state, as follows:

Joseph L. O'Bannon, Harrison township, Harrison county, democratic candidate for congress from the Third district.

Charles H. Good, Huntington, republican, candidate for congressman from the Eleventh district.

Joseph F. Denny, Portland, democratic candidate for congressman from the Fifth district.

The Woman's Foreign Missionary society of Simpson M. E. church met Thursday afternoon at the home of Mrs. Law, 325 West Leith street.

LARGEST MONUMENT EVER BUILT NOW BEING ERECTED IN HONOR OF U. S. HEROES.

The national memorial that is being erected by the United States of America in the national cemetery at Arlington, Va., in commemoration of the patriotism and valor of American soldiers and sailors who died for their country, is the largest monument that any nation has ever erected to its heroes.

Mrs. Alice Crismore and daughter, Miss Dola, of Everett, Kan., arrived in Ossian last night from Toledo, O., to visit with Mrs. Crismore's aunt, Mrs. Mary Allen in the home of Mr. and Mrs. Fred Gibson. While in Toledo Mrs. Crismore visited with her sister, Mrs. O. W. Reed, a former well known Ossian lady.

The Standard Bearers were entertained Tuesday evening by Miss How Elzey and Mrs. Dale Elzey at the former's home.

Rev. H. E. Butler, pastor of the U. B. church, is holding a series of meetings in his church this week.

Has Used Chamberlain's Cough Remedy for 20 Years.

"Chamberlain's Cough Remedy has been used in my household for the past twenty years. I began giving it to my children when they were small. As a quick relief for croup, whooping cough and ordinary colds, it has no equal. Being free from opium and other harmful drugs, I never felt afraid to give it to the children. I have recommended it to a large number of friends and neighbors, who have used it and speak highly of it." writes Mrs. Mary Minke, Shortsville, N. Y. Obtainable everywhere.—Advertisement.

CARDS TAKE GAME FROM TURNER FIVE

Lyceum Miller Stars as Usual in Basket Shooting.

The Cardinals ran with last night's shooting baskets from a dozen different angles, wheeling about out of reach of their opponents, passing with the accuracy of machinery and using headwork at every stage, and as the result they cleaned the Active Turners by a score of 54 and 26. But it may be said for the Turner boys that they were not up to their usual standard, although they did work hard, and that the Cards put in just about as classy a game as has been pulled on a local floor this winter.

The Cards had the advantage on their German opponents in a couple of respects, one of these being a Miller person from the Lyceum. He shot into baskets as his share of the evening's entertainment. The lineup and scores:

Cardinals, 54: Miller, R. F.; Webber, J. F.; Vonderhaar, C.; A. Hoffman, R. G.; Dekrich, L. G.

Turners, 26: Bade, R. F.; J. Henry, J. P.; Bauerle, C.; Ortlieb, R. G.; Fritz, J. G.

Field goals—Miller, 3; Webber, 6; Vonderhaar, 1; Dekrich, 4; Bade, 4; Henry, 3; Bauerle, 4; Ortlieb, 2.

Foul goals—Dekrich, 2.

Referee—Rice.

LEFTIES PUZZLE SLUGGER KAUFF.

Figures on Benny Kauff, Fed star, who has been signed by the New York Giants, indicate that he has his troubles against left-handed pitchers. He bats left-handed. Eddie Plunk, of St. Louis, was the best Federal league southpaw last season and he held Kauff to .187 average.

Kauff batted .417 against Dave Inven-

port, St. Louis right-hander, and .272 against McConnell, Chicago right-hander.

Frank, Davenport and McDaniel were the league's leading leading pitchers.

Kauff's average against the three was .218.

Boy Chided for Lack of Industry Returns With Fortune.

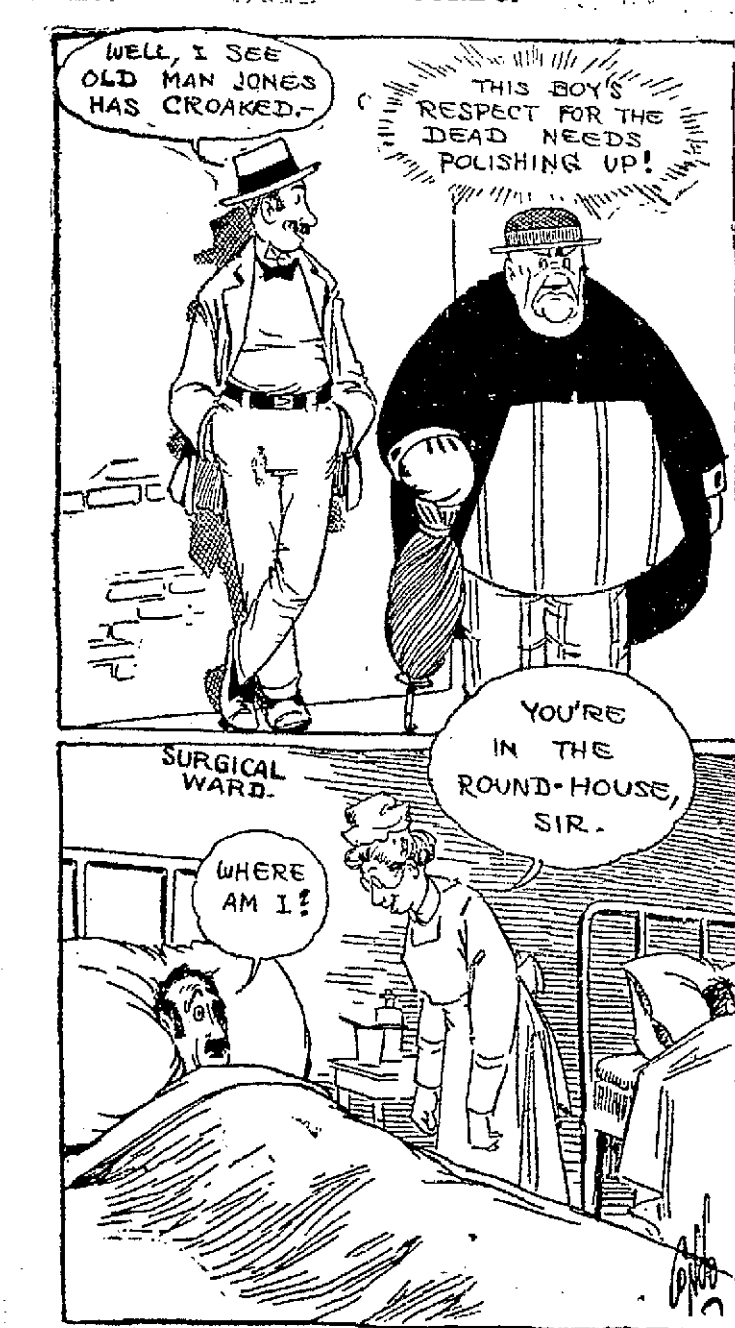

Urbana, O., Feb. 2.—Thirteen years ago, Andrew Dodge, son of George Dodge, Westville, when chided for lack of industry, left home and made a vow he would never return until he had made his stake. Recently he stepped off a train from Nevada and drove to his father's home, his home coming being unannounced. He is the owner of a half interest in a gold mine at Carson City, and is rated as worth \$500,000. He is thirty-five years old, and unmarried.

SOUTH BEND GETS INTO BASEBALL STRIDE

GROSH GROVERS.

South Bend, Ind., Feb. 2.—Ed Smith established himself today in the Ashland building on West Washington avenue. The boss of the local Central league interests has opened up official quarters in a front room on the second floor and from that place will direct his baseball club.

His first act after moving into his office was to take seven bids on the remodeling contract at Springbrook park to E. H. Miller, president of the St. Joseph County Fair and Amusement association, for consideration. Ed wants to see work begun as quickly as possible on the rearrangement of the ball grounds before the more active season comes on.

"Spikes" Laross is lost to the local club because of the keen eye of Rufus Gilbert, Ed, who is manager at Terre Haute, saw by the papers Smith was dicker with the shagging gardener, and hustled up to Chicago, where "Spikes" winters, and by personal persuasion signed him up.

Smith has not signed anyone yet but Manager Ben Koeber, as the big leaguers are clinging to their reserved property now when it doesn't cost them anything to do so. When it comes to reporting comes, however, Smith looks for a big release of material and will be prepared to secure some of it.

COLLEGE BOY vs. FARMER BOY IN MAT TEST.

They wrestled two hours and five minutes to a draw.

Lewis is different from most wrestlers. He is smart. He attended Kentucky State university, then continued his education by reading high-class literature in spare time, especially on trains while going from one city to another between matches.

He is a student of psychology and says he expects to "think himself to the championship." He says that many times, through mind control, he is able to make opponents do almost as he wants them to. In college Lewis was a star in athletics. He was physical instructor at Kentucky state before he became a professional wrestler.

The "Strangler" right name is Robert Friedrich. He was called "Strangler" after "Strangler" Evan Lewis, who won fame on the mat before him. He measures 6 feet 1 inch, weighs 235, measures 15 inches around the neck and 43 around the chest. He is only 23 years of age.

A match between Lewis and Stancher in the New York tournament will be the biggest event of the year in the wrestling game. The winner of the tournament will get \$10,000. Lewis has the edge on the purse and the final match probably will be between him and the farmer boy from Nebraska.

YOUNG BOXER IS AFTER A TEACHER.

A teacher is being sought to show Bryan Downey, Columbus, O., lightweight, the fine points of the boxing game, and, if possible, turn him into a champion.

Downey has been handled lately by Art Simms, who was a boxer some years ago "Pop" Downey, the boy's father, made a trip to New York to secure the services of a star boxer for the boy.

Downey was started in the boxing game by his father and has a good record.

KANSAS CITY COPS CHICAGO PLAYERS

Chicago, Feb. 2.—Kansas City bids fair to boast an all-Chicago ball club during the coming A. A. pennant dash. Three of the early birds cast adrift by President Weeghman were gobbled up by Danny Shay, skipper of the Blues, who set about his task of assembling a winner by purchasing Caruso Beck, Artie Phelan and Bibbly Hargrave. The K. C. boss continued to angle for athletes who performed last season under Brenahan and Timber and yesterday obtained John (Red) Murray and Charley Handford, outfielders.

Both outposts were under contract for 1916 and Ticker selected Kansas City as their jumping off place only after failing to plant them in the majors. Murray was a free agent when Brenahan added him to the last season. Handford originally joined in the International league and was among the early vaulters, enlisting with the Buffalo Bids. After one season with that organization Handford was purchased by Weeghman.

Star to Be Out Half a Season

John McGraw, manager of the New York Giants, is looking for a star outfielder, following reports that Dave Robertson, one of the best gardeners in the National league, will not be able to be with the Giants until mid-season.

Robertson is reported to have been injured while on a hunting trip in the south. McGraw was counting largely on Robertson and the newly acquired Benny Kauff, star of the Federal league, to put the Giants in the running.

HAS BIG RAT POPULATION.

New York City Figures Damage Done by Rodents at Tail Sum.

New York, Feb. 2.—This city has a rat population of 2,500,000 and 25 each rat costs the city ten cents a day in damage it does collecting its food. The total cost of sustaining these rats is \$250,000 a day or \$81,250,000 a year according to an estimate by Dr. Sticker Heiser, director of the health commission and formerly director of health of the Philippine islands. Dr. Heiser in an address before the People's Institute last night, advocated a campaign to exterminate the rats.

STRAY FERRET CAPTURED.

John Erwin, 517 East Creighton avenue, captured a full grown ferret at the transfer corner Tuesday evening and it was taken to police headquarters to await a claimant. Several women who were waiting to take street cars were thrown into a state of great excitement while the little animal was racing about, thinking it was a skunk.

DEATH LIST NEARLY EQUALS ADDITIONS

Fifty-One Join Pennsy Roll of Honor and Forty-Seven Old Ones Die.

On January 1, 1916, five men, each of whom have served the Pennsylvania Railroad system more than a half-century, were retired under the operation of the pension rules and placed on the "roll of honor." They were Cyrus J. Herzhberger, engineer, of Pittsburg; John Turner, car cleaner, of Camden; William M. Yoder, of Baltimore, a clerk; George W. McNelly, a switchman, of Philadelphia, and George W. Davis, general freight agent of the Vandalia of Cincinnati. Altogether fifty-one employees were retired January 1, and of this number twenty-two had worked more than forty years each. Included in the list were nine engineers, five clerks, four conductors, four laborers and one general officer. The "roll of honor" now totals 4,561 names and the amount spent in pensions since the plan was established on January 1, 1900, has been \$12,224,590.55. The mortality list of the pension department for December shows that forty-seven pensioners died during that month, which in number is only four short of the members added to the "roll of honor." Of the deceased, thirty-four were on the lines east and thirteen on the lines west of Pittsburg. None were Fort Wayne people.

NEW INDIANAPOLIS LINE.

The report that the Pennsylvania is going to establish a new line into Indianapolis and abandon its present route has been revived with a seemingly authentic foundation. The present route is over the L. E. & W. line from Kokomo southward, and the new route will be an extension of the Vandalia from Frankfort to Indianapolis. Concerning the matter the Peru Chronicle says:

"The six Pennsylvania passenger trains daily and about twenty-five freight trains are operated every twenty-four hours on this line of track on running orders issued from the Lake Erie dispatchers' office in Peru. This amount of business together with the regular traffic of the Lake Erie on the south end of the Peru division make the fifty-five miles about the busiest piece of single track in the country. It is said the new plans provide for the removal of the Vandalia offices to Frankfort if the reports are true. The Pennsylvania, which has had a sudden rush of business, will use the Vandalia yards in Logansport and will do the shipping and other work for the Vandalia in that city. The trainmen and others employed by the Vandalia at Logansport will be taken over by the Pennsylvania and will not be compelled to move."

BOWSER EFFICIENCY CLUB.

"Filtration Equipment" was the first of a series of technical papers to be read at the meetings of the Bowser Efficiency club this season. It was read by F. M. Morrison and it will be followed by others until all of the factory products have received special attention. Mr. Morrison illustrated his remarks with lantern slides and brought out every point so as to make it understood by the hearers, some of whom were not familiar with that subject. The meeting last night closed with a debate on "Preparedness," which proved most interesting and at times amusing to the audience. Vaple, Conklin and Lewis took the affirmative side and Teters, Jachek and Wilson the negative. There were no judges and the hearers were left to draw their own conclusions as to the merits of each side.

BOWSER TALKS TO STUDENTS.

"While you are here to get a start in life—to build a foundation for life and with the idea that you must some day make a fortune—don't lose sight of the fact that reputation will buy more than all the credit in the city of Fort Wayne," was the way S. F. Bowser emphasized one of the points he wished to impress upon the minds of the students of the International Business college yesterday, when he delivered a lecture before them. Mr. Bowser took up the fundamental principles for life's success as his subject and his talk was one of the best of the series being delivered by prominent business men and manufacturers.

OWEN BARRY INJURED.

Owen Barry, a hammersmith at the Pennsylvania blacksmith shop, who is working at nights at present, sustained a painful wound in the forehead last night which has put him out of commission for a while. A piece of steel was thrown out by the hammer at 8:30 o'clock and struck Mr. Barry a glancing blow on the forehead, cutting a gash and bruising the flesh just above the eyes. Mr. Barry has been employed at those shops for over a quarter of a century.

PAY DAYS THIS WEEK.

The Pennsylvania and the G. R. & I. paymasters will be in Fort Wayne this week. The G. R. & I. will pay the employees of the company tomorrow and Friday morning, the car returning here at 4 o'clock Friday to pay the Pennsylvania shop clerks and the following day the Pennsylvania shopmen. The distribution of cash among the employees will be greater than for many years, because of the busy times and the large force in the shops.

A. J. GLUTTING INJURED.

Andrew J. Glutting, of Supt. B. R. Hudson's office, of the G. R. & I., sustained a badly sprained left arm when he slipped and fell on the floor last night. The injury is chiefly in the elbow, but the entire arm is more or less involved and it will be a week or more before Mr. Glutting will be able to use

the limb. He appeared at the office this morning to make a report, but could not work.

WAS MANAGER AT MADISON.

W. S. Goll, who was manager of the Madison works, recently absorbed by the Fort Wayne Electric works, has arrived here to take a position with the local plant. He will have charge of the electric transmission for automobile department, which is new, looking after both the commercial and engineering ends of it.

FORT WAYNE FIRM GETS JOB.

H. J. Collier company, with offices in the Bass block, has secured the contract to build two large bridges for the Erie road on the Greenlake division in New Jersey. The Colliers have also been awarded the contract to build a new stone crushing outfit for the Erie Stone company at Kenton, O. Construction work will be taken up at once.

HAD TWO TOES CRUSHED.

Andrew Bennett, weighmaster at the cupola of No. 5 wheel moulding room at the Bass foundry, will be unable to work for several days because of an injury which was received yesterday afternoon. A heavy piece of iron rolled off a truck and fell on his right foot, crushing two of the toes.

HORSES FOR EXPORT.

Two special trains carrying horses for export to the warring nations passed through the city over the Pennsylvania last night. One train of six cars traveling on express train schedule passed through the city at 7:50 o'clock and another of 18 cars went through the city at 1:30 this morning.

L. E. REHLING RECOVERING.

Louis E. Rehling, of 515 East Taber street, one of the oldest blacksmiths in point of service in the Pennsylvania shops, is convalescing and expects to be out again by Saturday. Mr. Rehling has been sick for three weeks and was in a serious condition for awhile.

CAR WHEEL ROLLER INJURED.

John Sarus, a car wheel roller at the Bass foundry, is at St. Joseph's hospital with a fractured leg. He sustained the injury at 10:30 o'clock Wednesday morning, when a car wheel fell upon him. The company surgeon attended the man.

HIS FINGER IS CRUSHED.

J. B. Buitet, a helper in the Pennsylvania machine shop, had the index finger of his left hand crushed at 8 o'clock this morning, while at work at the shop. He was attended by Dr. Van Sweringen, the company's surgeon.

INDUSTRIAL NOTES.

Machinist John Klingler is sick and off duty from the Pennsylvania shops.

P. A. Etzold, a Pennsylvania tinner, is sick and off duty.

After a week's illness, Nickel Plate Engineer W. Sanders, is on duty again.

Nickel Plate Engineer Grove Miller is taking a lay off to attend to some private matters.

Frank Sprunger, of the Bass machine shop, is off duty on account of sickness.

P. A. Walda, Pennsylvania boiler-maker, is off duty as the result of a badly bruised foot, sustained yesterday.

Fireman Theodore C. Meusing, of the Nickel Plate, is detained at home by the illness of his mother and his wife.

Elmer Wiebke, clerk in the Pennsy machine shop office will spend the weekend in Chicago.

G. Buhr, a Pennsy tank repairer, will be off duty a day or two as the result of being struck on the hand yesterday morning by a piece of flying iron.

H. E. Lomgren, a painter, is looking after private matters today and failed to show up for work at the Pennsylvania shops.

S. Tan, a fluewelder at the Pennsylvania shops, was disabled for a few days yesterday when one of his fingers was badly cut.

John Neff, representing the Locomotive Arch Brick company, of New York was here yesterday and called on patrons among the railroad companies.

Nickel Plate Conductors B. Schondell, M. L. Houlder, C. A. Bowman and W. B. Pierce are off duty for various reasons, none being sick, however.

Machinist Al Stewart, of the Pennsylvania shops, is a victim of the grip and was unable to report for duty this morning.

Boilermaker S. C. Walda, of the Pennsylvania shops, sustained an injury to one of his feet yesterday and will be unable to work for several days.

Conductors W. O. Miller and J. E. Habacker, and brakeman L. F. Smith, who had been laying off, have resumed work.

Nickel Plate Fireman J. F. Baughman, has obtained a two weeks' leave of absence from duty and will visit friends in Cleveland and elsewhere.

Machinist Allen Hamilton, who had been sick two or three weeks, resumed his duties in the Pennsylvania tool room yesterday.

Paul Zimmerman, storekeeper of the Pennsylvania Chicago Terminal division, was here today on business connected with the department.

Pennsylvania Engineer T. R. Davis, who had been off duty on account of an injured eye, reported for work this morning.

Engineers E. W. Crosby and J. W. Sauburn, of the Nickel Plate, are taking a few days off to attend to some private business.

Engineer J. F. Ragan and W. O. Granger, of the Nickel Plate, are sick and off duty. L. Scheerer, another engineer, is off duty to attend to some private business.

Engineer J. I. Stoffer, who was sick and Engineer D. T. Grubb, who had been looking after some private business, reported for duty on the Nickel Plate yesterday.

F. F. Friendly, a tank repairer; F. E. Biody, a boiler-maker, and G. H. Hendrickson and F. H. Suchofski, river boatmen are absent from the Pennsylvania shops on account of sickness.

Jose da la Torre, who came to the Bowser people as a translator of the Spanish and Mexican languages two years ago, has been promoted to salesman with headquarters in Fort Rice.

Blacksmith Rhinehart Sutterlin failed to show up at the Bass works for duty today on account of sickness. Thomas Ross, of the same shop, is off duty on account of the illness of his wife.

J. B. Olinger, a cabinet-maker at the Pennsylvania shops, is off duty on account of sickness. Nick Miller, who had been sick a week, resumed work in the car machine shop this morning.

Floyd Tew, Nickel Plate passenger fireman, is on duty again, after an absence of two or three weeks, on account of the sickness and death of his wife. The remains were taken to his old home in Michigan for interment.

D. C. Tietmeyer, who was off duty on account of the illness of his daughter, and H. Rohrbach who was sick two or three days, resumed work at the Pennsylvania erecting shops this morning.

William Bullock, a Wabash conductor, known to most of all the men in the operating department in Fort Wayne, was buried at Decatur yesterday, following an illness of nearly four years. Mr. Bullock commenced work on the Wabash in 1893.

Freight business on the roads running through Fort Wayne was heavier during the past month than it was during January of 1915. The Wabash probably noticed the greatest gain, there being an increase on that line of upwards of 10 per cent.

A. B. Eckles, of Wellsville, assistant road foreman of engines of the Cleveland and Pittsburg division, was here today on special business connected with the department. He was in conference with Assistant Road Foreman of Engines F. E. More, who recently was down on the C. & P. doing special work.

Henry Roembeck was not able to appear at his forge in the Pennsylvania blacksmith shop this morning. An attack of the grip, with which he has been wrestling for two or three days, put the best of him this morning and he was not able to leave his bed. C. S. Burnsworth and H. E. Richmond, of the same shop, are also off duty on account of sickness.

regarding the fighting in Mesopotamia, saying:

"General Aylmer's forces hold a strong position on the river Tigris. The recent floods have hindered and made a forward movement impracticable."

Gen. Sir John E. Nixon, who has handed over the command of the British forces in Mesopotamia to Lieut. Gen. Sir Percy Lake, will start homeward within a short time."

A Zeppelin airship was sighted off the coast of Ameland, an island of the Netherlands, in the North sea, says a dispatch from Amsterdam to the Reuters' Telegram company. The dirigible balloon was flying low and it probably had lost its bearings, owing to the fog. The coast guard bombarded the Zeppelin, the dispatch adds, more than fifty shots being fired, and it is believed that some hit the airship, which finally disappeared to the northward.

Early Tuesday morning the Zeppelin air fleet, returning from its raid on the English provinces, was heard in the vicinity of Amsterdam. Officers of ships arriving at the Dutch port say that five Zeppelins traveling westward were sighted shortly before the raid took place on Monday.

of vast armament," he continued: "We welcome the fullest discussion."

"We are not a craven people," Gov. Capper declared. "We are deeply patriotic. We are not afraid to fight if we must, but we hope that necessity will never more arise and we pray we shall not be led into temptation."

Superior leaders who had planned to see the president here and endeavor to obtain his endorsement of a constitutional amendment enfranchising women apparently were balked by his going to Gov. Capper's home from the station. Had the president gone to a hotel they were prepared to make energetic efforts to see him.

Receives the Suffragists.

The doors to the auditorium were opened an hour before the president was to speak. At 12:45 most of the seats on the main floor were taken and the galleries were filled. Unlike most of the other audiences the president has faced on his tour, men composed a majority of the crowd.

At the last moment Mr. Wilson consented to receive a delegation of suffragists at Gov. Capper's home. They promised not to detain him more than five minutes.

A program of song was provided to entertain the audience while waiting for the president. One of the songs which was loudly applauded was "Let Us Have Peace." Among the audience were many of the 1,500 members of the Kansas Farmers' union, who met here yesterday.

It was 1:18 o'clock when the president entered the auditorium. The crowd cheered. The delay was due to the reception of suffragists on Gov. Capper's porch as he was starting.

Audience Stands and Cheers.

President Wilson was greeted with applause as he rose after being introduced by Gov. Capper, who said that if necessary at least 100,000 Kansas men would answer the call of the government. Several thousand American flags were dropped from the ceiling. The audience stood and cheered.

The president declares he knew the people of Kansas wanted to know the facts before taking action.

FIRST STOP AT LAWRENCE.

Lawrence, Kan., Feb. 2.—President Wilson arrived here today at 9:25 o'clock a. m. for the first Kansas stop of his midwestern trip. He was greeted by a cheering crowd of several thousand, including students from Kansas university. The temperature was below zero and the ground was covered with snow, but this did not lessen the enthusiasm of the people. The bands played patriotic airs and the students sang and gave their college yell. It was the noisiest crowd the president has met. Half the population of 15,000 was at the station.

SAYS MOTHER-IN-LAW TOOK HER HUSBAND

Wherefore Dessie Poince Sues Aida Hamm for \$2,000.

Alleging that his mother-in-law induced her son, who was the plaintiff's husband, to leave her and procure a divorce, Dessie Poince has begun suit in the circuit court against Aida Hamm for \$2,000 damages. The plaintiff says her mother-in-law threatened to separate them soon after they were married, spoke disrespectfully of her and sought to separate them. Her husband, she says, would go away from her in the morning jolly and pleasant and would return after visiting with his mother in an ugly and unkind mood toward her. Finally, it is alleged, the defendant brought her son to town and with him consulted attorneys about a divorce, got him to file a suit against the plaintiff and paid the costs involved. A divorce was granted the husband of the plaintiff in the superior court November 15, last. P. B. Colerick appears for the plaintiff.

Charged With Grand Larceny.

In the circuit court affidavits charging grand larceny have been filed by Prosecutor Frank A. Emrick against Curtis Spreer, John Smith, Jesse Smith and Howard Criswell, who are accused of robbing John Bousey, a Jefferson township farmer of \$140 in New Haven the night of January 24. All have confessed save Spreer, who still maintains his innocence.

Penningroth Gets \$2 Judgment.

In the superior court Wednesday Judge Carl Yapple announced his finding and rendered judgment in the suit of August C. Penningroth vs. the Fort Wayne Rescue Home mission for \$2,000 damages, giving the plaintiff \$2. Penningroth's judgment was based on the actual damages the court found he had suffered by reason of having had his water supply cut off by the defendant, of whose building the plaintiff was an occupant.

Wiekbes Again Seek Injunction.

For the second time within a few weeks Fred D. Wiekbes and four others of the Wiekbes family have filed suit in the court to procure an injunction restraining the board of park commissioners and the city of Fort Wayne from proceeding with the proposed paving of Rudisill boulevard. The action just begun in the circuit court makes the Grace Construction company, which has been awarded the contract to pave Rudisill from Piqua avenue to Broadway, is made a party to the suit. In the complaint it is alleged that the cost of the improvement will be in excess of 50 per cent. of the assessed valuation of the property affected, that the materials specified in the contract are not of the sort known as modern pavements; that the proceedings were irregular and that an unfair and illegal charge of \$600 for "overhead" cost has been made by the park department and made a part of the assessment for the paving. The complaint was filed by Harper & Fuestler. The Wiekbes have been steadfastly resisting all steps for the paving of Rudisill boulevard.

Notes of the Courts.

Edwin L. Martin has begun suit in the circuit court against Harman Sheets and Harmon Sheets, trustees, to collect \$192 on a contract. F. H. Kleekamp is attorney for the plaintiff.

John H. Auferdebe has begun suit in the superior court against Wade Bates to foreclose a chattel mortgage, demanding \$89.40. Ryan & Aldrich appear for the plaintiff.

Josephine Hugganjo has commenced an action in the superior court against Gustav Hagganjo for divorce, alleging cruel and inhuman treatment. She says the defendant beat her and drove her from their home three or four times, compelling her to seek shelter for herself and two children, of which she asks custody, at the home of her parents. Emrick & Emrick are her attorneys.

The superior court has granted a divorce to Maud Franks from Herbert Franks and restored her maiden name of Fish.

Our store will be closed all day tomorrow to allow us to arrange for our GREAT HALF-PRICE SALE, the sale of all sales, which will begin Friday morning. "You know what to expect."

PATTERSON-FLETCHER CO.

Fort Wayne real estate men say that a clause in a deed excluding saloons from additions adds \$50 to \$150 in value to the lot, and in the case of the better grade of residence districts it adds much more than this. Move the saloons downtown and raise the value of your property.

Our Great Half Price Sale that begins Friday morning will be the greatest of all our sales. Not as much clothing will be sold at Half Price this time as we sold a year ago, but much more will be offered at twenty per cent. discount, which will mean less than half of next falls prices for clean staple merchandise. Our store will be closed tomorrow.

Resolutions Adopted and Eulogies Spoken for Dead Lawyer.

The Allen County Bar association assembled in the circuit court room, Wednesday morning at 10 o'clock, when the members joined in paying tribute to the memory of Hon. Perry A. Randall, long a member of the association and one of its most honored and distinguished associates.

Resolutions were adopted expressing the sorrow of the association over the sudden and almost tragic death of Mr. Randall and members of the association paid personal tributes in sincere and eloquent eulogies of the life and character of the dead lawyer.

Brief addresses were made by Judge Robert S. Taylor, Judge William J. Vesey, Hon. James M. Barrett, John Morris, James B. Harper, Frank H. Kleekamp and Harry F. Kennerk.

The association directed that a floral tribute be purchased to place upon the casket of its deceased member and made arrangements to go in a body to attend the funeral services in the First Presbyterian church.

There was an unaffected manifestation of grief over the death of Mr. Randall. The older members of the bar had known him almost from his youth and personal esteem for him was sincere and warm.

Charles M. Nizer and Harry F. Kennerk were appointed a committee to provide the bar's floral offering. Hon. William P. Brown, president of the Allen County Bar association, presided at the meeting.

Resolutions Adopted.

The following resolutions, presented by the committee designated for that purpose were adopted:

TRIBUTE OF BAR TO HON. P. A. RANDALL

Charles M. Nizer and Harry F. Kennerk were appointed a committee to provide the bar's floral offering. Hon. William P. Brown, president of the Allen County Bar association, presided at the meeting.

Resolutions Adopted.

The following resolutions, presented by the committee designated for that purpose were adopted:

"Perry A. Randall was born near Avilla, Noble county, Indiana, on July 24, 1847. His father, Edwin Randall, was a pioneer settler and a prominent citizen who in the early days served as associate judge of the probate court of his county, and earned the title of Judge Randall for the rest of his life. The son, Perry, came to Fort Wayne to attend the high school of this city, from which he was graduated in 1867. He then entered the University of Michigan, taking both the literary and the law course and was graduated in 1873.

"Shortly afterwards he moved to Fort Wayne, and was admitted to the bar and entered upon a general practice in which he was highly successful. He was first associated with Judge James A. Fay, whose daughter he married. In 1881 he formed a partnership with Mr. W. J. Vesey, which continued a number of years. At various times afterward he was associated with Gleason W. Seavey, Newton D. Doughtman and Charles Nizer.

"Mr. Randall was a man of intense activity, both of mind and body, and was greatly interested in the up-building of the city. At the time the Fort Wayne Electric Light company was organized by Ronald T. McDonald, Mr. Randall, with John H. Bass, Oscar A. Simons and Henry G. Olds, were on the board of directors. He was active in the work of home building in Fort Wayne. He organized the old Tri-State Building and Loan company, of which he was one of the directors until it was succeeded by the Tri-State Trust company, at which time he sold out his interest. But he continued to interest himself in home building and built some houses in South Wayne and elsewhere as personal investments. Mr. Randall was the friend of all enterprises that promised benefit to Fort Wayne, and was pre-eminently active on behalf of the proposed Chicago and Lake Erie waterway. The first public meeting to push this project met on November 16, 1907, and from that time on he was president of the canal association and the most active member in it. Since that time he has done an immense amount of work for the canal project and for waterways in general and has been known all over the country for his interest in this subject. Some years ago he was elected a director of the National Rivers and Harbors congress and he held this place until the time of his death.

"He was president of the Commercial club for one term. He was an active member of the Masonic order, being at the time of his death a Scottish Rite Mason of the 32d degree.

"But above and beyond all business and civic virtues were his lofty integrity and generosity of character. His word was as good as his bond, and all his undertakings were carried out with scrupulous honesty. No deserving cause ever found him deaf to its appeal. He was the prime mover in the organization of the local Anti-Tuberculosis league and was its president for two full years and was serving the third at the time of his death.

"Mr. Randall was married twice. By the first union he left surviving three children: A son, Fay Randall, a lawyer and two daughters—Mrs. Harry Culbertson and Mrs. Frank A. Sawyer, both of Montclair, New Jersey.

"One of our noblest and best citizens has left us. We will cherish his memory with affection and hold up the example of his life and virtues to the younger members of the bar as one to be studied and emulated.

"R. S. TAYLOR.
"JAMES E. GRAHAM.
"THOMAS E. ELLISON.
"CHARLES M. NIZER.

Resolutions by Commercial Club.

Appropriate resolutions on the death of Mr. Randall were passed Wednesday afternoon at a meeting of the directors of the Commercial club. Mr. Randall was the first president of the Commercial club, and always took an active part in all work that had for its purpose the betterment and advancement of Fort Wayne. At the time of his death he was a member of the waterways committee of which he was the president.

Remains Taken to Cathedral.

The remains of Mr. Randall were removed Wednesday morning to the Scottish Rite cathedral, where, in the seclusion of the ladies' room they will rest for the present as in the family home.

As soon as Mr. Randall's children reach the city and definite arrangements are completed for the funeral service, announcement will be made of hours in which the general public may view the remains of their dead friend. It is now expected that the funeral service will be held on Friday or Saturday.

GERMANS MAY SINK APPAM

effects taken from their enemies without being obliged to pay any duties, charges or fees to officers of the admiralty of the customs or any others; nor shall such prizes be arrested, searched or put under undue processes when they come to and enter the ports of the other party, but may freely be carried out again at any time by their captors to the place expressed in their commissions, which the commanding officer of such vessel shall be obliged to show.

"But, conformably to the treaties existing between the United States and Great Britain, no vessel that shall have made a prize upon the British subjects shall have a right to shelter in the ports of the United States, but if forced there by tempest or any other danger of accident of the sea they shall be obliged to depart as soon as possible."

Give Right to Come and Go.

This latter provision would have compelled the departure of the Appam to the almost certain fate of British cruisers of the capes, but the treaty expired by limitation in 1810. When it was renewed this latter provision which removed British vessels from the scope of the article was specifically eliminated and the treaty of 1828, which now is in force, gives German prizes the right to come and go.

The neutrality board met today to consider the case with all the treaty provisions which bear upon it. Secretary Lansing also considered the case.

Sir Cecil Spring-Rice, the British ambassador, today formally asked Secretary Lansing for the release of the Appam and return to the British owners according to article 21, which the British authorities claim has superseded the Prussian-American treaty. The secretary took the ambassador's argument under consideration.

British officials here scout the theory that the raider Mowee slipped through the Kiel canal and got into the Atlantic. They have a theory she is a German merchantman which got out of an Azores port nearly a year ago and has been missing since. They have no theory as to how she got the armament.

GERMANS MAKE STUDY OF THE NEAR EAST

Lay Plans for Economic Exploitation of Turkey After War.

Berlin, Jan. 15.—(Correspondence of The Associated Press).—The society recently organized for the economic study of the Near East has begun a course of lectures at the University of Berlin, which is one of many indications that the economic exploitation of Turkey after the war is already engaging much attention here. The first lecture was given by R. Junge, who has spent many years in study of economic conditions in the Near East, and who has just published a book under the title of "The Europeanization of Oriental Business Life."

The society referred to is made up of a number of university professors, students of economics, and business men interested in the development of Turkey. It appears, however, that there is some disconcertment among the various authorities on the subject as to whether Germany will find as great an opportunity for trade in Turkey as some of the more optimistic writers expect. Prof. C. H. Becker, of the University of Bonn, in an article in the Cologne Gazette notes the large number of young men who are taking up the study of Turkish and Arabic in the hope of putting their knowledge to good account when the war is over, and he says that German hopes in this regard are not only exaggerated but childish.

Prof. Junge's book, which is the first of a series to be brought about by the society that is studying the eastern economic situation, also contains a warning against excessive optimism on the part of Germany. Prof. Junge spent five years investigating the Russian attempt to Europeanize Turkestan, and he warns the Germans against repeating the methods which Russia tried in that part of the Near East. The Russians, he declared, had taken only a merchant's view of the opportunities presented. They had worked the markets for all it was worth without looking to the future. Occidental fashions were introduced in order to increase the demand for European goods, and similarly, imports were forced by other means. Long credits were extended that involved the Russian merchant in the fate of the native buying firms and he was finally obliged to squeeze the latter for payment, with the result that many of the native firms were ruined. Valuable Oriental goods of artistic design were imitated by European factories and sent into Turkestan to displace the home product.

In suggesting a commercial policy for Germany in Turkey, Prof. Junge declared that Turkish business life should

be allowed to remain Turkish instead of being made German. Germany, he said, should indulge in no thought of making Turkey a part of the German economic system. He even favored a protective policy in Turkey's behalf which should act against imports from Germany as well as those from other countries.

In making a number of recommendations for the rejuvenation of Turkey economically, he said that one essential was a far-sighted credit system, with special reference to the needs of farmers and other small borrowers. Railways and highways must be built extensively, agriculture rationally reformed by means of experiment stations and model farms. A topographical survey of all sections of the country available for agriculture must be made, he said, to serve as basis for a wide-reaching system of irrigation. In the foreign trade the Oriental system of long credits should be abolished, he declared.

How Mr. Davis Got Rid of a Bad Cough
"Some time ago I had a very bad cough," writes Lewis T. Davis, Blackwater, Del. "My brother McCabe Davis, gave me a small bottle of Chamberlain's Cough Remedy. After taking this I bought half a dozen bottles of it but only used one of them as the cough left me and I have not been troubled since." Obtainable everywhere.—Advertisement.

Chorus Girl Made Heiress by Death of English Officer

PAT PEEL

From a mere chorus girl in a London revue, she has suddenly become an heiress through the death at the front in France of Lieut. E. R. Muloch, who left her a fortune of \$60,000.

Boys Operated with a System.

The boys operated with a system. Two to three of them would act as scouts. When they saw a bicycle left at a curb, two of them would watch for the owner while the third jumped on and rode it away. After they had stolen a half dozen bicycles they took them apart and changed them so much that the owners could not identify them. Finally one of the boys got "cold feet," he said, and returned a bicycle he had stolen. However, he had changed the pedals in the meantime and the owner saw there was something wrong.

An investigation resulted in the arrest of the eight boys. All declared they got their ideas from "dime novels" and motion pictures.

Make Your Own Stomach Medicine at Home

Simple, Inexpensive, Effective.

Many people seem to think that the best medicines are to be had only upon the prescription of a high-priced specialist, but there are many simple things that can be obtained for a few cents which often do the work even after the best doctors have failed.

How many stomach sufferers have ever heard of concentrated liquid marix? Perhaps not one in ten, yet here is something that any good druggist can sell you and which is said to produce astonishing results in cases of indigestion, dyspepsia, gas, belching, bloating, pains and heart palpitation after meals and similar indications of stomach disorders.

It is a simple thing—perfectly harmless—and the best way to prepare it is to get two ounces of liquid marix (concentrated)—cost about fifty cents and an empty eight ounce bottle. Take these home, pour the marix into the bottle and add water enough to fill it. The dose is a teaspoonful before each meal and the quantity—eight ounces—will last for several weeks. Those who know of it and have tried it, say it is not only the simplest, but one of the finest things persons troubled in this way can take and that relief is usually felt within a few minutes.

Being in liquid form it has the advantage over the many medicines in pill or tablet form. The rapidity with which it reaches the affected parts and brings relief to the sufferer is the best proof that it is readily assimilated by the stomach.

Committee on Missions—Miss May Trentman, Miss Anna App, Miss Augusta Vieberg, Miss Helen Freiburger, Mrs. Celia Galland.

Committee on Catholic Literature—Miss Grace Hogan, Miss Mayme Nussbaum, Miss Teresa Requette, Adolph Keller, Miss Catherine Lordie. An additional member will be elected on this committee at the next session.

100 MEN EXPECTED
TO ATTEND BANQUET

The first annual banquet of the Men's Bible class of St. John Reformed church, of which Rev. J. H. Bosch is teacher, will be given Wednesday evening in the auditorium of the school hall, Washington and Webster streets. Officials are planning for 100 men of the church. This is the first event of its kind ever given by this organization since its existence of half a year.

Rev. F. H. Diehm, of the Reformed church of Huntington, will be the principal speaker of the evening. Other addresses will be given by Rev. F. W. Knatz, of Salem Reformed; Rev. John Winter, of the Orphans' Home, and Rev. J. H. Bosch, Christian Hesser, president of the class, will preside as toastmaster and responses will be given by members of the class and of the Ex-cenda Bible class and the German Bible class of the church. The two latter classes have been invited and will attend in a body.

One of the best quartets of the city, composed of Theodore Haherkorn, Wilbur Gidley, Earl Siebold and Fred Bloemker, will furnish music for the evening. Other social events have also been planned by the committee in charge.

REV. DANIEL BURGHALTER, D. D.

Will Speak at Salem Reformed Church Sunday Evening at Missionary Day Exercises.

Rev. Daniel Burghalter, D. D., field secretary for the Foreign Mission board of the Reformed churches of America, will speak at the morning and evening services at Salem Reformed church, Sunday. This will be Foreign Mission day at the church on Clinton street between Berry and Wayne streets. Rev. Burghalter is a gatling-gun dispenser of missionary information and Salem church is to be complimented on securing his services. A special offering will be taken for missions. The services will be in the English language.

some extent in Washington. St. Joe and Adams townships by reason of the annexation to Wayne townships of such parts of the others as embraced parts of the city of Fort Wayne. Changes were made also in Cedar Creek. The legislature of 1915 passed an act by which the 1914 registration became permanent in unchanged precincts for all voters registering in them in 1914. There will be registration for first voters and other voters who have moved into the precincts since the last registration. In Fort Wayne and the five townships named a registration day will be held twenty-nine days previous to the election. In the other townships first voters and voters who have moved in will have a special registration.

MUST REGISTER IN
FIVE TOWNSHIPS

The voters in Wayne, Washington, St. Joe, Adams and Cedar Creek townships will have to register this fall to qualify themselves to vote at the November elections. Voters in the other

fifteen townships registered voters will be exempt from this necessity. This was the decision reached Tuesday afternoon at the conference of a committee consisting of Democratic County Chairman W. A. Johnson, County Auditor Will Johnson, W. H. LaTourrette, J. W. Garman and Francis E. Moore, representing the political parties. In those townships where no changes have been made in precinct boundaries and where the registration books of 1914 are available registration will not be necessary. The precincts were changed quite extensively in Wayne township and to Erie freight office in the absence of one of the clerks who is ill.

Mr. and Mrs. O. L. Vance had as their guests Mr. and Mrs. Thurman Porter, of Parker City; Lanta, Carol, Fanny and Gail Buchanan, of Fort Wayne, and Mrs. H. H. McGill.

At West Baden, Indiana, lives L. W. Sinclair. He is a grand old man, 80 years young, hale and hearty

HERMAN BILL, Pharmacist.

Baden Sprudel Water overcomes constipation and its attendant ills—headache, stomach upsets, lazy liver, rheumatism. It cleanses, tones and invigorates—furnishes the spark of ambition—helps man over the hard spots on the road to success.

The Mother Spring, at West Baden, Indiana, is a busy place. There they bottle this excellent laxative water and druggists everywhere sell it—large bottles for 50c, small ones for 15c. Many people buy it by the case, and those who appreciate good health drink at least a glassful of it once a week. It's the greatest bowel exerciser you ever heard of. Indoor workers and others leading sedentary lives should get acquainted with this splendid natural laxative water.

Herman Bill is a pharmacist in whom hundreds of Fort Wayne people place great dependence and entire confidence. His store at 1101 East Pontiac street is a busy place, and his advice concerning West Baden Sprudel Water is the honest opinion of a professional man who knows what's best for humanity.

WOULD PLACE POWER BEHIND HIS WORDS

Needed to Back Up Letters
of Protest, Declares the
President.

Des Moines, Ia., Feb. 2.—President Wilson in addressing the largest audience of his present trip, in which he is advocating preparedness, here last night asked this question:

"Do you want the situation to be such that all the president can do is to write messages and utter words of protest?"

"Why, to ask that question is to answer it," he said.

"Whenever international law is violated by one or the other belligerents," the president said, "America was called upon to register a 'voice of protest of insistence.'"

"Do you want the situation to be such that all the president can do is to write messages and utter words of protest? If these breaches of international law which are in daily danger of occurring should touch the very honor of the United States, do you wish to do nothing about it? Do you wish to have all the world say that the flag of the United States can be stained with impunity? Why, to ask the question is to answer it."

"I know there is not a man or woman within the hearing of my voice who would wish peace at the expense of the honor of the United States."

Applause is thunderous.

The president's address was punctuated with thunderous applause. He spoke slowly and gravely with emphatic gestures to enforce his words. His declaration that the United States wanted peace drew a quick response and his assertion that the self-respect of the nation must be preserved, elicited another great demonstration. A throng that filled every seat in the Coliseum cheered him to the echo.

The president declared he was trying to weigh carefully every word he said. He reiterated that he had been daily charged to keep the country out of war and also to uphold its honor.

"And many a night when it has seemed impossible for me to sleep," he said, "because of the apparently inextricable difficulties into which our international relations were drifting, I have said to myself 'I wonder if the people of the United States fully know what that mandate means to me' and then sleep has come; because I know that there was not a community in America that would not stand behind me in maintaining the honor of the United States."

"The difficulty of keeping America at peace during this Titanic struggle across the sea cannot be disclosed now; perhaps it never can be disclosed. How anxious and how difficult this task has been. But my heart has been in it. I have not grudged a single burden that has been placed upon me with that end in view. For I know that not only my own heart, but the heart of all America was in the cause of peace."

Cannot Be An Ostrich.

There are actually men in America who are preaching war, the president declared; men who want the United States to have entangling alliances abroad. He said he did not think they spoke the voice of America, which he declared to be for peace.

He added that others go further than he in advocating peace. "They preach the doctrine of peace at any price," he added, while men in the audience called, "never, never." He said these men did not know the circumstances of the world.

"America cannot be an ostrich with its head in the sand," he said.

The president declared he hoped if this war had no other result it would create an international tribunal to settle the questions which cause war. His declaration that he had found the people of the middle west for preparedness drew long applause.

"Some one who does not know our fellow citizens as well as he ought to know them told me there was a certain degree of indifference and lethargy in the middle west with regard to the defense of the nation," he declared.

"I said I did not believe it, but was going out to see. I have seen what I expected to see—great bodies of serious men and women coming together to show their interest in the object of my visit."

The president closed with a tribute to the American flag.

"As I look at that flag," he said, "I seem to see many characters upon it which are not visible to the physical eye. There seem to me ghostly visions of devoted men who, looking to that flag, thought only of liberty, of the rights of mankind, of the mission of America to show the way to the world for the realization of those rights. And every brave and every brave man in the country would seem to have upon it the colors of the flag if he were a true American—red to mean to have on it that stain of red which means the true pulse of blood; that patch of pure white which means the peace of the soul. And then there seems to rise over the graves of those men and to hallow their memories that blue space of the sky in which swim those stars which exemplify for us the glorious galaxy of the states of the union which stand together to vindicate the rights of mankind."

H. F. MOELLERING ELECTED.

Henry F. Moellering, of the firm of Moellering Brothers & Millard, was elected a director of the Peoples Trust and Savings company at the regular monthly meeting of the directors Tuesday evening. Mr. Moellering was named to fill the vacancy caused by the death of his brother, William F. Moellering.

Our Price Tickets Tell the Story

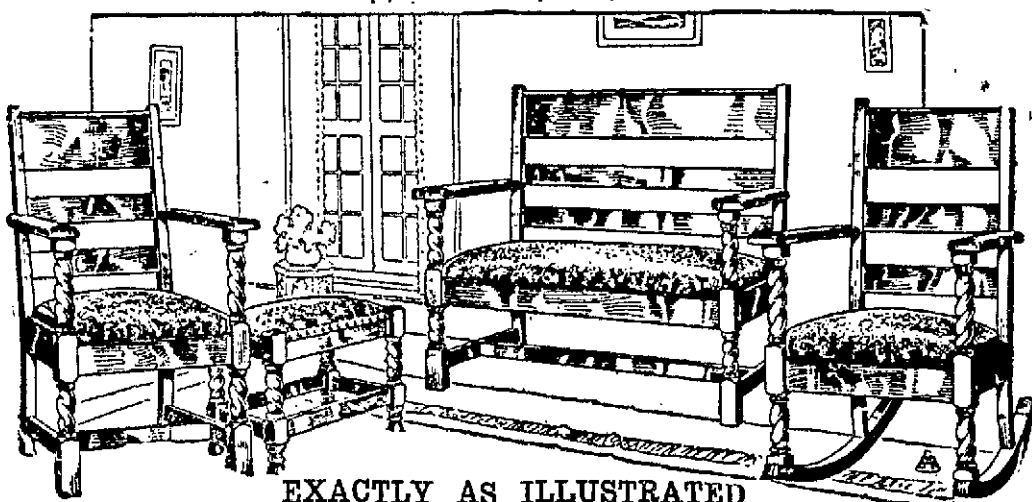

They speak volumes—they tell of savings that make you wonder how it is possible!

The original price tags stay on each piece of furniture and the sale price tags are merely slipped over them so that you can see the saving effected on each article.

Back of these reduced price tickets are months of planning, and they clearly emphasize the great influence our buying power has with the manufacturers. By doing our buying jointly with seventy-five of the leading furniture stores of the country, we are able to make it an object to the manufacturers to grant us price concessions.

This Great February Sale

Is the biggest selling event we have ever held. Every department is represented, and convenient credit terms apply on everything.

EXACTLY AS ILLUSTRATED

**This Beautiful Four-Piece
Jacobean Library Suite**
Upholstered in Genuine
Leather or Tapestry . . . **\$34.50**

We want to impress upon you very forcibly that the illustration seen above is not drawn from imagination, but traced over photographic blue print and consequently every feature of this set is shown in actual proportion: There has been no attempt at exaggeration, even though it may seem almost incredible that seven pieces of furniture of the character pictured above should sell for so little.

Coil Spring Construction Seat

—An Important Feature.

The hidden parts of this classic suite are just as high in their quality as the surface. This suite was built to wear well as well as look well. The seats are deeply stuffed over heavy coil springs, and you can select either the very fine tapestry, as pictured above, or the genuine leather, just as you prefer.

The Finish is Unequaled in the

Highest Priced Furniture.

It makes no difference whether you select the Jacobean fumed oak finish or the mahogany finish. In either case you are going to get the very finest finish possible to apply to wood. The factory that produces this parlor suite is well known for its skilled workers. The finish they apply to their furniture will stand the test of time.

Selling Furniture of This Quality

on These Low Credit Terms.

It is quite an achievement. To be able to sell this suite at this low price would be considered almost enough by most stores, but not so with this firm. We realize that in order that the greatest number of people might avail themselves of this low-price opportunity we must supply low credit terms to suit you.

LEAVES TO HUNT GOLD IN THE NORTH

Alaskan Railway Opens Up
Immense Fields, Ex-
plorer Says.

New York, Feb. 2.—Prof. Herschel C. Parker, who climbed Mount McKinley, will start in a few days on another trip into Alaska, this time to prospect for gold. A farewell dinner was given in his honor at the Hotel Belvedere by the Explorers' club.

The opening of the government railroad from Seward, the northernmost open port of Alaska, to Fairbanks, will make available practically all the vast territory west of the line. This includes the Matanuska coal fields, 150 miles north of Seward, and the greater part of the remainder is known to be a rich field for placer gold mining. Professor Parker is going in the interests of one or more business men whose names he would not give.

"The day of the small prospector is gone in these fields," he said. "It costs many thousands of dollars to start placer mining. Nothing has been done so far because it was impossible to get the machinery up the shallow, rocky rivers, but the road will open the territory. The profits are sure. There is no gamble in prospecting there."

"It is one thing to the credit of the administration that the western route was taken," he said, "in spite of the influence of wealthy men who wanted it to go by the easterly way. The government should be paid amply for the 20 million dollars it spends for the boom that the gold fields alone will bring."

INHERITANCE TAX OPINION

Masonic Lodges and Similar Organizations Exempt, Says Stotsenburg.

Indianapolis, Feb. 2.—Evan B. Stotsenburg, attorney general, has given an opinion to the inheritance tax department of the state board of tax commissioners, in which he said that Masonic lodges, and other organizations of similar character, where they are beneficiaries of legacies, are not amenable to the provisions of the inheritance tax law, if they are of the class of institutions known legally as charitable, and if the property that is bequeathed to them is to be used solely for the purpose of the organization.

The opinion said, in part: "Such societies are exempt from the payment of the inheritance tax where the property can be considered as having been devised to a charitable institution for the purpose of its organization. It has been held in Indiana, that a devise to a Masonic lodge is a devise to charitable uses."

WISCONSIN ENDORSES WILSON.

Milwaukee, Feb. 2.—President Wilson was commended for all his acts and his appointment of Louis D. Brandeis as associate justice of the supreme court upheld in resolutions adopted by Wisconsin democrats in convention here yesterday. This is said to be the first state convention to endorse the president.

Five hundred delegates attended the meeting, which was held in the same hall where President Wilson spoke to

9,000 persons Monday. The following were placed in nomination for delegates at large to the St. Louis convention:

United States Senator Huston, Judge John C. Karel, of Milwaukee, William Wolfe of La Crosse, George Hilton of Oshkosh, and M. J. Sholey, mayor of Kenosha. Of these four will be elected.

Merchants in a number of the towns in northeastern Indiana held a meeting Tuesday at the Anthony hotel.

WHAT WILL POOR OLD NEW YORK DO NOW?—CHORUS GIRL FAMINE IS SENSATIONAL REPORT FROM BROADWAY.

Broadway has lost its blase air for once—and the reason is the famine of chorus girls. Theatrical managers are in despair.

Girls in "Town Topics" shown with Trixie Friganza in the upper row of the picture above and the "Stop! Look! Listen!" girls, shown in the bottom row

are guarded day and night for fear some other managers will kidnap them. The wave of war prosperity that is sweeping the country is given as cause,

RELIGION, TEMPERANCE AND HEALTH

CHEERY OMENS FOR TEMPERANCE

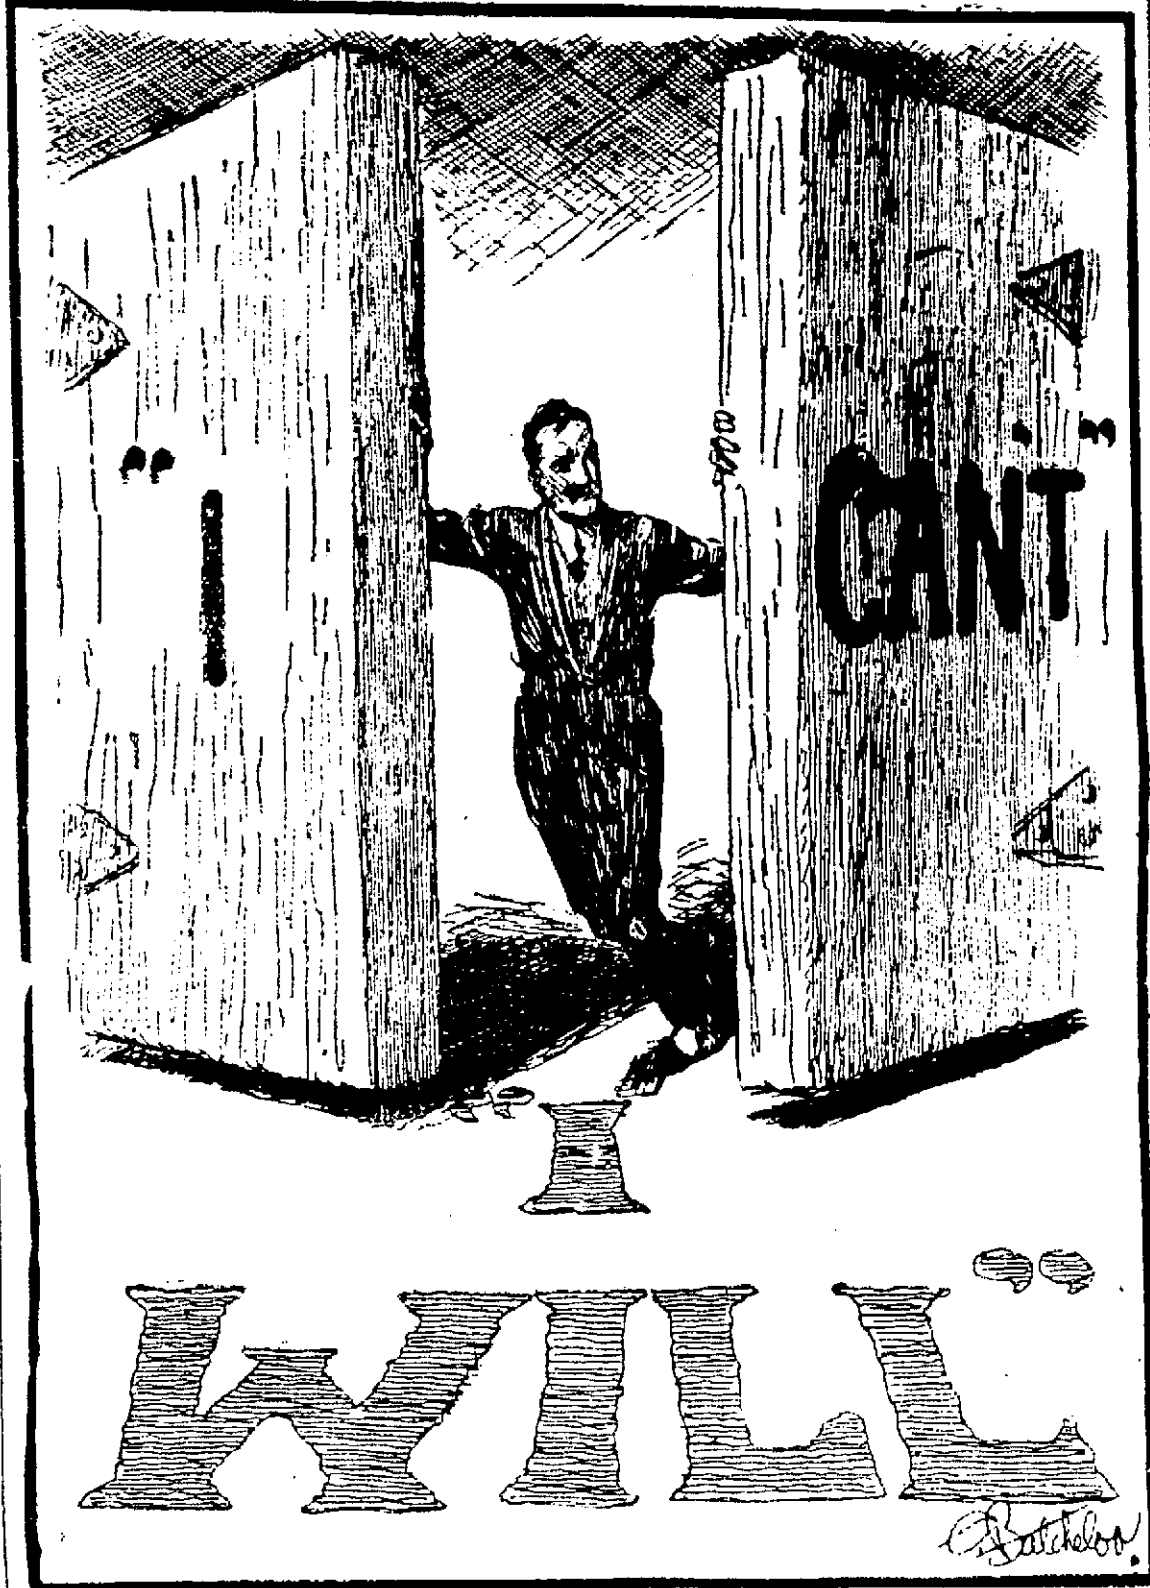

Surely no temperance man need be downhearted in the opening of this new year, 1916. On the 1st of January saloons disappeared from seven states of the American union, and \$9,000,000 more Americans were set free from the demoralizing associations of the legalized liquor traffic. Iowa, Colorado, Idaho, Oregon, Washington, Arkansas and South Carolina, thus added to the column of prohibition states, make the total now eighteen, and when Virginia put in effect her already adopted law on the 1st of next November, she will count nineteen.

To be sure, Washington is to vote on the issue again that same month and may possibly reverse—although victors of the 1914 fight don't think there is any real danger of it. On the other hand, Nebraska, Michigan, South Dakota, Vermont and Alaska will each ballot on ousting their present saloons, and two or three big temperance victories are pretty sure out of that list. There is also more than a chance that Ohio and California will likewise be found voting on the question. Whether, therefore, the federal prohibition amendment does or does not pass congress, it is clear that 1916 will record itself a year of memorable prohibition advance.

Meanwhile, across the international boundary to the north progress in the same good direction is no less rapid. Following close after the big success which won over to the "dry" policy the night Canadian province of Alberta, comes cheering news that the sturdy old island colony of Newfoundland has voted out the liquor business by a ratio of nearly five to one on ballots cast. The statute providing for the election was indeed so worded that every elector who for any cause failed to get to the polls was counted as favoring the whisky side; nevertheless, the temperance forces exceeded by about 400 votes the total stipulated for success.

Turning back to Canada again, one finds the province of Ontario seething already with a campaign which is to culminate in July and which in the eyes of careful political prophets promises good hope of ending the liquor trade in all the teeming territory that looks to Toronto as capital and metropolis. George A. Warburton, the widely known Young Men's Christian Association secretary of that city, has accepted the executive leadership of the movement, and his extraordinary organizing ability is counted on as an invaluable asset in helping the cause.—The Continent.

SWING OPEN THE DOORS.

"I can't" bars the way to success. It looks a formidable obstacle, but if you go at it with determination, the doors will swing open easily enough, and you'll find "I will" overcoming every hindrance.—From the Los Angeles Herald.

A Universal Remedy.

There is probably no single article in the world which possesses such curative powers as water. If it cost a dollar a pint, and had to be brought a thousand miles, physicians would no doubt prescribe it, and people would be anxious to purchase it. But it is, perhaps, too cheap and convenient to come into general use.

About three-quarters of every human body is warm water, and the presence or absence of this fluid in due proportion has more to do with health than almost any other condition of our existence. A man can live upon water three or four times as long as he can upon dry food; in fact, nothing is fit for food unless it contains a large percentage of water. And for a large proportion of the diseases which men suffer, water is the most prompt and efficient remedy. In cases of croup, colic, neuralgia, congestion, sore throat, or rheumatism, there is probably nothing which will so promptly relieve distress and dangerous symptoms as pure hot water. In fevers, nature cries out for water with unutterable desire; and it is often the only remedy which can satisfy and relieve the sufferer.

Water, as the medium through which life is communicated and sustained, is a most fitting emblem of the Spirit of the Lord, which falls like rain upon the thirsty soul, which abides within like a well of water springing up into everlasting life, and which, like rivers of living water, flows forth to satisfy the longings of a dying world. The Saviour says, "If any man thirst, let him come unto me and drink: he that believeth on me, as the scripture hath said, water shall flow rivers of living water." Blessed are they who know, by glad experience, that "these are the true signs of God," and who have proved that he that drinketh the water that Jesus gives, shall never thirst, for the water that he bestows shall be in him a well of water, "springing up into everlasting life."

BY THEIR FRUITS

We must bear some kind of fruit, and by our fruits we are to be known. Of what use is a barren tree, which is fruitless from year to year? "Cut it down, why cumbereth it the ground?" We may talk of repentance and prove its necessity, but if there is no fruit to prove it, in ourselves, what does it avail? "Bring forth fruits meet for repentance," was the word of the great Forerunner.

How little deep sorrow for sins committed is manifest among men. How little weeping is seen over past wrongs. Much is said about faith: "believe on the Lord Jesus Christ, and thou shalt be saved," but does not faith bring forth fruits of righteousness? By the fruits we know the tree. The fruit of the spirit is love, joy, peace, long-suffering, gentleness, meekness. What blessed fruit are these! The same tree does not bring forth good and evil fruit. Where one grows the other is absent. We cannot serve God and mammon.

The Certainty of Christ's Coming.

This second epistle, beloved, I now write unto you: in both which I stir up your pure minds by way of remembrance; that ye may be mindful of the words which were spoken before by the holy prophets, and of the commandment of us the apostles of the Lord and Saviour: Knowing this first, that there shall come in the last days scoffers, walking after their own lusts, and saying, Where is the promise of his coming? for since the fathers fell asleep, all things continue as they were from the beginning of the creation. For this they willingly are ignorant of, that by the word of God the heavens were of old, and the earth standing out of the water and in the water: Whereby the world that then was, being overflowed with water, perished: But the heavens and the earth, which are now, by the same word are kept in store, reserved unto fire against the day of judgment and perdition of ungodly men. But, beloved, be not ignorant of this one thing, that one day is with the Lord as a thousand years, and a thousand years as one day. The Lord is not slack concerning his promise, as some men count slackness; but is long-suffering to us-ward, not willing that any should perish; but that all should come to repentance. But the day of the Lord will come as a thief in the night; in the which the heavens shall pass away

with a great noise, and the elements shall melt with fervent heat, the earth also and the works that are therein shall be burned up. Seeing then that all these things shall be dissolved, what manner of persons ought ye to be in all holy conversation and godliness, looking for and hastening unto the coming of the day of God, wherein the heavens being on fire shall be dissolved, and the elements shall melt with fervent heat: Nevertheless we, according to his promise, look for new heavens and a new earth, wherein dwelleth righteousness. Wherefore, beloved, seeing that ye look for such things, be diligent that ye may be found of him in peace, without spot, and blameless. And account that the long-sufferings of our Lord are salvation; even as our beloved brother Paul also according to the wisdom given unto him hath written unto you: As also in all his epistles, speaking in them of these things; in which are some things hard to be understood, which they that are unlearned, and unstable wrest, as they do also the other scriptures, unto their own destruction. Ye therefore, beloved, seeing ye know these things before, beware lest ye also, being led away with the error of the wicked, fall from your own steadfastness. But grow in grace, and in the knowledge of our Lord and Saviour Jesus Christ. To him be glory both now and for ever. Amen.

Building His Own Prison

"Whatsoever a man soweth, that shall he also reap." (Gal. 6:7).

A wealthy contractor in his prosperous days did a business of a half million a year, but when caught in hard circumstances, forged a note for \$2,000, and was convicted and sentenced to imprisonment. The building of the Tombs in New York was his last large contract, and into it he stepped as a prisoner. "I never dreamed," he said, "when I built this prison, that I should be an inmate one day. But here I am. It is hard luck."

"Every man imprisoned in sin has built his own prison. The retribution which wrongdoing brings is not an arbitrary punishment inflicted by the revenge or caprice of an outside judge or fate, but it is just the necessary consequence of the wrong itself. Drunkenness shuts a man up in his own habits, as unyielding as stone walls and iron bars, and with his own fiery appetite, and no worse prison could he have. Yet he built it himself." But there is one who can open even these self-made prison doors. Accept His offer of grace, and go forth free in Christ; free from all habits that destroy body and soul.

THE HARVEST OF TEARS

The beautiful hymn, "Abide With Me," was written in 1847, by Rev. Henry Francis Lyte, when he was in the final stage of disease. His life was one of disappointments. His ambitions were crossed, his affections were betrayed, his health failed. Though of gentle birth and high scholarship, he was placed in what he himself called "a dreary Irish curacy." But he was not permitted to linger even there; failing health compelled him to relinquish his charge in an attempt to prolong his life in the soothing climate of Italy. Before leaving for the south he gathered his strength for the administration of a last communion service, although, as he wrote, "scarcely able to crawl." Then he gave his farewell to the members of his flock and retired to his chamber. As the evening of the Sabbath day gathered its shadows, he came forth wearily, and laid in the hands of one of his relatives this hymn of eight stanzas. Thus was this prayer in hymn born in an hour of deepest darkness and bitterest disappointment.—Heidelberg Teacher.

WE AGREE WITH THE VICE PRESIDENT

Mr. Marshall says: "If we believe in peace and if our words are not mere lip service, the time has come in the history of the world when the mothers of men shall cease to put into the hands of their sons the drums and rifles and little guns of warfare and shall cease pointing out to their children statues of men who have waded through slaughter to a throne. Rather shall they point out to them the statues of those whose lives have made for righteousness, amity and peace."

Just this week we saw a mother get off the train with twin boys both of whom were dressed like Indians, and they had each of them a good size toy pistol. The spectacle to an intelligent person was more sad than funny. To think that those boys had to be raised by such a mother was indeed lamentable.

A Rule of Happiness.

Happiness begins in the heart and soul. Everything that earth has to offer could be brought to a raving lunatic and could not make the lunatic quiet nor happy. It is the human mind from which the feeling of joy must flow. Circumstances come second, not first.

So one can study happiness with the mind. What does it come from? When the mind perceives that a thing is good, really and truly good, and worth while, the first step toward happiness can be taken. The mind must therefore search out what is good. Pleasure attracts most young minds, and there are plenty of right pleasures. But pleasure is not the highest good of the universe. Those young people who think clearly about life will soon find much higher happiness in it than mere pleasure.

All of the highest good of life is obtainable. That is its characteristic. Everybody can make money. But everybody cannot have the love of God, faith, hope, love, peace and power. So the will must come into play in reaching happiness. A resolution to gain a share in these high joys is the next step, and then persevering search for that share. It is always larger than the seeker thinks, and it is enduring.

In this way one will learn happiness; take hold of it, and keep it in increasing measure, the true, lasting "joy of the Lord."—Home and School.

Give Feet Daily Attention and Avoid Many Feet Ills

FEET
A great many adults have weak feet. This is because in their childhood they contracted many bad foot habits or else were made to wear shoes that were too small or sometimes too large.

Then they did not notice it, for their bodies were as pliable and supple as the elasticity of tissue and muscles decrease and then foot ill develops.

If people would give as much daily attention to their feet as to their hands, many foot ailments could be avoided. Careful attention to the fit of one's shoes will prevent the forming of blisters. An ill-fitting shoe that rubs the heel will cause blisters to form. Another

would prevent a recurrence of the trouble so to it that different shoes, ones that do not pinch the toes, are worn.

While exercise is the best possible means of obtaining health there are three very essential don'ts: Don't strain, don't overdo or don't exercise if one feels "all tuckered out."

WHY TEETH DECAY

There are more than 30 varieties of germs usually found in the mouth. They are not there when a child is born but they begin to arrive soon afterwards.

In addition to the germs each person has in their mouth there are others such as pneumonia and diphtheria germs which are only to be found in some months.

The ordinary germs secrete alkaline substances which are not harmful to the teeth. But there are a few which produce acid and these cause decay.

Little particles of food lodge in a crack or some shielded place in the tooth. Into it germs find their way. They grow and secrete acid. The result is a cavity. The larger the number of germs, the more acid and the greater the cavity.

In short, decay in the teeth comes from acid working in one place. Acid comes from germs and germs thrive upon food refuse.

Cavities may be cleaned out and filled. But the wise and sane process is to keep the mouth and the teeth so clean that decay will not make its appearance.

In case of an emergency—if a child is choking slap it on the back between the shoulders. Raise the child's arms as high as possible above its head. If the object swallowed is small let it go through the body. Assist this by getting the child to eat bread and potatoes. Do not give castor oil or other laxatives.

The Handicapped Son of Wealth

By Dr. Charles E. Barker

"Here I am, millions in my credit in the bank—and a pauper in body and soul." Never shall I forget the tragic and pathetic words of this young man of wealth and position in society, but bankrupt in health and morals, who called at my office in Washington four years ago.

He was seeking too late to regain his health, for he had been going "the pace that kills." The lines of dissipation were cut deep in his otherwise handsome face. Disease had wrought its awful havoc with his body and nature had now called for a "slow down." He was simply paying the price.

Bitterly and with agony of soul he said: "Do you want to know who are the worst enemies of my life? Well, I'll tell you. My own father and mother. Why? Because they never denied me anything I wanted as a child and boy. Because they never taught me to obey laws at home and the only laws I knew anything about were my own desires and inclinations. So that when I came into society I went right on to indulge freely my appetite and passions as a young man. You are now looking at the result. Oh, I guess they loved me after a fashion, for they pleased with me with tears in their eyes again and again to straighten up for my own sake and that of the family. That did not soften me then, for you know tears do not offset twenty years of neglect. So here I am, a million in the bank, and recklessness in my bones."

The man who has followed the course of the average son of wealthy parents

will say that this striking arraignment and pathetic diagnosis is correct in so many cases that it is not exceptional. The student of human nature will say that here in America the boy of poor or humble parentage stands a better chance of making good than the son of wealth and luxury. The poor boy need not look with envious eyes upon some son of the rich who are "greasing the way" of life for their boy, while he is compelled by necessity to beat the waves of adversity and either to sink or swim in the struggle. The real child of fortune is the young man who along with stuff and moral fiber is bequeathed the necessity and opportunity of fighting and conquering obstacles and difficulties, up to and through manhood guided by a wise father.

It is a handicap to the average son of wealthy parents to be given over during his maturing years to association with other young men like himself, having plenty of money, automobiles and yachts and little or no training, local ideas about life, and left to follow his unguided inclinations. He hits a hot pace.

King Solomon, that wise old son of an indolent and wealthy father, wrote, "It is not good to eat much honey." "He that hath no rule over his own spirit is like a city that is broken down and without walls." I urge upon fathers the necessity of disciplining their boys, of teaching them to obey authority in the home, at whatever sacrifice of time and patience, but tempering their authority with reasonableness. "A wise father maketh a glad son."—Association Men.

CHICAGO GRAIN AND PROVISIONS.

Chicago, Feb. 2.—Weakness developed in the wheat market today owing chiefly to lower quotations at Liverpool. It was explained that larger Australian and Argentine shipments to Europe were expected, and that a fleet capable of loading 8,000,000 bushels had been obtained for Australia alone. Offerings here, however, were small and the market accordingly rallied. Opening prices, which ranged from a shade to 1/4¢ down, with May at \$1.34 to \$1.34 1/2, and July at \$1.25 to \$1.25 1/2, were followed by an upturn to above yesterday's finish.
The close was steady, 1 1/4¢ to 1 1/2¢ to net lower, with May at \$1.33 and July at \$1.24 1/2.
Favorable weather eased corn. After opening 1/2¢ to 1/4¢ off, the corn market underwent some additional decline before beginning to recover.
The market closed steady at 1/4¢ to 1 1/2¢ to net decline.
Oats swayed with other cereals.
It required only a few buying orders to lift provisions.

THE DAY ON WALL STREET.

New York, Feb. 2.—Moderate gains and a few declines were reported at the opening of today's trading, the market lacking the snap and vigor of yesterday's session. U. S. Steel made a trivial gain, which was immediately forfeited, and other active stocks were disposed to yield on light offerings. Industrial Alcohol continued its extraordinary gyrations, with an early gain of 5 at 153 1/2, and Texas company rose two points. Bulls were once more a nominal feature, that part of the list showing more irregularity than industrials and specialties. Secondary offerings were mostly at lower prices.
Further rallies and declines marked the dealings of the forenoon which were far below yesterday's corresponding period. The movement was altogether professional and confusing from the fact that it was restricted largely to ill assorted issues like Cuban American Sugar, Wyllis-Overland, National Enameling and Rock Island. U. S. Steel continued under pressure, but improved later on the advance in allied shares, notably Republic Iron, Colorado Fuel and Glass-Sheffield which gained one to over three points. The unchanged American Smelting dividend caused some disappointment, the list showing heaviness at noon. Bonds were steady.

WETS SEEK OPTION ELECTION AT MUNCIE

Muncie, Ind., Feb. 2.—It became known today that wets have a number of petitions in circulation for an option election in Muncie. The petitions already bear the signatures of several hundred voters, although they have been in circulation only a day or so. Many persons who voted dry two years ago are displeased with the policy of the administration of Mayor Rollin N. Bunch regarding the operation of "blind tigers."

The dries had a majority of 482 when the saloons were voted out of Muncie on March 9, 1914.

FLOOD DANGER NOW PASSED.

Webash River Now Slowly Falling at Lafayette.
Lafayette, Ind., Feb. 2.—The Webash river reached its flood crest shortly before last midnight, a stage of 23 feet, and is now slowly falling, all further flood danger being eliminated by the sudden cold weather. The water reached the highest mark since 1913 and as in that year, partly destroyed Brown street levee.

WOLFE'S SAUER

BAKE IN GLASS

PYREX Glass Dishes for Baking

The Newest, Cleanest, Quickest Cheapest, Best Method

The alert and capable housewife will greet the picture of the dishes shown above with a genuine little "thrill" of surprise and pleasure.

Away with the pots and the pans, the scouring and the scrubbing, the fruitless and endless efforts to clean things which "simply never will be clean!" Away with the tedious, slow baking in utensils which are an abomination to the eye and a sore trial to the temper!

Pyrex is a new process glass that withstands the heat of the hottest oven. It is transparent, strong, will not chip or craze, will stand up under constant long use—thoroughly practical, effective and economical for baking utensils.

With Pyrex you bake faster and better; these glass dishes cook at a higher temperature than earthenware or metal.

You bake and serve in the same dish. You use fewer dishes. You clean Pyrex dishes with the utmost ease—polish them to a brilliant sheen. You save work, time, fuel (money), pantry space.

Every woman with the interests of her home at heart should give Pyrex a trial. Booklet on request showing the wide range of dishes that may be baked and served in Pyrex.

RUFFIAN PREPARES TO CLEAN UP COURT

Charlie Harkenrider Puts Edge on Honeymoon by Going to Jail.

Charlie Harkenrider, Fort Wayne's premier roughneck, strode into the city court, Wednesday morning, slapped his hat down, took a hitch in his belt, buttoned his coat and swept the court, its attaches and the police attendants with a truculent glare and bellowed:

"I'm ready." Whether Charles meant he was ready for trial on a charge of disorderly conduct or in a due state of preparedness to meet any and all comers wasn't quite clear, but Chief of Police Charles Lenz took no chances and put the bully in a seat while Station Master Joe Degitz stepped closer and looked determined. Throughout the hearing Harkenrider was noisy and threatening and he put a climax on the proceedings after he had been given a fine and jail sentence by growing to Judge H. Waveland Kerr:

"I'll make you remember this, even if you are the judge." Harkenrider was released from the county jail early last week after having completed a sentence that he broke into installments by escaping several months ago. He was located in Michigan and brought back to serve the remainder of his term. Last Thursday he went with Eva Sweitzer to Lima, Ohio, where the two were married. They returned to Fort Wayne and took quarters at 617 Clinton street. Harkenrider got drunk Tuesday and late in the afternoon caused consternation in his newly established household by quarreling with his wife and her aged father, a man named Sanders, from Alliance, Ohio. During the trouble Harkenrider discharged a shot from a .38-caliber revolver. The bride fled affrighted from her rooms and called Policeman Gus Lauer, who was later reinforced by Station Master Degitz. Harkenrider was disarmed, taken to headquarters and locked up. He was in an uncommonly ugly mood Wednesday morning and the imminence of trouble in court was not imaginary. Prosecuting Attorney John C. Hoffman has prepared an affidavit charging Harkenrider with carrying concealed weapons and he will be arraigned as soon as he has served out \$20 and costs and thirty days that Judge Kerr put on him.

Clara Burritt is Held. Clara Burritt, a woman of defective mind, who stabbed her brother, George

Burritt, at their home, 1109 Erie street, Monday night during a quarrel in which the family had participated, was arraigned on a charge of assault and battery. Her case was continued until Saturday and she was returned to jail in default of \$500 bond. She will be held until her mental condition has been legally adjudged and some arrangement made to take care of her.

Other City Court Cases.

Dick Schreck, who in former days was a police court regular but more recently has kept out of the hands of the law, was in on a drunk charge and was continued until Friday. He was found on the banks of the Maumee river near the east end of Wayne street, defying the flood.

George Stewart, held on a charge of assault and battery with intent to kill, was continued until February 9. His bond remains at \$600. Henry Williams, who says Stewart assaulted him with a shovel, has so far recovered from his fractured skull as to be able to leave the hospital.

Tim Moore, a drunk, was turned loose.

SHELTERED ALMOST 10,000.

Figures just compiled at police headquarters show that during the year 1915 there were 9,722 men sheltered in the "bum room" and practically all of them were taken care of during the eight colder months. During January this year 3,171 sought lodgings at the police station.

When a twelve-inch shell strikes the water it throws up a "splash" higher than a battleship's mast. This splash weighs about 2,000 tons, enough to drown a small ship.

WILL TRAIN FLIERS IN EIGHT CITIES

Aero Club Plans Schools, Funds for Which Are Being Raised.

New York, Feb. 2.—Preparations for establishing training schools for aviators in New York, Chicago, Boston, Newport News, Augusta, Me., Detroit, Los Angeles and Seattle are being made by the Aero Club of America. Funds already have been provided to assure the training of two hundred men, it was stated.

More than \$200,000 is reported to have been raised throughout the country to undertake the work. A group of men in Illinois has underwritten \$50,000 of this sum to provide training for one hundred aviators.

W. C. Robinson, of Grinnell, Ia., holder of the American endurance record, informed the club he would undertake the training of one officer from the militia of each state.
